One of the first things the young rifle shot has to learn is how to take a seep breath, to fill the lungs with air, and then to hold the breath while the rifle is kent absolutely steady and the rifle is kept absolutely steady and the finger is gradually tightening on the trigger. A glance at any successful rifle shot will show you a man with a deep chest and full powers of breath-

Any form of recreation which trains the muscles of the arm and exercises the chest and lungs would seem likely to be beneficful to health, but if that is not enough there is the unequaled training which rifle shooting gives to the eye and to the hand working with the eye. Pensyl, in which the charge was con-spiring to steal a horse, returned a verdict of guilty, convicting each of the defendants as in manner and form indicted. When the case was attached yester day, Ralph Kisner, attorney for Clarence Carr, explained to the court that after due deliberation and acting on advice of others, he had decided to assume the responsibility of withdrawing the place of 'there, guilty', and to ing the plea of "not guilty" and to ing the plea of "not guilty" and to ask that a plea of guilty in a lesser de-gree than homicide be entered. Mr. Kisner said he believed that he should be restrained. He was fearful that, if tried on the charge of hom-icide, the boy might be acquitted and he doubted whether he was fit to go disposed of the prothonotary commission of some act similar to the one of which he is accused.
