RECEPTION FOR PASTOR AND WIFE

The members of Shiloh Reformed church Tuesday tendered a reception to their pastor, Rev. Joseph E. Guy, and his wife, which proved to be a most delightful affair. The reception was held in the lecture room of the church, which was most beautifully decorated for the occasion, the ceiling being festooned with bunting while at the front of the room the church col-ors-black, red and orange—were prom-

present. The newly installed pastor and his wife, who occupied a position near the front of the room, were introduced to the members and others invited by the officers of the church. Some fifteen minutes were specif in this way, after which a very appropriate program was rendered.

Rev. C. D. Lerch read the scripture and followed with prayer. The choir rendered an anthem in excellent style, after which Rev. L. D. Ulrich delivered the address of welcome, an ϵx -ceedingly felicitous and appropriate

ceedingly relicious and appropriace
effort.

The Double Male Quartette rendered a fine selection, which was followed with an address by Dr. Jno. Sweisforf on behalf of the Consistory. Dr.
Sweisfort was followed by D. R. Williams with an address on behalf of the
Sabbath School.

George Eggert rendered a solo very nicely, after which Mrs. Greenawald spoke on behalf of the Ladies' Aid So-

spoke on behalf of the Ladies' Aid Society.

There was a charming selection by a mixed quartette, after which C. C. Ritter gave an address on behalf of the Ohristian Eudeavor Society. The Double Maie Quartette sang a selection, which was followed by the address of the pastor. Rev. Mr. Goy, who spoke in a feeling and appreciative vein.

Among the clergymen of town who were present were: Rev. J. E. Hutchison, Rev. S. B. Evans, Rev. Dr. McCormack, Rev. E. B. Dunn.

The reception wound up with the serving of refreshments, consisting of codies, cake, etc.

TOMMY MASLIN AT Y. M. C. A.

An andience something larger than usual assembled in Y. M. O. A. Hall Amony, at Sanbury, Tuesday evening, the occasion being the public seed of ferronou to hear the address of Tommy Maslin, who has been social between this city and Bloomsborg during a week or so past. Tommy Maslin is truly a wonderful man, with a remarkable career and as was matural the address had about its a peculiar fascination. Not only, has been tommands attention, but he has many its manural the address had about its peculiar fascination. Not only, has the man a message to impart that commands attention, but he has many of the gifts that make up a strong speaker. He wastes no words, but is terse and logical, often eloquent, and he drives home the truths he utters with great power. All this is remarkable in view of the wasted years of its life and the utter-laked from the drives home the truths he utters or inclination has been occasion being addresses the same time to receive one he drives home the truths he utters or inclination has been occasion being addresses and about its a peculiar fascination. Not only, has the principal features being addresses, by Attorneys C. M. Clement, I. Clin.

Tommy Maslin is truly a wonderful interesting of the School as week's vacation of the Parly Monday night it was decided to grant Monday night it was decided to t

sport of circumstances. His first term of two years in the penitentiary was spent for a crime that another committed, although he might have escaped had he made a clean breast of what he knew, incriminating the real ordender. Disgraced himself and after draging his parents and brothers and sisters along down with him, at the expiration of his term he was turned out, as he put it "to sink or swin, one day up and many days down." From them on the life he lad was the usual life of the ex-convict, the gambler, the drunkard, until he tound himself again in the penitentiary and served nineter months of a two years' sentence for shooting at a man in a served nineter months of a two years' sentence for shooting at a man in a served nineter months of a two years' sentence for shooting at a man in a served nineter months of a two years' sentence for shooting at a man in a served nineter months of a two years' sentence for shooting at a man in a served nineter months of a two years' sentence for shooting at a man in a served nineter months of a two years' sentence for shooting at a man in a served nineter months of a two years' sentence for shooting at a man in a served nineter months of a two years' sentence for shooting at a man in a served nineter months of a two years' sentence for shooting at a man in a served nineter months of a two years' sentence for shooting at a man in a served nineter months of a two years' sentence for shooting at a man in a served nineter months of a two years' sentence for shooting at a man in a served nineter for shooting at a man in a served nineter for shooting at a man in a served nineter for shooting at a man in a served nineter for shooting at a man in a served nineter for shooting at a man in a served nineter for shooting the year, \$12,40.70. On motion of Mr. Pursel the use of the class in stenography one class i usual life of the ex-convict, the gam-bler, the drunkard, until he found him-self again in the penitentiary and served nineteen months of a two years' sentence for shooting at a man in a bar room brawl, the consoling cir-

It occurred between six and seven o'clock, when few people were on the street. Suddanly with a noise that resembled the report of a cannon several hundred weight of brick became detached from the eaves of the Seidel building, three stories high, and fell down on the storte.

