THE AMERICAN CITIZEN. Butler, Pa. Wednesday, Nov. 28, 1866

OUR BOOK TABLE. The Saturday Evening Post.

This is the title of a splendid pape published by 11. Peterson & Co. It is one of the bost papers of its class pub-

lished in America. Among the stories a anounced for 1867, we find the following deserving of notice, "The Outlaws Daughter," by Emerson Beundt. This will be followed by other serial stories from the best authors. Shorter Stories, Essays, Letters, Agricultural articles, &c., will be regularly given. The Post is neutral in politics, being exclusively devoted to Literature and does not discuss political or sectarian questions. Terms \$2 50. See Prospectus in another colunn of this week's issue.

Peterson's Philadelph's Counterfeit Detector.
This periodical, which is a regular hand book in Banks, Offices, Countinghouses and Stores, is issued on the 1st and 15th of each month and has become a necessity to all business men. Besides distinctive articles upon forged Treasury Notes and imitations of National Bank Notes it shows the par value of all notes in every State in the Union, and gives regular lists of all new Counterfeits and Broken Banks, state of the various Markets, Financial and Commercial News.

PETERSONS' DETECTOR is carefully, ably and honestly conducted and edited and from its large circulation, necessarily is a good advertising medium, though its space for that purpose is not very large. Some people think because our currence is nearly all National Bank and United States Notes, there is no need for "Peterson's Detector." Why now is the time to have one ready for reference. The facilities for counterfeiting have largely increased since the adoption of the National Banking system, under which all the banks use a uniform plate for each denomination, with only a difference of locality. This fact warrants a liberal expenditure on the part of the counterfeiters in getting up a fac simile on any one of the National Banks, which, when detected on that particular bank, is immediately adapted to some other bank by simply changing the locality, and so on through the whole two thousand National Banks; whereas, formerly, a counterfeit on any State Bank, when detected, at orce became worthless.

For these reasons the Detector daily grows of more importance to the public than ever. Terms of subscription to PE-TERSONS' COUNTERFEIT DETECTOR, corrected by Drexel & Co., bankers, is, for Semi monthly, (per annum) \$3 00; sincommence with any menth. Terms cash Peterson & Brothers, Philadelphia, Pa.

A New and Grand Epoch in Medicine! DR. MAGGIEL is the founder of a new Medical System: The quantitarians. whose vast internal doses enfeeble the stomach and paralyze the bowels, musi give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of his wenderful and all-healing Salve. These two great specifics of the Doctor are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly lepended. Maggiel's Pills are not of the class that swallowed by the dozen, and of which every box full taken creates an absolute necessity for another.
