FACTS VS THEORIES.

Give me a place to rest my lever on,' says Archimedes, "and I will move the world." "Give me pure and unadulterated drugs," says Medicus, of the olden times "and I will cure disease."

In one sense, both of these learned pundits were the veriest charlatans .-They knew there was no place to rest their lever on, either to move the world or cure disease. Mechanism was in a backward state, and the medical profession was but another name for sorcery and a'l the adjuncts of magic filters and charms of the "evil eve," &c.

But these latter days have borne unto us something more than even superstition and its crewever dreamt of in their madest philosophy. In these days of practical science, what was theory of yesterday is fact to-day, and all the old-time notions become as bubbles in the sun, and burst

and break with every breath we draw.

Let Archimedes shoulder his lever and we will find a resting for it to move the world. Let mine ancient Medicus pant and toil no more for the drugs he so sorely needs, for we have them at our hand,

ever ready to serve them at his beck. Refined in the labratory of Dr. Maggiel, the finest materiels known in the medical profession are obtainable by any one. His Billious, Dyspeptic, and Diarrhea Pills stand unrivalled, and his Salve operates with magical effect upon burns, scalds, and all sores and ulcers of the

skin. In fact, we think MAGGIEL'S Pills and Salve are the wonder of this century, and we are happy in the thought that many others of our brethren of the eraft agree We would earnestly counsel with us. We would earnestly counsel that all families provide themselves with Dr. Maggiel's Preparations at once, and keep them ready at hand, so as to use then, at the most opportune time and as occasion serves.—Valley Sentinel

D. D. Pp. 276, 8 vo. Philadelphia: Presbyterian Board of Publication. We are here presented with an excellent exposition of one of the highly in-structive, but, to most readers, one of the very difficult Books of the Old Testament. In Dr. Young's hand it becomes plain, edifying, and practical—such a manifes-tation of life-wisdom as we might expect from a writer of Solomon's endowments

from a writer of Solomon's endowments and experience.

According to Dr. Young, the Book of Ecclesiastes is one of Solamon's Sermons—a preserved written discourse of one who, if not the first 'Preacher,' was the wisest of all the preachers who preceded John the Baptist. This sermon is about the length of an ordinary modern discourse. Its "editor"—a different person from Solomon—gives to it an introducfrom Solomon—gives to it an it tion—the 1st and 2d verses of t from Solomon—gives to it an introduc-tion—the 1st and 2d verses of the first chapter—and a conclusion—the last sev-en verses of the twelfth chapter. The third verse of the first chapter is the be-ginning of the sermon, and announces the Preacher's theme; or text, as we might say: "What profit hath a man of all his labor which he taketh under the sun?" That is, what profit, if there is no future state of being? Here is the key which unlocks the enest and reveals sun?" That is, what profit, if there is no future state of being? Here is the key which unlocks the cnest and reveals the treasures. This is the key every one must have, and use, who would explore the riches of this store-house of wisdom and knowledge. If the soul is not immortal, why labor and toil? If there is mortal, why labor and toil? If there is no fature, why deny yourself now of the joys of sense, or of anything your heart craves? And if the soul is immortal, why seek tor it a portion here below?—Nothing here can satisfy an immortal spirit. The whole discourse—all its wisdom, and prudence, and warnings, and counsels—implies a future state of existence where the soul of man has its rewards; a vate which alone is adapted to wards; a state which alone is adapted to the soul's nature, and where, and only
