Railway has opened up new avenue of trade and is doing a thriving business. We all clamored for the street cars and are blessed with the best on on the globe. Our citizens appreci ate the convenience and use then ex tensively. Bloomsburg and the man families resiling along the twelve miles' stretch of street railway con tribute their patronage.

should be, what can it be attributed to? The advantages the trolley line gives should cause things to move more steadily, or rather increase the trade. When the day's work is ended our people board the street cars and leave us deserted streets. Can it be they go to other towns to do their shopping? We fear this is the case in many instances, and can only accredit it to the lack of proper adver tising. Danville's merchants are in-They even do not take care of their own. something to turn up.

A GIRL loafer. That does not sound very pretty, does it And yet there are a good many girls whom the title fits. In other words, there are girls who spend their time doing absolutely nothing. Circumstances do not render it necessary for them to earn their living, and so they stay at home and fritter the suits or idleness. Don't a good many of them lie in bed in the morning and let their mothers get up and get breakfast? And don't you think they also dress up in their best clothes and spend the afternoons enjoying themselves while their mothers stay at home and prepare the evening meal? And when they are hon they spend their time reading trash novels or trimming equally trashy

portunities, and do not leave of neighboring towns draw all the trade

When a girl goes to a party and i late in getting to bed she looks on it as quite proper and natural that she hould be in bed late the next morning, and all of the family accepts the fact as a matter of course. But if the mother is up half the night with an ailing baby neither her lazy daughter nor any other member of the family seems to think it necessary that she broken sleep.

Repairs on the St. James Lutheran church, Turbotville, are progressing as rapidly as the workmen can do the work. The steel ceiling is all up and ready for the painters and decorators. The new window frames are in place ready for the sash. Painting the outside of the building, frescoeing the side walls and laying the raised floor remains yet to be done. It will be several weeks yet before the church will be ready for services.