**People rushed out of their houses on every side under the impression that an explosion had occurred somewhere, probably in J. C. Patterson's cellar. Mr. Patterson, however, was as much mystified as any one learned what had happened.

The cornice in the Seide building three stories fit is an original to the store.

The cornice in the Seide building three stories high, and fell down on the store was as much mystified as any one learned what had happened.

The cornice in the Seide building is built of brick. This is the process of time had become insecure, the moitar between the brick orumble ng and falling out. Last night the limit was reashed and the bricks fell. Fortunates reashed and the bricks fell. Fortunates are also and the standing that had been sense ours, the moitar between the brick fortunates are also and the bricks fell. Fortunates and thread that had the bricks fell. Fortunates are also and the bricks fell. Fortunates and the bricks fell. Fortunates are also and

be saved only by taking stimulants. But he didn't believe it and chose to die rather than put to his lips the dreadful curse that had brought him so much misery. He recovered while the man who attacked him went to the peniteutiary for two years. The sincerity and the goodness of Maslin is shown by the fact that after the man who so nearly murdered him served his term Tommy found him one day and hepled him along by giving him money out of his own scanty store and looking after him from then on until he finalfy succeeded in effecting his conversion.

The shown by the fact that after the man who so nearly murdered him served limit of the patrons of the schools; and it is conversion.

Whereas, A section of said at retives numbering at least a hundred had it occurred at the right time, was the breaking from its cable of the ferry beat maintained by the county on the Susquehanua between Berwick and Neagopeck, while the bridge is being child. While William Wenner, the regular ferryman, was absent from the boat adout quarter after eight o'clock. Challes Wolf went to the ferry on the Nescopeck side, and being in a norry to cross the river, started the boat across himself.

When Court was opened the usual

inquiry as made concerning cases on the docket. It developed that there were a large number of these, which were in turn taken up and disposed of. Three of these which stand as a sample of all the others, follow here.

Case No. 1165 was that of Common-wealth vs. W. V. Oglesby. Mr. Oglesby was charged with "over-exertion. The defendant being the Judge presid-ing opened the way for some com-plications, it is true, but the case was disposed of to the satisfaction of ev erybody including the defendant, who pleaded guilty and threw himself on the mercy of the Court. Colonel New-ton made a strong plea for clemency, stating that it was the first time the defendant ever committed the offense

of his natural life. Case No. 1170 was that of Commonchurch supper. In this case the attor-ney declared that the indictment was defective and moved that it be "squash ed." The fatal defect, he said lay in the fact that the term "oysters" was used instead of the singular form "oys-ter." Who, he significantly asked ever heard of more than one oyster at church supper at Danville? His Hon-

money out of his own scanty store and sare with the fact that the Santa Claus mail is already quite heavy Postmaster Harder, of this city, is anxious that the people be properly posted as to how holiday goods should be sunt through the mails is handled by many persons not connected with the post office, sun as wagon drivers, railroad hands and stated that should be mail are often thrown on platforms from cars going at full speed, and rough usage is simply unavoidable. Care in directing mail is suggested. Mails persons the contract of the care of the care of the care of the contract of the care of the contract of the care o

work. His wife and children after seeing him reform were claimed by death and the poor man has had sorrow after sorrow.

His home now is at Perkasei, Bukos county. He has a second wife, who accompanied him to Danville eight years ago and assisted Tommy in his evangelistic efforts.

Pennsy Freight Congestion.

The great press of freight traffic in the Sunbary division of the Pennsylvanic courtinues and Nescopeck had a demonstration of this yesterday.

A train bound from Sunbary to Wilkes-Barre was compelled to lay in mine at. Shamokin, yesterday morning and the sunbars division of gas in the Luck Fidler will and the county. The ferry boat continued alone on its way down stream with the current until it it ruck the rapids, were it foundered and sunk to the bottom. Had the accident occurred in the morning or evening when the workmen and girls are crossing the stream to and from work, nothing could have prevented a horrible loss of life. Yestevated as the next meeting place.

R. C. JACOBS IN DANVILLE

Add to this, the uncertainty of fair weather and you have conditions that are likely to result in long hold ups in such work as road building Mr. Freeman with a force of men will likely remain on the ground a few days longer making some changes in grade, drainage, &c., needed to satisfy property owners. With the next change of weather at most he will leave and there will be a suspension of all work

until next spring.

