RULES AND REGULATIONS.

We invite the attention of the public to our premium list. It has been revised with great care, and with direct reference to the liberal encouragement of all classes of industry and commendable enterprise. Look over the list at your leisure; note the premium you wish to draw and see to it that some of your neighbors don't go ahead of you.

BAND OF MUSIC.

A good band of music will occupy a prominent stand on the grounds during the fair.

THE ADDRESS.

Professor J. W. Brugh will deliver an address, on the subject of Agriculture.

VISITORS

will be furnished with single tickets of admission at any of the ticket offices for twenty five cents, or five for one dollar. Children under ten years old, free. These tickets must be delivered to the gate-keepers as you pass in.

Directions to Competitors.

Competitors are requested to enter all articles for exhibition in the Secretary's books on or before the evening of the first day of the fair. Cards will be given to each competitor, which must be attached to the animal or article you may wish to exhibit.

A committee will direct you as to the location and arrangement of anything you may have to exhibit.

There is an abundance of water convenient to the ground—hay and pasture will be furnished free of charge—other feed to be provided by the owners of stock.

Rules and Instructions for Judges.

1st. You are respectfully requested to report yourselves to the manager's tent on the first day of the fair if possible, and in no event later than 10 o'clock of the second day.

2d. At 10 o'clock of the second day your names will be called at the manager's tent, and all vacancies will then be filled.

3d. You will receive your class books and enter upon the discharge of your duties immediately. The class books will refer you to the number affixed to the different animals or articles submitted for your examination. In these books you will also write out your report.

4th. You will not be permitted to serve on a Committee in any class in which you may be competing for a premium.

5th. You will in no case where there is no competition, award premiums to articles or animals that are not meritorious.

6th. Pay no attention to animals or articles that have not a numbered card and class attached.

7th. You will take into consideration the symmetry, early maturing, size, age, feeding, and other circumstances connected with the animal you may judge, but give no encouragement to over-feeding.

8th. A majority of the members on each committee will constitute a quorum.

9th. Permit no persons to interfere with your examinations or to be present at your deliberations.

10th. Each member of the Board of Directors will have the supervision of a particular department on the grounds—and to this member you will apply for any instruction or information you may want.

GENERAL RULES.

1ST. Each Competitor for premiums must pay one dollar, which will entitle him to an admission ticket, good during the fair, and when the premium competed for exceeds one dollar, ten per cent. of the premium additional to be paid as an entry fee at the time of entering.

2D. All persons wishing to ride on horseback, or drive a buggy or carriage on the fair ground, can do so, by paying an entry fee of Twenty-five cents for each time they enter the grounds.

3d. All animals placed in competition for premiums must be owned in the county by persons offering the same, or by members of their family under twenty years of age; and all articles competed for premiums must be products of the county, or manufactured within the same

4th. On the entry of animals or articles cards will be furnished by the Secretary with the number and class as entered at the office, which must be attached to the animals, or articles, otherwise the judges will pay no attention to them.

5th. Competitors must exhibit to the Secretary tickets good during the fair before he will make any entry for competition

6th. Stock of all kinds entered for competition must remain in the stalls until called for by the marshal.

7th. Premiums must be called for within three months after the fair, or they will be forfeited to the society.

8th. The Board of Managers will take every precaution in their power for the safety of the stock and articles on exhibition, but will not be responsible for any loss or damage that may occur.

9th, Intoxicating drinks of all kinds are strictly prohibited on the fair grounds.

10th. Disorderly conduct of every kind is forbidden; those indulging therein will forfeit their right to remain longer on the fair grounds and will be promptly ejected.

11th. No person will be permitted to engage in any kind of business on the fair grounds without a written permit from the Secretary and Treasurer.

Order of Arrangements.

FIRST DAY.—General preparations, entries and arrangements of animals and articles.

SECOND DAY.—General exhibition and examination of stock, &c.

THIRD DAY.—Trotting and pacing horses, address, and report of Judges.

JOHN W. FORRESTER, Pres't.
JOHN B. M'QUISTION, Sec'y.

THE HAMILTON
Gold & Silver Mining Co.
OF NEVADA.

—:o:—

The property of this Company is situated in the Mammoth and North Union Mining Districts, Nye County, State of Nevada, and comprises the following named *ledges of silver-bearing quartz*:

LEDGES IN MAMMOTH MINING DISTRICT.

