Horrid Accident.

As the Presidential party were making their way eastward, they stopped a short time at the depot at Johnstown.— Here the platform of the depot which extended over the bed of the old canal, at an elevation of about twenty feet, gave way, precipitating about 700 men, women and children into the canal. Quite a number lost their lives. Others a.e maimed for life. Some had arms, some legs, and some backs broken. The real extent of the injury has not been yet ascertained, but is unfortunately very great. Surely the President set out on his campaign under an evil star.

A Funny Book has just come to us, called " Poetical Acorns from the ple Great Oak Hall." D., of Pittsburgh, Pa. He has demonstrated beyond a doubt, that by close ocular examination, scientific chem ical analysis, and correct microscopic ob servations of urinary deposits, a most important auxiliary to correct diagnosis is to be attained in nearly every disease. And so well has he maintained this view, both | \$600 by theory and by its practical application in the numerous cases that have been presented to him, that his office is one constant throng af patients. He makes the most critical examination of every case, and however complicated may be the disease, seldom or never fails to render satisfaction, when a reasonable hope can be entertained. Scientific knowledge thus practically applied, must render more definite and intelligible this peculiar branch, and from what we know of the man and his extensive practice, we would recommend those wishing medical aid to call on him.

C. W. Ashcorn, Esq., Hopewell, Pa.:

DEAR SIR:—Yours, of the 11th inst., is duly received, enclosing that shamelessly false card on the subject of bounties given by Congress to white and colored soldiers.

Our political adversaries are acting upon the adage. "A lie well adhered to is as good as the truth." As milisary agent of Pennsylvania at Washington for more than two years, I became familiar with all the laws of Congress granting bounties to soldiers. I most positively affirm that no act or acts of Congress, discriminate against white soldiers, or in favor of volored soldiers. All assertions to the contrary are falsehoods, intended to mislead and deceive.

REASONS WHY THE AMERICAN WATCH Made at WALTHAM Mass.

Is the Best.

It is made on the best principle. Its framels compe et of SOLID PLATES. No Jar can interfers with the harmony of its working and no sudden shock can dan age its unchinery. Every piece, is much and Buishe by machinery (itself famous for its to/clly, as well a for its effectiveness) and is therefore properly made. The watch is what all mechanism should be—ACOU RATE, SIMPLES, STRONG, AND ECONOMICAL—Evopt some high grades, too costly for general use foreign witches are civiley made by women and boys Such watches are composed of several hundred piece screwed and rivited tagether, and require constant repairs to keep them in any kind of order. All person who have carried 'ancreas," "leptines" and "luglid Patent Levers," are perfectly well aware of the traffic.
