The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to ure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucons surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Imagination in some people is exceedingly strong. One day recently a local physician was talking to a friend about the power of it.

"Will," said the doctor, "you have about the strongest imagination I ever knew of."

"My imagination isn't very strong," replied the other.

"Yes it is. Some day I'll prove it to you," said the physician. A week later the two men were walking downtown together when the doctor handed his friend a cigar.

"It's mighty strong, Will," he said; "so strong, in fact, that the same brand frequently makes me sick, but it's all I have."

The other smiled. "It won't make me sick," he said. He lighted the cigar, Just as they were about to part the doctor said:

"Will, you're looking pale around the gills. What's wrong?"

"Frankly," said the other, "that cigar has made me slightly ill. I never smoked as streng a weed."

It was the doctor's turn to smile. "That's one of the mildest cigars made," he said. "I was fust trying to show you how strong your imagination is." show you how strong your imagination

An American millionaire while driving an automobile in France ran over and killed a dog. Near the scene of the accident was a peasant, presumably owner of the dog. To him the millionaire gave a bank note. None the less, the peasant would not keep the bill, and when the automobilist rode past that place some months later he discovered the dog's skeleton at the side of the road with the bank note attached to it and a penciled line calling attention

The expectation was disappointment, however, and the per-fidious legislator rather than his in-tended victims is suffering the conse-quence of his folly.

Plummer's Crowning Outrage.

It was during the session of 1903, moreover, that Plummer made clear his servility to the machine and treachery to the people by openly opposing personal registration. The members were unseated the day before the close of the session, in order that the claimants might get the salary of \$1500 each and the perquisites of the office.

Base Use of Political Power.

Political iniquity was never in-roked for a baser purpose. The testimony was overwhelmingly in favor of the sitting members, and during the inquiry offers were made to abandon the contest in consideration of support of certain legislation by the gentlemen concerned. Even the most daring of the machine leaders hesitated about perpetrating so palpable an out-rage. But when the offers of compro-mise were indignantly refused, Chairmittee, voted against it.

As a "dodger" Mr. Plummer proved himself quite artful, moreover, during the session of 1903. That is he "dodged" several very important measures upon which public interest had centeraced. For example he is recorded as "absent and not voting" on the bill providing that election officers must be residents of the districts or divisions within which they act, as Legislative Record, pages 1029-30. The bill was notoriously designed to protect election frauds. Its effect would have been to legalize the phantom election officers of which so much is now heard in connection with the padded registry lists. He also "dodged" the vote on the bill providing that where a certificate of nomination is not sustained by the courts the petitioner shall be compelled to pay the costs.—Legislative Record, page 2, 2029. The obvious intent of that bill was to prevent attacks on machine made tickets. With such a law in force nominations by certificate would be hazardous and might be very man Plummer commanded the admiration of the banditti by boldly declaring in favor of the contestants and award-ing the seat of Francis X. Harvey, Plummer, who prepared the reports by perversion of the evidence, was the only man who defended the inf-quity, though it was assailed with great emphasis and considerable ve-hemence by both Democrats and Republicans on the floor. Frank B. Mc-Clain, of Lancaster, floor leader of the Republicans, was justly indignant at such a betrayal of honor and honesty.
"If I felt that the sitting member from Cameron (Mr. Blumle) was not honestly entitled to his seat." said Mr.

cestly entitled to his seat," said Mr. McClain, "I would vote to unseat him. But after diligent and unprejudiced inquiry and examination of the evidence submitted, I can find no reason for thus dealing with him." Thomas V. Cooper, the veteran and eloquent representative of Delaware county in house of representatives, also spoke earnestly against the adoption of the report, saying that he would cheerfully vote for it if any member of the elections committee who had signed it would give even a shadowy reason for it or produce a scintilla of evidence that Mr. Blumle was not entitled to his seat. Neither the report nor the speech of the chairman of the committee does this, he continued, Plummer's record on this crowning outrage may be found on pages 3729 to 3740 of the Legislative Record.

charter.

He supported the notorious Kingston Dam bill which was intended to bestow on machine favorites authority to seize the canal as well as all rivers and streams of the commonwealth.

The iniquitous filtration bill, which was designed to enrich certain favorites of the state machine and would have put the people of all parts of the state under the mercy of the "gang," received his active and earnest support.

We Call Especial Attention

To the quality of materials and workmanship employed in Wooltex garments. All materials are tested for purity, strength and color and are thoroughly shrunken before making. The inter linings are of the best hairoth and canvasses. The sewing thread is of a pure dyed silk; not imitation silk which will soon cause ordinary garments to look rusty and old.

The materials are so moulded into shape by expert men tailors that a perfect fit is assured, and Wooltex garments will wear longer and , ok better than those in which any of the small but important details are slighted.
