AUTO LICENSES WILL FILLING THE ENRICH THE STATE

Yesterday was the day set for the is tors and tags for automobiles from the law passed by the last Legislature. Up to the present there have been about 300 applications for licenses, but none have been issued for the reason that the tags have not yet arrived. They were shipped some time ago, but delayed on the road.
e first license issued will be to

The first license issued will be to Harry S. Beidler, of Doylestown, a constituent of Senator Grimm, the fa-ther of the automobile bill. Senator

must have a license, obtaining it from the State Highway Department, for which they pay \$3, which entitles them to a tag for the automobile they drive. The applications come from all over the State, the most of them from the

will be defrayed. As soon as the law is fully understood the rush for licenses will be something enormous. It is said that in Philadelphia alone there are several thousand automobiles, and the police will take good care that the ers pay the fee and display only issued by the State.

Descendant of Prominent Family

The death of John C. Fuller, one of sport's well known citizen urred at the State Hospital for the Insane on Monday night. He was brought to this city on March 31st

The deceased was form at Audum, N. Y., on December 23, 1839. His father was Jerry Myron Fuller, a brother of the father of Chief Justice Fuller. His mother's maiden name was Lydia Newlin, a cousin of Millary Willy and the statement of the country of the statement of the statement of the country of the statement Presidency on the death of General

Fuller was at Galveston, Texas Mr. Fuller was at Galveston, Texas, when the Civil war started. To escape being pressed into the military ser-vice of the Confederacy he did not wait to collect a week's wages due him but fled to Chicago. He had work-ed in Galveston as a clothing cutter, having followed the business since he

Commissioners have selected three hundred names for 1906 as against four hundred for 1905. The term of court, which will meet in January is the term which under the old order con-Grimm made the request that Mr. Beidler be given license No. 1.

The division has been fully organized and is in charge of Roy D. Beman, with H. M. Gutshall, of Meadville, as each district bears the same relation each district bears the same relation.

to its whole number of voters as the Mr. Beman says the distribution of licenses will begin in a few days, or as soon as the tags arrive. After January 1 all operators of automobiles must have a license, obtaining it for

becomes very small.

In selecting these names the Jury
Commissioners have a fine opportunity
to serve the county by exercising care
and discrimination, to the end that
none but names of the best qualified men are put into the wheel. The very aged, the deaf, or men physically ur The revenue of the department, derived from the sale of licenses, will amount annually to about \$25,000, from which the expenses of the department will be defrayed. As soon as the law which likely as not would lead to em which likely as not would read to embarrassing circumstances. To the above might be added the headstrong man, the man known to be blindly prejudiced and the one whose moral perceptions are dulled, all of whom our pressure. ent Jury Commissioners declare the ave no use for.

The Jury Commissioners find noth ing in the mere list of voters that conveys any idea of the man's fitness for jury duty; it is only by being thorough ly acquainted throughout the county

much to say that mistakes are not of-ten made. Neither does it follow that men whose names are not put in the wheel are undesirable as jurors, as the fact must be borne in mind that only a limited number are needed in each district.

Operations Discontinued.

A. R. Freeman, of Erie, a representative of the Maryland Construction Company, took his departure from this city yesterday. All operations have now ceased on the State highway between the Borough and the Valley ownship line, as well as on the sec tion beyond ending at the Mausdale hotel, which latter section is in the

hands of Fiss & Hartman.

Mr. Freeman was at work on the
Maryland Construction Company's
contract for some weeks. But little nore was accomplished, however, than work that pertained to drainage, which in a fairly good shape to weather the winter. Probably nowhere in the State is there a highway that forms a better oriterion to show whether the State's bresent approved method of road building is in all cases efficacious than the tretch of road between Danville and Mausdale. Aside from the heavy traffic smasake. Aske from the neavy trains to which it is at all times subjected winter springs regularly make their appearance under the road bed, with the result that from time immemorial the highway every spring has been a slough of mud, cut up into deep ruts and along highway every spring has been a slough of mud, cut up into deep ruts and ploughed over and over by the wheels. Whether the drainage will prove of the right sort and the road-bed in its unfinished state, heavy enough to hold its own remains to be seen. It would be better for all parties f the road could have received its adlitional course or crown and been fully completed before winter.

