U. S. 7-30 Loan.

THE Secretary of the Treasury gives notice that sub-riptions will be received for Coupon Treasury Notes ayable three years from Aug. 15th, 1864, with semi-annual interest at a rate of seven and three-tenths pe ent. per annum-principal and interest both to be paid

n lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds payable not less than five nor more than twenty year from their date, as the Government may elect. They will be leaved in denominations of \$50, \$100, \$500, \$1,000 and \$5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars. The notes will be transmitted to the owners free of

ansportation charges, as soon after the receipt of the original Certificate of Deposit as they can be prepared.

As the notes draw interest from Angust 15, persons naking deposits subsequent to that date must pay the interest accrued from date of note to date of deposit. ON MAIN STREET, BUTLER, PA.,

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified by the officer with who the deposit was made. No deductions for commission must be made from the deposits.

Special Advantages of This Loan. It IS ANATIONAL SAVINGS BAND, offering a higher rate of interest than any other, and the best security. Any savings bank which pays its depositors in U. S. Note considers that it is paying in the best circulating medium of the country, and it cannot pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper. It is equally conveniet as a temporary or permanent investment. The notes can always be seld for within a

fraction of their face and accumulated interest, and are the best security with banks as collaterals for di Convertible into a Six per cent. 5-20 Gold Bond. In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, for the current rate fo 5-20 Bonds is not less than nine per cent. premium, an before the war the premium in six per cent. U. S. stock was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is no

less than ten per cent. per annum. Its Exemption from State or Municipal Taxation. But aside from all the advantages we have enum ed a special Act of Congress exempts all bonds and cording to the rate of taxation in various parts of the
