

The Royal Holiday.

If the two-stick devil figures in the old novel be still extant, there will be royal piping for him presently in Paris. He need not unroof the palaces to have his squint at God's anointed, for they will be centering up and down the streets as common as water carriers, and with little more dignity than so many laced and braided dragons. It is a traditional trick of the Bonaparte family to huddle monarchs together like a flock of silly sheep, voluntarily, as My Uncle did upon more than one brilliant occasion; or involuntarily, as it happened when the spoiled child of Fortune had out-wearied her fondness, and, one by one, she had taken from him all his guided toys. But the lack of his successor is like the lack of his grace without the guilt, and at no more waste of blood than spatters the brief but pregnant chronicle of the coup d'etat. Whatever else may be said of the first Bonaparte, it cannot fairly be denied that he worked well for what he won, and earned his broad dominions by the recognized rules of conquest. It was only after hard and practical fighting that he could write to Talma: "Come to me, and you shall play to a pit full of kings?" The Napoleon of today, indebted in the first place to the shrewdness and foresight of his god-fathers, carries his points of policy as a country lawyer wins, his little causes, and plays a good game of chess, for which his uncle had neither genius nor patience, moving like lightning, and almost fool-mated by Maelzel's machine with a man in its bowels. For the life of us in spite of the pomp and circumstance of war, we cannot help regarding the nephew as an improvement. If mankind are to be wheeled, how much better it is to have the play go on without fire, famine and slaughter! War, with old Napoleon, was the business of life, but with the new, it is an occasional recreation. One Waterloo is quite enough in the family annals. No dynasty in the world could stand up against two St. Helens. His Dutch platoon (however he may have come by it) is quite a fortune to His French Majesty. Credit to whom credit is due. If the Kings of Russia, of Prussia, of Portugal, and of Belgium, to say nothing of Sultans and Teycons, are gathered together in a friendly mob in Paris, it was the mistress Queen of England who set the example and gave the successful adventurer the first official kisses. England's toleration of this prosperous gentleman was and is a matter of day-books and ledgers. Boys in the colleges, and here and there some lonesome man of the Bull and Brutus stamp, protested against it, but the money-makers said nothing, for they saw their account in it. Mr. Kinglake's history was voted to be a libel, but fortunately, it remains; and unfortunately, it has never been refuted. Poor Mr. Tennyson rapped up his little martial lyrics with soil-rub-a-dub-and-metrical tartan, but the mass of his countrymen still preferred shop keeping to soldiering, and yard sticks to muskets. Wars for the sake of trade were still comprehensible, but wars for right, for justice, for the advancement of human liberty, were simply Quixotic crusades. When Mr. Bull found out that his neighbor did not live entirely upon frogs, but had two cloaks and everything comfortable about him, and was in fact developing a very respectable acquisitiveness, his animosity vanished. As the Briton paid his taxes he began to suspect that Mr. Pitt had rather than made a fool of himself, and that the Wellington and Nelson monuments were no more than costly whistles. France was not behind in the work of repentance and reformation, until a fine old banker became in Paris of far more importance than the boldest Marshal of the Empire. There are different kinds of glory, and the Bourne has pleasant and more profitable victories than those of the unsung and unremembered. When the British Lion saw his ancient foe settling down to sensible money speculations, he conceived for him a sudden respect, and the rag-tag and bob-tail of European sovereignties followed the lion's example. Peace is always pleasant and desirable if it does not cost mankind something better and nobler. The peace which is maintained by mutual fears or by a devotion to material interests, may, after all, prove nothing but a long truce, fuller of evil to the masses of mankind than the bloodiest campaigns recorded in history. The absolute monarchs of Europe have found on the scores of copartnership, and deferring their own quarrels, have made common cause against the advancing spirit of Democracy. It is dreadfully like honor among thieves. This may seem a hard saying; but why is a free Hungary impossible? why is a free Germany impossible? why is a free Italy impossible? What impedes the march of the type toward social elevation and happiness save the selfish friendships and unhallowed alliances of modern monarchs? Kings are cheating the people now, that by and by they may more safely cheat each other. But the end is not yet. There are cynic eyes in Paris which will watch the Imperial cortege with suspicious and discontent. The assassin already elites the Emperors. It is not safe to ride with the Father of his People even in the bosom of the family. Democratic wrath still leads and primes and presents its pistols. Harmodius and Aristogiton are still slinking about his Majesty's new and noble boulevards. When the wretched Pole fired that shot the other day, the official press hastened to tell us that he had no accomplices. True, perhaps, in the narrow sense of the word; but the hatred that inflamed him rankles in thousands of bosoms beside his, and will find expression some day in nobler deeds than assassination.—N. Y.
