In giving the prescription for the *first* indications in Cholera, as published in your paper last week. We did not wish to convey the idea that we desired any one to send to us for the medicine, but rather that they would procure it at the Drug Store.

Our whole time and attention is fully occupied with our own practice, which we find, by referring to our "Report," numbers about one hundred and fifty cases per week, including all kinds discases, Consumption, Liver Complaint, Dyspepsia, Scrofula, 1 ropsy, Kidney af-fection Heart disease, Nervous disordess, &c. Many of them from a great disance, and requiring prompt attention. L. OLDSHUE, M. D.,