The amount of work required to bring the road fully up to specifications is not great and can be finished op in considerably less than a month.

Mr. Jacob very much regrets the delay that has occurred and no one feels
the disappointment more keenly than
himself that the work can not be completed at the present. During the summer he was building a State Highway mer he was building a State Highway in Lancaster county. His representative, Mr. Freeman, would have been here early in the fall, but just as they were about to take up the road here 1000 feet more were added to the highway they were building in Lancaster county, which detained them. Mr. Jacob stated that it is his determination to give Mouter country. tion to give Montour county a perfect piece of State Highway.

The Maryland Construction Com

pany in its relation to the State High of "over-exertion" and that he would never "do it again." The sentence of the Coort was that the defendant be committed to the Old Ladies Home at gin with the highway here was one of Wilkes-Barre at soft labor for the term the methods employed, even the plans themselves, were new and since then, er applied for simpler and easier. Plans and specifications for a high

way between Danville and the Valley township line, if made today, would bring out altogether a different kind of a road from the one constructed.

A number of our citizens intereste out was not quite what those present thought it ought to be and the meeting adjourned to reconvene in the Engine House of the Washington Hose Company at 7:30 o'clock on Friday night next.

The object in meeting in the Grand

The object in meeting in the Grand Jury room was for the purpose of creating a more general interest and to show that there was no disposition to restrict the honors to the Washington Fire Company. A general attendance is desired at the place of meeting on Friday night. The time is very short. Last year the arrangements were begun on December 5th., over a week earlier than the present, and there was no time to spare. On Friday night committees will be appointed—one to arrange for the mosic, one on finance to raise the the music. one on finance to raise the the music, one on mance to raise the funds required, a committee on floats, as the intention is to interest the merchaut; as last year, and a committee on prizes, the feature which mittee on prizes, the feature which

Relating to Castle Grove.

whole country and will be glad to learn that the place with all its fine appointments will be kept intact at least for another year.

The three farms bave all been rent-ed out, "on shares." Jonas Sassaman will occupy the Chamberlin farm; R. will occupy the Chamberlin farm; R. A. Welliver, the Morrison farm, and David Krum, the Sechler farm. The green houses which are unrivalled in the state as well as the extensive ice ponds, have also been rented out. The future of the beautiful villa on

ed is by no means certain. It is at present occupied by members of the family surviving the late John R. Bennett. The stables at present are occupied by two teams of horses and the establishment is kept up in many respects as formerly. Further plans will be made next spring, which will affect not only the mansion but the fine golf grounds and other appurte-

Make up your mind to attend the primaries and see that only the best men are nominated.

CONFERENCE

The D. L. & W. Railroad Company

learned that G J. Ray, Division En-gineer of the D. L. & W. Railroad Company, will come to Danville to-morrow morning for the purpose of meeting the Sewer Committee of Coun-cil and G. F. Keefer. the Borough Surveyor, the object of the conference such a way that will not place too

heavy a burden upon the municipality
In what respect the terms will differ
from the former proposition is not
known, but it is hoped that they will be very generous; otherwise but little will come out of it. It is clear that will come out of it. It is clear that the present Council will not agree to anything like the former proposition, which provided that the D. L. & W. Railroad Comgany pipe the bottom and the Borough of Danville fill up and the Borough of Danville fill up the canal. The expense of filing, it was argued, would be enormous; also that while the Borough might get rid of the drainage nuisance, for which it was not responsible, the Railroad Company would be immensely the gainer by having a long strip of land embraced by the canal improved ed in which the strip of the drainage nuisance, for which it was not responsible, the Railroad Company would be immensely the gainer by having a long strip of land embraced in which is the strip of land embraced in which is the strip of land embraced in which is the strip of land embraced in the strip of land embraced in which is the strip of land embraced in the strip of land

The old ditch is not improving any with the lapse of time. A few weeks ago, during the dry weather prevailing, it was discovered that a quantity of waste matter from the Hospital for the Insane drained into the canal, polluting the bottom throughout the en-tire length of the Borough and render-ing conditions doubly bad. In view of all the facts it is hoped that the railroad company will do the right thing and that Council may see its way clear to co-operate with the owners in some way that may relieve us of the canal nuisance before another summer comes around. The matter should receive careful consideration by Coun-

Big Convention Convenes Today. All day yesterday delegates and vis-itors from all over the Pennsylvania anthracite region gathered at Shamok-in to attend the tri-district convention which convenes there today. dent John Mitchell arrived at Shamokin late Monday night, but would make no statements for publication outside the fact that matters are in the hands of the delegates and will be

disposed of by them. From Wilkes-Barre alone nearly 500 From Wikes-Barre atone nearly our men went to Shamokin yesterday, like numbers going from all over the coal fields, the Pottsville region sending especially large delegations, which ar-rived at Shamokin last evening.

