A brand new remarkable series of detective stories, the best ever writ-ten, will begin in THE PHILALELPHIA SUNDAY PRESS on September Second Each story is complete in itself, and one will be published each week. The author has contrived in an ex

While your state Machine is con-trolled by corporations, while your les-fisiture is controlled by your machine, and its controlled by your machine, and its committees are organized in the interests of the corporations, it is no wonder that Labor's demaads go unheeded; it is no wonder that the farmers' interests are ignored and their petitions refused; it is no wonder that taxation is unequal or that trolleys are refused the right to carry freight and express, or that adequate provision for the construction of public highways is not made, or that an enormous sur-plus is piled up in the tracsury, to be used secretly for private enterprises and to finance corporation schemes. The wonder is that intelligent men have so long permitted these conditions to exist, and that they have year after year continued the Machine in power. No fair-inded man has objection to waith honesity acquired and legiti-vated wate the cial nominations sometimes years in advance.
