STATE AID FUR BOROUGH STREETS

Roads law under which the State Highway in Mahoning township was constructed, who can not understand how State Aid in road building ap-plies to Boroughs and fanoythat those persons labor under some misapprehension, who advocate the macadamizing of North Mill street under the Good Roads Law. The following section from the Law Providing State Aid in Construction and Maintenance of Pub-lic Roads as approved May 1, 1905, will clear up the whole matter and will show how nicely the law applies to that portion of Mill street between Center street and the Borough line, which is just now the only bad section in a long stretch of highway.

Section 17 provides: Where a por-tion of an important main highway, traversing one or more townships and for the improvement of which accord-ing to the provisions of this act application has been made by said township or townships, shall lie within the limits of, or traverse, any borough or boroughs, and where the failure of or unimproved section in a continuous improved highway, it shall be lawful for the County Commissioners of the county in which said highway is located to enter into an agreement with said borough or boroughs to bear a portion of the expenses of said improvement of the highway within the borough limits in the same manner as is herein provided for the co-operation between the counties and townships: Provided, That an improved road shall have been previously constructed in an adjoining township or borough to the line of the borough making appli-cation. The State Highway Depart-ment may, if the State Highway Commissioner so recommends, bear a por-tion of the expense of said improvement of said highway within said bor-ough limits; but in no case shall the portion of said expense to be borne by the State exceed seventy-five per centum of the total expense of said im nm of the total expense of said in provement. Boronghs shall only receive aid from the State, as aforesaid in cases where failure to receive such aid would prevent continuous impovement of an important main high-
