The report for January sent in to the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local registrations of the death rate, etc.

Science has proven catair to be a constitutional disease and therefore requires constitutional treatment, Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio is the only constitutional creatment, and the state of diphtheria; one of typhoid fever; five cases of chickenpox; of diphtheria; one of typhoid fever and two of pneumonia. There were three deaths of diphtheria; one of typhoid fever and two of pneumonia. There were three deaths of diphtheria; one of typhoid fever and two of pneumonia.

As regards diphtheria that the situation is a ditte anticoma and two for pneumonia. There were three deaths of the record for the two previous months it is seen that we have had the disease with us in about the same number of cases and that there is no increase and may be necessary. There is more Catarrh in this sec-tion of the country than all other dis-eases put together, and until the last

Anti-toxin, which is now free to all persons who can not pay for it, Dr. Shultz says, is proving a potent factor in keeping diphtheria within bounds. Anti-toxin, which is now free to all persons who can not pay for it. Dr. Shultz says, is proving a potent factor in keeping diphtheria within bounds. It is credited with reducing mortality anywhere from four per cent. to two per cent. Not only are deaths prevented by administering auti-toxin to counteract the poisonous effects when diphtheria is present, but the development of the disease itself is prevented by immunizing—protecting by inoculation—children who have been exposed but not yet attacked by the disease. The cases of typhoid fever during the month of January is also treading dangerously near the limit, but there seems to be no danger of an epidemic. In December, it is true, there were only two cases, but in November there were nine cases.

During January there were fourteen death certificates issued. These were more than counterbalanced by twenty births reported during that time, which shows that there is no race suicide in Montour county.

D. Ryan, of Illinois, and these men will be the real leaders in the strike.

The anthracite operators have stored millions of tons of coal in eastern Pennsylvania. This coal will be taken out so that the strike can be carri ed on for a year if necessary. It is said that it is the intention of the op-erators of the east to maintain prices equitably during the strike period so as to keep the public satisfied, as it is the intention to break up the miners' union rather than make any money ou

of the fight.

The bituminous coal operators start ed last fall to store some coal. They were suddenly confronted with a de mand for coal and advanced prices which consumed the surplus thus stor ed away. By the first of April it is doubtful if there will be two weeks supply of the coal stored. THINK STRIKE ASSURED.

During the past few days there has been a remarkable change in the opin ion of coal operators in the anthracit region and men who hold high office in the United Mine Workers and wh are known to be close to Presiden Mitchell regarding the possibility of a strike.

When the Shamokin convention ad ourned the region settled down to the ouviction that an amicable adjust-nent would be reached. But the action of the soft coal miners and the de claration of President Mitchell that is a strike is ordered it will include the authracite men have created the belief that the prospects of peace are exceed

Punishing a Proud Maine Judge.

In the early days of Augusta, Me, when the people rode about the country on horseback, a certain aristocratic judge, riding into town one day on his smart horse, was overtaken by a neighbor, a poorly dressed Irishman, riding a rather gough looking animal.

The quick witted son of Erin, grasping the situation, fell back a few paces and awaited his opportunity for revenge.

and awaited his opportunity for revenge.

As they were entering the principal street the Irishman called out from behind: "Jedge —, am I far enough behind yer honor?"

The discomitted judge, sitting very erect, paid no heed to the Irishman.

A little further on Patrick again called out, to the intense amusement of the bystanders, "Jedge —, am I far enough behind yer honor now, sit?"

So, all along the way, Patrick punished the proud judge.—Boston Herald.

Local experience, as well as telegraphic reports from other cities are betraying the unusual dangers from fire during periods of cold weather. No one can be too careful at this time with the heating fixtures of buildings. Fire at any time is disastrous, but in freezing weather when buildings have been thoroughly dried out by long continued and often excessive heat, fire once started gains rapid headway and generally the means of fighting it are crippled by untoward weather conditions.

Its Hills of Dakota.

The great wind cave has the form of an eight story house, each story, or stratum, containing a distinct formation of its own and each containing chambers of a size and magnificence of Be Without This? decoration such as have never been found in any subterranean cavern of found in any subterranean cavern of the world.

It is a dream, a nightmare, a vision, carved in solid stone under the green hills of Dakota, stone as white as the milk the hired man used to give us to drink in the dawn of a happy June morning, stone as red as the heart of the first bloodroot that you dug in the spring when the world was all spring to you and stone that is blue with a blue that all the painters who have ever painted Venice have tried to get for generations and have failed.

Frozen fountains are there, white with the leaping foam of untold ages, sculptured cats and horses and great
