Eor the Citizen. To the People of Butler County.

The Butler Academy--the Elec-tion on the 23d Instant. The Trustees of the Butler County Academy have spread themselves somewhat, and without any authority of law, or so far as we can understand, without any petition from the citizens of the county; called an election of the citizens on the 23d inst., for the purpose of deciding for or against a proposition to consolidate the Academy property, and funds with the Witherspoon Institute, located in the boro. of Butler. The Trustees tell us that this property is worth some \$1,900. In an address to the people of ing counties. We feel bound to guard against such a disposition of our proper ty. We have not been told the reason why the presbyterian presbytery desires an equal number of trustees in this con templated institution. We can see that

if these four presbyterian trustees can not have their way, in the choice of prefessors and teachers, they could bring the institution to a dead lock. We see that religion is to be taught, now if the pe Dr. Oldshue has given the first full ple of the county should elect a presby christian religion, desires to strip this contemplated Butler County Institute. all taint, or suspicion of sectarianism, le them make it a Butler County Institut

not only in name, but in fact; by allow ing the citizens of the county to elect six trustees in the usual way, at their annu al elections, whose duty it would be t conduct the Institution under a well guarded charter of incorporation. Thi would place the presbyterian sect, in a high position for liberality in regard t

education and religious opinions. We agree with the trustees in but one thing, and that is, that it is time some disposition of this Academy property should be made. In their address, they Then guard yourselves the should be made. In their address, they have stated, and answered in a very brief way, a number of propositions for the disposal of this property; but no one seems have stated, and answered in a very brief posal of this property; but no one seems to suit their taste but this one of consolidation. The proposition, that this prop erty should be sold and together with the other funds, invested in a small farm, or site, to build a poor house for Butler county, is disposed of by asking a question Would this be carrying out the original design ?" We say much more so, than the blending it with a s ctarian Institution. We say that this proposition for a poor house, is the one for which the people of Butler county, are in favor of, by an overwhelming majority ; their interests, and their benevolence, both promp them to it. The Batler Academy ha served its day, and has fully carried out the dasign, of the noble men, who founded it. It was a necessity for the poor emigrants, who came to Butler county, in

the beginning of the present century .-This necessity no longer exists. We have our abundance of common schools, and more higher institutions of learning than are well patronized. The next greatest nefind a precedent for it, in all the surround.
