The State Normal School at Edinboro is without doubt the best place for the young people of western Pennsylvania to obtain an education. Its advantages are surpassed by no similar institution known to us. The State assists those intending to become teachers. Circulars will be sent to all applicants. Address J. A. Cooper, Edinboro, Erie Co., Pa.— Erie Weekly Gazette.

The ancients desired "locks bushy and black as the raven" as one of the perfections of manhood, and tresses long, ilken, lustrous as the crowning beauty of womanhood, but Time, the sly old dog, drew his fingers through their hair and "HIS MARK" in white. Time is now baffled by those who use Ring's Vegetable Ambrosia, the greatest and most reliable Hair Restorative of modern times.

If patronage and progress are a test of merit, the State Normal School at Edinboro is one of the best schools for thorough instruction in all English branches, instruction in French and German and is now given by an educated German Clergyman, Rev. R. Bierdemann. We advise all the young who intend going to school away from home, to go to Edinboro. Circulars can be obtained by addressing the Principal, J. A. But since his removal to the establishment so long occupied by Mr. Davis, an additional impulse has been given to all departments of his trade which must be highly gratifying. Mr. Davis established a reputation unequalled in this country, for the quality of his Water, Butter and Sugar Crackers. These are now manufactured by Mr. Marvin, at 91 Liberty Street, in precisely the same manner as those made by Mr. Davis.

To these, Mr. Marvin has added all the ther varieties of crackers now in use. His materials are always of the very best quality, his workmen are of the most skillful in their line of labor, and his machinery is the most approved. The ntmost cleanliness is observable in every

sell them the same way. The Merchauts have become aware of this point, judging from the amount of business done every day, especially at D. T. Pape & Co.,—a house that has risen in the public favor declined half a dollar per barrel, and the self-side of the sel declined half a dollar per barrel, and the rapid rise in other hog products received a decided check. The advance in sugar—now amounting to two cents per pound within a brief period, seems also to have been checked. Still the tone of trade circles is more cheerful than for a year past, and the coming year is looked forward to with confidence that, if no great profits are to be realized, the ruinous losses of the past twelve months will not be repeated.

THE PARTY OF THE P

"Oh, Consistency, Thou Art a Jewel."

It is rather strange that a party calling itself Democratic should how so frantically over the execution of an enemy to government by the people. And yet in cursing the Liberals for putting to death the late so-called Emperor of Mexico—the party is consistent with itself. It has has been attached in the person of its ally and consistently moves its oversthead. and consistently mourns its overthrow.— It accepted the invasion of Mexico as a diversion in favor of the cause with which it sympathized, and by means of which

it sympathized, and by means of which it again expected to come into power, and it is meet that it should be chagrined at its failure

The party rejoiced with the rebels when England held out to them hopes of her intermediation; its heart, as well as the Southern heart, was sick when those hopes were deferred, and "Democastic" tears mingled with those of the rebels when they discovered that the promise to

when they discovered that the promise to the ear had been broken to the hope. When reverses came to Northern arms, the party cried "peace," "the war is a failure," "the draft is unconstitutional!" ntmost cleanliness is observable in every department, and in view of this it is not strange that the orders are increasing so rapidly.

Country Merchants when ordering crackers from Pittsburgh grocers, should always specify that they want Marvin's crackers as no others sell so well.—Pittsburgh Paper.

General Grant was called before the Judiciary Committee at the instance of the Democrats. The result shows they "woke up the wrong passenger"

failure," "the draft is unconstitutional!" When victory crowned the efforts of the patriots, the cowardly—who, of course, constitute the majority of such a party—held their peace, the blatent mouth—pieces—too impotent to be regarded except in a few instances—talked loudly of "a war of invasion," of "vandalism," of "vandalism," of "vandalism, of a "nigger war," &c. And now when peace has come, conquered by the power and persistance of Northern arms; now when the "glorious cause" has become the "lost cause," and such rebel leaders as Longstreet, Thompson and Barksdale have accepted the situation—this party believing sonsistency, in the abstract, to believing consistency, in the abstract, to be a jewel, continues to feebly battle for

dead issues.

Afraid to take the sword and do battle alongside the "heroes" of the "lost cause"—when that cause had life in it they did all they dared in their behalf by pen and speech. And now when the sword has been returned to the scabbard sword has been returned to the scabbard they ply the same instruments with redoubled vigor in behalf of those issues which the rebels themselves have pronounced dead. Only yesterday the editor of a country newspaper, in the interest of the so-called Democratic party, travelled through the valley of the Shenandash and saw there only the secons. nandoah and saw there only the scenes of rebel victories; his sickly sentimen-tality was aroused at sight of Sheridan's "valdalism"—which did but lay waste the lauds of those who fed and concealed the lauds of those who fed and concealed the brigands that infested the valley,—but he entirely forgot the victory of the gallant cavalryman, which sent the rebels "whirling," and did much to save a nation from destruction. Verily inconsistency ernnot be charged upon this party; it has been, is, and probably will continue to be opposed to everything like progress.—Franklin Repository.