The Winnebago Ledge,	Twelve hundred feet.
" Union Ledge,	One thousand feet.
" Red Jacket Ledge,	One thousand feet.
" Belshaw Ledge,	Eighteen hundred feet.

" Comet Ledge,	One hundred feet.
" Leviathan Ledge,	Eighteen hundred
" Emerson Ledge,	One thousand fee

LEDGES IN NORTH UNION DISTRICT.

The Hamilton Ledge,	Twelve hundred feet.
" Hamilton Ex. Ledge,	Twelve hundred feet.
" Ojibwa Ledge,	Twelve hundred feet.
" Decotah Ledge,	Twelve hundred feet.
" Grass Valley Ex. Ledge,	Twelve hundred feet.
" Bushnell Ex. Ledge,	Twelve hundred feet.
" Forest Queen Ex. Ledge,	Twelve hundred feet.
" Pony Ex. Ledge,	Twelve hundred feet.
" Overland Ex. Ledge,	Twelve hundred feet.

The Officers and Board of Directors of this Company present the above combination of twenty rich and valuable Silver Ledges, comprising twenty-five thousand feet, which they confidently believe embraces a property for profitable silver mining unsurpassed by any on the Pacific coast.

This property was selected and located by practical and experienced miners, among the first, in North Union and Mammoth, which are justly regarded among the best silver mining districts in the State, on account of the richness of the ores, the width of the veins, the fine timber on the mountain, and the salt beaths and grass in the valleys.

This Company do not design to set forth statements that will not be verified, and prefer understating what they believe the results will prove. Coal is an item of great expense in many of the districts. The Curry, Ophir, Savage, and other celebrated mines in Washoe, are paying from fifteen to twenty dollars per cord for wood. A twenty stamp mill will consume fifteen cords of wood per day, at $15 per cord, amounting to $225 per day. In the Mammoth and North Union districts it would be simply the cutting, $4 per cord, or $60 per day. There is a large saving in this item. In the consumption of salt, which is large by used in mining operations, the saving would not be less than $40 per day over many other districts. In these two items there is an advantage in cost of running a twenty stamp mill in these districts which would make a handsome yearly profit of itself.

It is not the intention of the Company to work all this property at the present time, but to hold it in reserve for future disposition, either to form a part of it into other organizations, or to erect other mills, as may be deemed expedient. A twenty stamp mill near a well-selected ledge will pay a large dividend on the capital the first working year, and leave a reserved fund in the treasury, to be applied to the erection of another mill.

This Company intend to erect a first-class mill near the Winnebago lode, which is four and one-half feet wide, and is considered one of the richest silver lodges in Nevada, and will afford an ample supply of ore for a twenty-stamp mill.

Professor Blatchly, who is a scientific, reliable, and very exact gentleman, says of this lode:

"This is a strong well-defined vein, *showing every indication of depth and permanence. The ore is of great richness, and well diffused throughout the vein, and all the ore will pay for working from the very surface. This is a very valuable mine and can be made to pay from the beginning.*" A. BLATCHLY,
Mining Engineer.

It is more than doubtful if Professor Blatchly speaks in these terms of any other mine in Nevada.

A twenty stamp mill can crush twenty tons per day; but say that it crushes 15 tons per day, (choice specimens from the Winnebago lode has assayed $1185 per ton), it is a low estimate to say that it will give an average yield of $150 per ton, taken as it comes from the vein. Fifteen tons per day would yield $2,250; the expenses of crushing in these districts will not exceed $10 per ton, or $150 for 15 tons, leaving a net profit of $1000 for a working day, or a monthly profit of over $30,000 for one mill.

This statement may seem large, but it is proven by the results of other mills in districts less favorably located. We confidently believe there is no other investment will pay such large returns as silver property, when well located, and the mills properly managed.

The managing director is an experienced and practical silver ore worker in all its details; he is in the prime of life, of excellent habits, and indomitable energy; he has been long and favorably known to our President, Gov. Ramsey, and to Mr. Frank Steel, one of the Board of Directors, and with whose good opinion of Mr Hamilton, the Hon. A. W. Rendall, First Assistant Postmaster General, and Gov. Farwell, of Wisconsin, also Col. Burbank of Minnesota, fully concur. He is one of the discoverers of this property and is largely interested in it, and will certainly take great pride in discharging his duties promptly and economically, and in such a manner as to make the Company a styces which bears his name.

