

THE AMERICAN CITIZEN.

Butler, Pa., Wednesday, July 31, 1867

A few days ago, Mr. John Puff, of Jefferson township, while engaged in mowing with a machine, had one of his feet cut by coming in contact with the cutter while the machine was in operation.

Dr. J. M. Giskey will be absent from Butler until September 1st. After that he may be found at his new office, Main Street, near the Postoffice.

The penalty of 5 per cent. will be added to unpaid taxes on the annual list Internal Revenue on the 8th of August. Ed. LYON, Dep. Col.

Mr. Daniel Walter, of Jefferson township, while chopping wood, had one of his ankles cut by the axe glancing and striking him.

Mrs. Mary Wright, an old and respectable lady, of Jefferson township, this county, got a fall, on the 18th instant, by which she had an arm broken.

The corn crib of Mr. Daniel Wise, of Penn township, this county, was entered on the night of the 15th instant, and a quantity of corn taken therefrom. No trace of the villain has been discovered.

For August, has a beautiful steel engraving entitled, "Yankee Doodle," which is interesting and instructive. The composition of this number compares very favorably with anything that has preceded it. It is one of the best Magazines published.

The Herald of Health for August discusses the question, "Shall Women be Doctors?" in an earnest and thoughtful manner. The question is an important one, and every man and woman has an interest in it. The August number is also rich with papers from the best writers on topics of interest to all. \$2 a year; 20 cents a number. Address Miller, Wood & Co., No. 15 Light Street, New York.

The title of a new and interesting work, by Albert D. Richardson, Author of Field, Dungeon and Escape, &c.

This work is a complete history of the New States and Territories from the Great river to the Great ocean. It is embellished with over two hundred descriptive and photographic views of the scenery, cities, lands, rules, people and curiosities of the far West. This is no doubt a valuable and interesting work, and especially is this so to those who intend to move to the distant West.

This work is published by "National Publishing Co.," 507 Minor St., Philadelphia. See advertisement.

We are requested to state that the book of subscriptions for this prize worthy enterprise can be found at the shop of George Vogely, jr., where all who have not yet offered assistance should call and add their names for whatever amount they may feel able to give. If the proper encouragement is given, we will secure the location of an Orphan's Home near Butler, which will be an honor as well as a blessing to our community. A large sum has already subscribed; but let every one add something towards securing this object.

On Thursday the 25th instant, some place on the road between the tenant residence on the farm of Christian Seibert and my residence in Centre township, adjoining the farm of John Mellinger, a Black Pocket Book, marked on the outside "Greenbacks," containing \$38.45. The finder will be liberally rewarded by returning said Pocket Book and contents to the subscriber, or by leaving the same with the Editor of the CITIZEN, Butler, Penna.

The paupers containing a full report of the proceedings in the Adlington trial for the murder of Sydney B. Cunningham, making 92 pages, is now complete and ready for delivery. A full report of the evidence, charge of the Court, proceedings in application for and granting of new trial, together with the opinion of the Court touching the same, arraignment of the prisoner for the murder of James H. Teepie, his confession in both cases, and the sentence of the Court.

Justices of the Peace will please return their recognizances and informations in the proper time and by so doing save themselves and others a great deal of trouble. The Act of Assembly prescribes a certain time within which Justices are bound to make returns in criminal cases and prescribes a penalty for the neglect of the same. Justices have been disregarding the provisions of the law and have been in the habit of bringing or sending their returns in on the first day of Court thereby causing the officers much unnecessary trouble in preparing the cases. The law requires them to be made at least ten days before the time to which they are returnable, but they can be made twenty days before and still be within the meaning of the act.

W. H. H. RIDDLE, Dis. Att'y.

New Planing Mill.

Our enterprising township, Henry Bauer, Benj. Bauer & Philip Bauer, have erected and got in full operation in connection with their Steam Saw Mill, West of the borough, a splendid Planing mill, and circle-saw machinery. They are prepared to plane, plough and groove all kinds of flooring boards in complete order. Their new machinery enables them to manufacture door and window frames, window sash, venetian window shutters, and mouldings of all descriptions. We have witnessed the operation of their machinery. Every thing works smoothly and their work is of the first quality. This improvement has long been needed in this community.

The Messrs Bauer are enterprising and energetic men. They have labored hard and expended about \$4000 in material and machinery. They are reliable business men and are deserving of the patronage of the public.

In this connection we will also mention, that Wm. & George Bauer, brothers of the above gentlemen, are proprietors of the Machias ship and Foundry on the West of the borough. This establishment is well known to our citizens, and needs no recommendation from us. If you want work done with dispatch, call on these gentlemen and you will be accommodated without delay.

A friendly match game of Base Ball was played between the Monitor B. C. C. of Butler, and the Energetic B. C. C. of New Castle, on the grounds of the latter, July 25th, 1867. The game passed off pleasantly; and if the Energetic boys had not strained every nerve for the contest, they would not have done so well. The Return Game will be played in Butler on or about the 15th of August next. The following is the score:

The second half of the summer term of this school so favorably known will commence on Monday the 12th of August.

The new buildings are now so far completed as to enable the Principal to receive into his family a much larger number of Boarders than heretofore.

The large number of pupils in attendance the present session shows that the school under its accomplished Principal and able teachers is appreciated by the public. LOYAL YOUNG, Secretary of the Board.

No school in our State has improved in all respects, more than the State Normal School at Edinboro. It offers superior advantages for obtaining a thorough and practical education. Its libraries, apparatus and cabinet are such as to excite the minds of the pupils and assist them in their studies. Persons going from home to school, should go to Edinboro. For circulars address Prof. J. A. Cooper, Edinboro, Erie county, Pa.—Crawford Democrat.

"I look upon Mr. Johnson," said Senator Wilson in his speech at Saratoga, "as I look upon Ball Run. It is a great lesson to the country. Andrew Johnson stands right there, and every time he undertakes to do anything against the cause of liberty and justice the country rallies and goes further than it ever would have gone before." Mr. Wilson's speech is a very good one; full of kind, cheering, and noble words. He tells us how excellent the effect of the overthrow of the President's policy has been upon the South, which, persuaded at last that it is thoroughly and fairly beaten, is beginning to submit with a very good grace. He predicts that the reconstructed States are destined to become in a very short time the stronghold of radicalism, and assures us that among the advocates of "Equal Rights for all Men," of suffrage for the black, North as well as South, are Grant, and Sheridan, and Thomas, and nearly every general who has made a reputation.

Many of the planters of Tennessee, acting upon the advice of the Memphis Avalanche, threaten the colored people whom they employ with dismissal unless they consent to vote the Conservative ticket. This injustice is the greater as in numerous cases the colored men have been working for a share in the crops. The matter was brought before Gen. Carlin, who directs the Sub-Commissioners to instruct the freedmen to vote as they please, and to keep an exact record of all cases of dismissal.