Celebrated Golden Wedding.

Alarm of Fire on Saturday.

While three little children in th econd Ward during the temporary ernoon were home alone the house ook fire. The little ones raised a big outery, which brought help in the nick of time to prevent a bad fire.

The blaze occurred in a small hou pied by Mrs. Leidy and owned by occupied by Mrs. Leidy and owned by W. A. Shepperson abutting on the al-ley between East Front and East Market streets. The house is directly opposite Mr. Shepperson's large ic se and is in the midst of a number o'clock Mrs. Leidy's children were in

the house alone. What occurred among the little folks is not exactly known, but in same way a fire started in the building, which soon took a firm hold of the woodwork and threatened to destroy the house.

The outcry was fortunately heard by The outery was fortunately heard by Mr. Shepperson who happened to be near the rear of his lot on the opposite side of the alley. Seizing a bucketful of water he ran to the rescue of the children. The blaze had entered a cupboard and was making rapid head-way

The fire was soon extinguished but had not help been promptly on hand there is no telling what the re-sult might have been.

The bell of the Washington Hose Company was rung and that company responded but by the time they reach-ed the house the fire was extinguished.

Sodality Reception.

A Sodality reception was held at St. Hubert's Catholic church, Sunday night, which had many pleasant fea-tures and was on the whole one of the most interesting events that has taken place at that house for worship for

ome time.

Twelve new members were received nto the Sodality. The services were conducted by Rev. Father Foin, assisted by Rev. Father Feeser of the Holy Family Convent. Father Foin preach-

Family Convent. Father Foil preach-ed a sermon on "Devotion to the Blessed Virgin."

During the services the new Sodal-ity banner was blessed by the priests.

The banner is an especially rich and beautiful one imported from France by the Sodality. It is of silk moire, four feet by six feet, the body being pure white trimmed with gold. On one side is the medallion of the Vir-

which has done service for so many light. The effect of the new light or

Excursion Struck Cold Wave.

With the mercury in the thermon eter flirting with the degrees commo to early Fall, with the weather condi ch as to necessitate street sprink ling, and to make even light over a burden, a big delegation of Blooms-burg and Danville citizens left last Monday morning on the Normal ex-cursion to Washington. That aftercursion to Washington. That after-moon they arrived at the National Cap-ital, to find that city, to their great amazement, wrapped in the hoary arms of winter. The streets, plazas, and other open spaces with which that place abounds, were covered with sev eral inches of snow and sleet. Th difference in the weather there and at home was most striking and is only intensified by the difference in lati-

POLE INSPECTORS

are engaged in making their semi-an-nual inspection of the electric light, telephone and other poles in the Bor-ough to determine how many may be yielding to decay and unfit to remain in service during the winter.

Poles have become a very important factor in the Borough. Asked to guess the total number that line our streets and alleys very few persons would go as high as a thousand, yet this is said to be the probable number of poles all told. There are no less than nine corrections. told. There are no less than nine con

Decay is constantly in progress and the total danger to which citizens would be exposed from falling poles would be considerable were not pre-

caution employed.

The Borough Ordinance provides that it shall be the duty of the Chief of Police once in every six months to nake a thorough inspection of all tele graph, telephone and other poles within the limits of the Borough. If any are found defective or unsafe the owners are to be informed of the fact and they must replace them with safe and suitable poles within forty-eight hours. For neglect a penalty of five dollars is attached.

