Fusion of the Democrats and the

REFORM

Tuesday when the independents en-dorsed three Democratic candidates, and an invincible ticle has been placed in the field. It is a significant fact that this ticket is not composed of self-seckers, but of men who are concerned only for the welfare of the State, the betterment of its politics and the uplifting of its government. They are reformers who have been for reform. We fear the making of this ticket will be a sad blow to our friends of the Organization. They have warn-

will be a sad blow to our friends of the Organization. They have warn-ed both parties against fusion or coali-tion, and employed their most eloquent persuasion in trying to induce the Lancoln men to remain with the gang-sters, but to no<sup>2</sup>avail. The Lincoln-ites are eulisted for the war and their numbers increase daily. Nothing could promise more for the welfare of the State and the people than this union of the forces of re-form. It means that the movement of last year which culminated in re-form legislation and the placing of one d partment of the government, on a sound business basis will be re-newed and continued until honest and business principles shall rule in all departments of the government, until the last vestige of their ownership by the gangsters shall have been obliter-ated and until the Legislature shall of looters or a criminal combination. If an election should be held to-morrow the fusion ticket would be elected by a rousing majority. The fusion victory of last year small in morrow the fusion taket would be elected by a rousing majority. The fusion victory of last year, small in itself but so great in results, achieved so much that all good citizens want more for their beloved State. And they will get it.

Compel Them to Abate the Nuisance.

# From the Milton Record. Bloomsburg and Danville are com-plaining about the nuisance and the danger of stagnant water lying in the bed of the old canal and have appeal-to Dr. Dixon, of the state Board of Health, to help them, to the end that an epidemic may be prevented. He advises them to proceed against the owners. Could the levels be filled up again as in days of yore, or have the feeders been destryed? It's many and many a day since the compiler of this department followed the windings of the canal through Danville and Bloomsburg, and he has failed to keep track of the state of the ditch. n the Milton Rece