Yesterday morning President Mitch-ell held a conference with President ell held a conference with President John Fahey and other leaders of the ninth district. Michtell is preparing an address that he will deliver at the opening session, and the advice and arguments that will be contained

therein are eagerly awaited for.

It seems to be the general feeling among the delegates and officers that there will be no trouble between the al state that an eight hour day and re ontributed so largely to the success of last year's parade.

The sum of money needed will not be large. Last year \$32 paid all the bills. Thirty-five dollars will be the maximom sum required this year. any one day at the present time, there-fore it is the opinion of those who are in a position to know, that these con-cessions are sought and may be de-sired, yet the miners will be satisfied P. E. Maus of Mausdale, has accepted a position as Superintendent of Castle Grove. Danville people have always felt great pride and interest in working agreement and a continuation

New Switch Under Way

Work was begun yesterday morning on the new D. L. & W. switch in this city described in these columns. Tues-

Work was begon on the frog which will be located at the alley just east of Mill street. The long ties required at this point were on the ground yesterday morning and a good start was made during the day. The switch will extend as far as the alley east of the Salvation Army barracks, which will give the maximum of room for the give the maximum of room for the

A good deal of excavating will be required along the entire length of the switch in order to bring the track to the level required. The work is being done by the two crews of trackmen, whose sections meats at Densities. A good deal of excavating will be

THE SAD CASE OF JACOB WEIMER

The D. L. & W. Railroad Company manifests keen interest in conditions here relating to the old canal of which that corporation is the owner. Ever since the company's proposition to fill up the old waterway with the aid of the Borough was turned down by Council last summer the Railroad people have been auxious to revive the matter in some form.

During an interview with Councilman J. H. Goeser yesterday it was learned that G J. Ray, Division Engineer of the D. L. & W. Railroad and sending the money to his family and sending the money to his family

days, whereas the longest time required for full information in reply under normal conditions would be some thirty or thirty-five days. In view of the horrible massacres that have tak-en place in Kishenev where the fam-ily reside the continued silence is full of dreadful portent.

of dreadful portent.

The shoemaker still clings to the one hope that the delay in the Post Office department in delivering the funds sent by money order and his wife's consequent failure to reply is due to the disorders existing throughout the empire and the various strikes that have tied up the railroads and the handling and delivery of mail. The same disorders which have tied up the same disorders which have tied up the

ed by the canal improved and enhanced in value principally at the Borough's expense.

The outcome of the conference will no doubt figure in proceedings of Conneil temorrow night. Meanwhile there is much speculation as to just what proportion of the heavy burden the owners of the old canal will consent to hear in order to wipe out the coverning his family. He is delightwhat proportion of the heavy burden the owners of the old canal will consent to bear in order to wipe out the nuisance.

The old ditch is not improving any with the lapse of time. A few weeks ago, during the dry weather prevails ago, during the dry weather prevails he is convinced that with the nice lifhe is convinced that with the nice lif-tile business he has built as he could keep them royally, providing them with not only all the comforts but even with some of the pleasures and luxuries of life, which was more than they ever dreamed of while abiding in the land of the Czar.

Tamaqua Downs Danville.

The Dauville basket ball team was saught beneath another land slide at the Armory Monday when the Ta-maqua team easily defeated them by a

score of 75 to 27. The game was fast and sensational throughout, but especially in the sec-ond half was the playing of both teams desperately determined. Tamaqua desperately determined. Tamaqua played superb ball, clearly outclassing the local tossers. Danville, however, although they knew from the statt that they were doomed to defeat, did not quit, but played hard to the finish, making the Tamaqua team earn each goal that was tossed.

In the first half the teams seemed In the first hair the teams seemed somewhat evenly matched, the sooring being 33 to 21 in favor of Tamaqua, the visitors playing without appeared effort. Near the end of the first half a fracas occurred between Hough. Tamaqua's star guard and Peters, so that the relations were somewhat straiped when the teams started the second half, and Tamaqua's whirlwind playing that figuratively speak-ing, and often literally, took the Dan-ville boys off their feet, it was exville boys off their tees, it was ex-plained by one of the visitors, was due to a determination arrived at be-tween halves to "roll 'em p." They rolled 'em up—42 points to Danville's 6, Hough alone making 12 goals in this