The two officers have been seen me armed with a stout eudgel in the form of a heavy sledge hammer handle in the further end of which is inserted long pointed spike. It is this odd look-ing implement that enables them to lo satisfactory work in inspecting the

The officers state that a good deal of xperience is necessary to make a good napection. The weak point of a pole s apt to be found under ground at a pot immediately below the surface. t is here that the handle and the long It is mere that the nature and the long pointed spike come into play. With nothing else could they so well pene-trate the ground and determine wheth-er, the pole under the [surface is solid or fast yielding to decay. The work of course is tedious and slow but the officers have covered the greater par of the Borough.

of the Borough.

In nearly every thoroughfare poles are found that are unsafe. The system of marking and numbering insisted apon by the Borough enables the offiers at a glance to tell to which cor-coration the condemned pole belongs and a record is made accordingly.

Congressman Keeps Busy.

Congressman E. W. Samuel, of thi listrict, continues his activity as epresentative in our national legisla ive body. Last week he introduced

two important bills.

The first is a bill to regulate the salaries of letter carriers in towns or cities of less than 75,000 population and provides:

"That in cities and towns contain ing a population of less than seventy-five thousand the letter carriers at free delivery postoffices shall consist of five grades as follows: Carriers of the fifth grade being those in the first year of their service, who shall receive an annual salary of six hundred dollars; carriers of the fourth grade being those who have served one year, who shall receive seven hundred dollars per annum; carriers of the third grade, being those who have served continuously those who have served continuously two full years, who shall receive eight hundred dollars per annum; carriers of the second grade, being those who have served continuously three full years, who shall receive nine hundred years, who shall receive nine hundred dollars per annum; carriers of the first grade, being those who have ser-ved continuously four full years, who shall receive one thousand dollars per annum; Provided, That carriers now serving at a salary of eight hundred and fifty dollars shall not have their calaries decreased. And provided fursalaries decreased: And provided, fursataries decreased: And provided, tur-ther, That the provisions of this act shall be in effect on the first day of the fiscal year beginning July first, nineteen hundred and six, and that it shall then repeal any or all acts incon-sitent theorytik. The other is "a

BURGLAR SHOOTS THROUGH WINDOW

The farm owned by George Edmondon and tenanted by Albert Snook about three miles east of Danville along the P. & R. Railway yesterday morning was twice visited by burglars. On each occasion the robbers were discovered by the tenant and driven off, quite a number of pistol shots being exchang-

ed between the parties.

What adds to the boldness and auwhat adds to the boldness and ad-dacity of the attempt is the fact that the Edmondson farm was visited by burglars—presumably the same parties -less than two weeks ago.

—less than two weeks ago. They might have escaped with a considerable quantity of booty yester-day morning had it not been that Mr. Snook was suffering from an injury to his arm and could not sleep soundly. About one o'clock he was aroused by the sound of a stone falling into the cellar. Remembering the former visit of burglars he called his son, Charles Snook, who is employed in this city but who on account of his father's in-

jury, was spending the night at home. The two men got up to investigate and while walking around the house, came upon the burglars as they were about leaving the cellar with a well filled bag containing a quantity of canned fruit and other goods. The men were defiant and were loath to leave without their booty. Mr. Snook was armed with a pistol, which snapped several times before it went off, while the burglars opened fire on the father and son, the bullets fortunately flying his second trip, an incident which jury, was spending the night at home the burglars opened fire on the father and son, the bullets fortunately flying wide of the mark.

The burglars finally left empty hand-ed, when it was found that they had broken through the outside cellar door tearing away a portion of the masonry It was the falling of one of the stones loosened when entrance was effected that aroused the farmer. It is believ-ed that the burglars did the most of their work while frieght trains were passing, which undoubtedly drowned

The most audacious part of the story what you want? Do you see his reinremains to be told. In about a half an hour, after the farmer and his son had unpacked the bag of stolen goods and restored order as far as possible the two burglars returned. The farmer you listen for the patter of his feet on the bag of the bag of the bag of the patter of the bag of the bag of the patter of the story of Christman and the same of the patter of t and his son then were in one of the the rooms of the first floor. The first intimation they had that the burglars

No? had come back was hearing the report of a pistol outside and at the same moment the crash of broken glass and the whizzing sound of a bullet, which came in through the window.

