ALL-IMPORTANT

A ROUSE yourselves, Democrats, you are surely aware of the uncertainty of politics. Last year's defeat was a very severe lesson, teaching us of the necessity of organization and labor. It was thought the Democratic congressional campaign, like the Russian advance on Japan, was a sinch, but each proved to the contrary and to the good of the opposi

tion. The little Japs organized and applied themselves in a unit to the The little Japs organized and lefense of their National and individual rights; the Republicans quietly fought in a like manner-you know the result. State Chairman Penros is a wily, clever politician and secretly organizes his forces throughout the State to operate quietly and effective-

You may think we are in a strong Domocratic district or county; and we are, too, if properly organized, for therein lies the secret.

To have strong organizations w

must have strong leaders. Do not allow the enemy to gain all the strong posts before the battle begins, but strengthen the weaker points and be on the alert on all sides. Our political battle is about to be waged, fy the cause. Lay well your plans and see that they are executed, for the present good preperation may be a glorious prevention or the all-im portant necessity to the maintaining of the present peace.

True it is that our frends, the ene my, do not outnumber us in this county, but their tactics and persistea effort may do much to overcome our numbers. Let us then do something for Democracy. She needs your every support.

Candidates and prospective future condidates should long ere this effected organizations and be quietly arranging the future, if they purpose in any great victory for themselves or party Again we caution : Arouse your selves !

FULFILLED BEST EXPECTATIONS

EDNESDAY the Democratic State Convention reassembled and fulfilled the best expectations of a hopeful and right-thinking public A man eminently fit, admirably qualified and justly admired was nom inated for Justice of the Suprem Justice John Stewart, of Franklin county, is the embodime of judicial capability and personal in tegrity, and that independence of act ion and speech which at all time characterized him both in public and private life admirably associate with his non-partisian judiciary attain

What matters it that such a may happens to be affiliated with one party or another in National politics His election will guarantee a fit suc cessor to the lamented Justice Dean and no better service could be given to the State than his unanimous eletion to the bench of last resort.

Burgess Refuses to Sign.

Burgess Smith, of Weatherly, will voto the contract awarded by the council to Jere Woodring & Co., of Hazleton, for the erection of a new electric light plant, which is to re place the one destroyed by the burst ing of the fly wheel some time ago. It is claimed by the burgess that an entire new plant is not needed and that

The family reunion season is at hand, and a number of them are on the tapis in this county. They have their enjoyable features and are allowed as the participants.

MY OWN.

14 JW4 -4 Endorsement of Speer's Wines by the Faculty of N. Y.

Dr. Cyrus Edson of New York Board Breaks no Hearts, Excuses no Crimes.

De Desid No. 1997 Proceedings of Health, says there is no better wind in the world. Spect's Port is especially valuable in many cases of weak-ness, debility, etc.

Now it is Washington that is alarmed by the outbreak of a typhoid fever epidemic. The pollution of the Potomac, whence the city gets its water supply, is the apparent cause. Why should American cities not expect this sort of thing as long as they are con-tent to get their water supply out of sewers?

Ethan Alien's Quaint Language.

In the Magazine of History Robert
Dewey Benedict, writing on "Ethan Alle len's Use of Language," gives this illustration of Allen's quaintness:
When he was taken prisoner at Montreal he was brought before the English General Prescott. Allen's narrative tells us: "He asked me my name,
which I told him. He then asked me
whether I was that Colonel Allen who
took Ticonderoga. I told him I was
the very man. Then he shook his cane
over my head, calling me many hard
names, among which he frequently
used the word 'rebel.' * * * I told him
he would do well not to cane me, for
I was not accustomed to it, and shook
my fist at him, telling him that was
the beetle of mortality for him if he
offered to strike." The Englishman
probably had seen enough logs split
with a beetle and wedges to recognize
the appropriateness of the figure of a
beetle as descriptive of Allen's heavy
fist, and when it was described as a
"beetle of mortality" he recognized
that it was a weapon which he would i
do well not to meet.

SEND US A COW,

The Intelligencer has a class of cir-

Steer, Bull or Horse hide, Calf skin, Dog skin, or any other kind of hide or skin, and let us tan it with the hair on, soft, light, odorless and moth-proof, for robe, rug, coat or gloves. culation that makes advertising in its columns rich with results. It has, too, a quantity of circulation at rates, that mean great profit to the person using the paper.

The rate is practically on the basis of one fare for the round

Of course, if you wish to visit both California and Oregon Washington, the cost is slightly more. These reduced rates are in effect on certain dates in months

of May to October, inclusive. They apply from all Eastern points via Chicago, St. Louis or Memphis gateways. The Rock Island System will take you up in either Chicago or St. Louis, or at hundreds of other Middle West points and carry you to the Coast in through Standard or Tourist Sleepers with unexcelled Dining Car service. The Rock Island also affords a choice of routes: on the "Scenic" route you can stop off in Colorado-see Salt Lake City-visit Yellowstone National Park; on the "Southern" route you can go via El Paso, thru New Mexico, then "up coast" to San Francisco and on to Portland or Seattle if desired.

In short, these Pacific Coast excursions offer an unusually good chance to see our western country in a comprehensive manner.

If you desire to go only as far as Colorado, there are excursion rates in effect to that section and return, all summer long, specially reduced June 30 to July 4, August 12 and 13, and August 30 to September 4. Extension trips to Ogden or Salt Lake and return at low cost also.

From September 15 to October 31, 1905, one-way tourist or "colonist" tickets will be on sale to California and the Pacific Northwest-about half regular fare.

If interested, send name and address on this coupon, designating which booklet wanted and to what point you plan to go. Name probable date of start also, so we can advise definitely with respect to rates, etc.

HUMMING BIRDS

Feeding the Bantlings Looks Like a Real Estate or Personal Prop-Bantling Communication. When I first crawled in among the public outcry. Dangerous Operation.

When I first crawled in among the bushes close to the nest the little mother darted at me and poised a foot from my nose, as if to stare me out of countenance. She looked me all over from head to foot twice. Then she seemed convinced that I was harmless

over from nead to foot twice. Then she seemed convinced that I was harmless.

She whirled and sat on the nest edge. The bantlings opened wide their hungry mouths. She spread her tail like a flicker and braced herself against the nest side. She craned her neck and drew her dagger-like bill straight up above the nest. She plunged it down the baby's throat to the hilt and started a series of gestures that seemed fashioned to puncture him to the toes. Then she stabbed the other baby until it made me shudder. It looked like the murder of the infants. But they were not mangled and bloody. They were getting a square meal after the usual humming bird method of regurgitation.

They ran out their slender tongues to lick the honey from their bills. How they liked it! Then she settled down and ruffied up her breast feathers to let her babies cuddle close to her naked bosom. Occasionally she reached under to caress them with whisperings of mother love.—Country Calendar.

A Question of Science.

A Question of Science.
"I remember when I was a student at Wyoming seminary," said a clergyman, "a farmer came to Kingston to visit his nephew, whom he was educating.
"The farmer had no urban polish. His tea when it was brought was very hot, and he poured it in his squeer, to his nephew's great mortification.
"Finally, unable to restrain himself, the nephew was so rade as to say.
"Uncle, why do you pour your tea in the saucer?"
"The old farmer looked up in sur-

In the saucer?

"The old farmer looked up in surprise. Then he said in a loud, hearty voice:

"To cool it, to be sure. The more alr surface you give it the quicker it cools. These here modern seminaries don't teach much science, do they?"
