THE LASTING BRICKS.

Once Made, These Cakes of Bake Clay Are Good For All Time.

From the time the clay is dug of of its bed until it finds its permanent ace in some building's walls as a lick it is handled not less than a hun dred times and by more than a scor of different individuals.

Take into account the persons and rocesses directly and ind/rectly in terested in brickmaking, masonr building and inhabiting such buildings and the human mind-is bafiled by fig

and the human mind-is bailed by fig-ures reaching into the trillions-and a trillion is written 1,000,000,000,000 Once made, a brick is practically in-destructible. Nearly every brick that has ever been made by man from the beginning of time is still in existence on this earth. The men who made and laid them and who directed these operations have long since been gath-ered into dust. Some of thera have doubtless contributed in their bodies to the making of more bricks. Put the steadfast and enduring square of haked clay persists and will until the heavens and earth are shriveled like a scroll.

Why Touch-me-not. The columbine, geranium and lark spur we think of together because they are all named after birds—the dove the crane and the lark. The meaning of geranium is "crane's bill," and it you notice the seed pools of a geranium you will see that they do look like the you will see that they do look like the long bill of a crane. The touch-menoi gets its name from a peculiarity of the seed pod, too, but not a peculiarity of appearance. It is the pod you must not touch, for if you do it will burst and out will fly the seeds.—St. Nich-