By this time Mr. Snook had his pis-

tol in better trim and he unceremoniously opened fire on the men, who could be seen retreating. To say that Mr. Snook and his family are alarmed is putting it mildly. They are able to partially describe the burglars, one being a tall, slim man wearing a brown overcoot. The other was a smaller overcoat. The other was a smaller

were stolen from the cellar.

Philip H. Johnson, the architect, who has charge of the new work at the Hospital for the Insane at this place, having returned from his southern trip will be at Danville today on business onnected with the Hospital. There

connected with the Hospital. There will be a meeting of the Board of is Still Trustees at the Institution today and Mr. Johnson will be present.

Just what may take place at the meeting is not exactly known. Active meeting is not exactly known. cording to the report given out at the last meeting on November 10, the plans of the Heat, Light and Power plant, did not fully meet the approval of the Trustees. On that occasion the proposals were to be opened. There were a large number of these on hand, accompanied by men representing the firms bidding. It was decided finally, however, not to open the bids, the trustees later explaining that they desired to add a few things omitted in the specifications and to re-arrange the cording to the report given out at the one side is the medallion of the Virgin Mary and on the other side one of St. Aloysius, the patron Saint of the Sodality.

The decorations on the interior of St. Hubert's church will not be wholly the on the post office and post roads. the specifications and to re-arrange the Ninety-one thousand dollars is available for Heat, Light and Power plant. Philip H. Johnson was architect for Hospital work in Philadelphia. He is a much talked-of man at present and no little interest attaches to his visit to this city today. None of the trus-tees believe that affairs will assume

new buildings to proceed this winter, even if proposals should be readvertised for and contract awarded.

More Serious Than Thought. The injuries received by Dr. Bieran the well known Bloomsburg physician in the D. L. & W. wreck at Hunlock's Creek proved more serious than he at first anticipated. It has been necessary for him to undergo treat-ment since the wreck, an injury to the clavicle having caused him pain and annovance ever since the wreck. Dr. Biddle recently made an examination

such shape as to permit work on th

LACKAWANNA ROAD SUFFERS BIG FIRE

NEW YORK, Dec. 20.—The two new ferry houses and slips of the Cen-tral railroad of New Jersey and the Delaware and Lackawanna near the

foot of 23rd street, were practically destroyed by fire this morning. The fire started near the waiting room of the Delaware and Lackawanna ferry house, the more notherly of the two, and which ran from Twenty-Second to Twenty-third street, along the North River. A brisk wind was blow-ing from the north, spreading the flames with remarkable speed through the entire structure.

The building was soon a mass of flames, which communicated to the Central ferry house, located along the river front from Twenty-first to Twenty-second street.

The ferry boat Hamburg, on which number of painters were at work on

his second trip, an incident which shows the rapidity with which the fire

spread.

The loss will probably exceed half a million of dollars.

A Real Santa Claus.

the depths of your heart. Do you write him letters telling him

Does his sweet name call to your mind the dearest little face in the world, with its perfect faith shining out of its big, serious eyes, as it told you what to tell Santa? And as you cheerfully work your way through the throng of shoppers, never minding the jostling and pushing, does your heart swell almost to bursting with just the pure delight of finding what Santa will bring? As you see thin, wistful faces pressed against toy-shop windows, do you wish that you could buy About two weeks ago when the first for the whole world full of children, attempt was made to rob the Snook family, the house on the Hyde farm at Edgemont was burglarized and a large quantity of butter and other articles den yourself with bundles and sneak around to the back door to evade curious little prying eyes, and feel no jealousy because their jubilant thanks will be all for Santa Claus and none for