A trustworthy and competent clerk goes out with the manager as financial agent.

The plan of organization of this Company offers peculiar advantages to the subscribers. It gives them security, insures them a large interest upon their money, and provides for its reimbursement in a short time, leaving them their interest in the stock *free of cost*.

The Company reserves for the treasury 3,000,000 or 70,000 shares of stock, and will sell 4,000 shares at par value of $5.00, full paid. These forty thousand shares are preferred stock to bear 25 per cent. dividends per annum out of the first earnings of the mines until the par value is refunded. It also shares in dividends with the common stock all profits of the mines over and above twenty-five per cent., the Company reserving the right to redeem this preferred stock at any time by the payment of the par value thereof, and interest. The preferred stock after it shall have been paid by dividends of twenty-five per cent., or otherwise, to take grade with the common stock, will share all profits of the mines equally.

This equitable plan is an evidence of the good faith of this Company, and their confidence in the property. It guarantees to the subscriber the whole property and improvements for the payment of the preferred stock, and insures the payment of it speedily, leaving his interest in the Company without cost. No other stock will be sold, excepting the preferred stock, until the Company's mines pay dividends.

This Company have a liberal charter granted by special act of the Legislature of Pennsylvania. The title to this property has been carefully examined and pronounced good. The product of silver mines is different from iron, coal, copper, or lead, which are influenced by the fluctuations of the market. The precious metals are the standard of value, when once produced, they have no market to seek, but make this their market.

THE LIGHT OF THE WORLD!
DR. MAGGIEL'S
PILLS AND SALVE.

These life giving remedies are now, for the first time given publicly to the world. For over a quarter of a century of private practice the ingredients in these

LIFE-GIVING PILLS!

Have been used with the greatest success. Their missle is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering and re-invigorates the failing system. To the aged and infirm a few doses of these PILLS will prove to be

A VERY FOUNTAIN OF YOUTH

For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle-aged, they will prove most invaluable, as a ready, specific, and effecting medicine. Here is a dream realized that Ponce de Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to vigor and make youth ever

An Eternal Spring!

It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that made it fair.

THESE FAMOUS REMEDIES

Cannot stay the flight of years, but they can force back and hold aloof, disease that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

FOR BILIOUS DISORDER

Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest

Vegetable Compounds,

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

For Cutaneous Disorders

And all eruptions of the skin, the SALVE is most invaluable. It does heal externally all no but penetrates with the most searching effects to the very root of the evil!

LOSS
BY PORTLAND FIRE,
July 4th.

The total amount covered by Ætna Policies on property destroyed or damaged is $206,854, on which salvage will be about 3 per cent. Our total loss will not vary much from $200,000, and is being promptly adjusted and paid. This sum is 5 per cent upon the assets, a figure but slightly exceeding our net State taxes paid last year or a proportion equal to $5000 loss for a company of $100,000 assets.

The necessity for insurance and the value of security, strong corporations, is forcibly illustrated by this fire. Several weak Insurance Companies are destroyed.—Portland has a population of 35,000;—was handsomely built, mostly fine brick or stone structures—protected and screened with upwards of 3,000 shade trees—bounded on three sides by water—indeed, literally, almost rising from the ocean—and with a good steam fire department, yet it has $12,000,000 worth of property consumed in a few hours—upon a holiday when its people are least occupied—from the very insignificant cause of a contemptible fire cracker.

Remember the trifling origin of fires that sweep away in a few hours the earnings of years. Consider your best interests and give the Ætna agent a call if you need proper insurance security. Policies issued at fair terms. JAMES T. McJUNKIN,
August 8, 1866, 3t. Agent.

"HERE IT IS"
AN ARTICLE OF REAL MERIT.
HENDERSON'S
CARMINATIVE.
A REMEDY
That has been tried and stood the test, not only in an occasional case, but in every community where used it has been pronounced the safest and most reliable remedy known for
CHOLERA
DIARRHŒA, DYSENTERY,
CRAMP IN THE STOMACH OR BOWELS, CHOLERA MORBUS, &c.

It contains nothing irritating or injurious to the stomach, and is mild but prompt in its action, and effects a permanent cure by removing the cause of the complaint. No FAMILY should be without it, as the cost is trifling compared with the suffering that may be avoided by having it at hand in case of a sudden attack.

Try it, and judge for yourself.
