r. P Church.

U. P. Congregation of Butler have decided to remodel and rebuild thier church edifice. They intend to enlarge the present building by extending the same 14 feet on the Western side for a vestibule. We understand that they intend to adorn the building with a neat substantial spire. The estimated cost of the entire improvement is over \$6,000.

The enterprising contractor, is rapidly pushing forward, the work. The western side of the public square is literally covered with material. The Stone already upon the ground is of good quality and from all appearances this building is to be placed upon a solid and lasting foundation. Everything appears to be moving along rapidly and in or-

Our enterprising townsman, H. J. Klingler, has made the necessary arrange ments for the erection, in the N. W. part of the borough of Butler, of a splendid new flouring mill. The main building is to be 40 by 45 feet; 20 by 45 for engine, boiler and office. The building to be three stories high; smoke stack 75 feet. The machinery is to be of the very best and latest improvement. Such a

mill has long been needed in this place. To Holders of 7-30 Bonds.

Your attention is directed to the important announcement made by Messrs J. B. M'Vay & Co., of Pittsburgh, to be found in another column of to day's paper. Attention to the matter in time may save holders ef these bonds about seventy five dollars per thousand,-no small matter these times. Read their announcement.

The undersigned would respectfully inform the public, that he has remodeled and repaired the mill which he now owns in Connoquenessing township. He is fully prepared to make the best kind Bring us good grain and we will pledge ourselves to give you good flour. Our motto is: Be honest and gust.

obliging. Give us a call.

JOHN A. DODDE.

Carriages, Buggles, &c.

G. C. Roessing, manufactures just such work as is suited to our locality. The material is of the very best quality and the work warranted to give satisfaction. He sells a Carriage, Buggy or Wagon almost every day. His work is fast taking the place of that which has heretofore been imported. If you want something neat and beautiful here you can be accommodated. If you desire work that is strong and durables go He has work made to G. C. Roessing's. up, which he will sell as cheap as the same quality can be had from any other establishment in the State.

U. S. 7-30 Treasury Notes.

Holders of United States 7-30 Treasury Notes maturing on the 15th of this month, to dispose of them to advantage, must do so on or before the 10th inst. Up to that date, they can be exchanged for U. S. 5-20 Bonds, or sold at a premium of six per cent., or \$106 for every \$100 note. After the 10th inst., they will only be worth their face.

The First National Bank of Butler will either buy your 7-30's at the market price, or will give you 5-20 Bonds in exchange for them, if presented on or before the 10th iustant.

Who stole the whiskey from the stable of Jacob Reiber? Who tapped the barrel in the Store House? Where is the
whiskey Store House? Is it in Berg's
cellar or in somebody's stable? Why do
certain persons go up certain allies at unusual hours, and come out of certain plausual hours, and come out of certain places smacking their lips and looking very shy, as though they had been inspecting the rye? Where do some would-be young gentlemen get their whiskey? Do mail carriers bring whiskey to town? Perhaps they get it at the druggists, but perhaps not. Somebody had better stop selling and giving whiskey, or somebody might possibly go to New Castle.

Street Crossings.

The much needed improvement on ou public streets in the construction of stone rossings has at last taken definite shape. Several of these crossings have been fin-ished, and are a decided improvement.-The last one constructed is that across Main street, from Bell & Dieffenbacher to Duffy's Store. The location is perhaps all right, but the construction is almost universally believed to be wrong.-This is undoubtedly the case if the street s to remain as at present. The crossing is entirely too high, or the street is too low. If the street is not filled up, the crossing will prove to be an obstruction on the public highway, and therefore a public nuisance.

Who are the responsible parties in the construction of this crossing? Rumor says that the masons employed overruled their employer, and constructed the job to suit themselves.

There were certainly enough inequalities in our Main street without increasing their number. Whoever has the au. thority in the premises, should see that whatever work is necessary on our streets, is done in such a manner as to be of some practical use.

The Crops.

put up in splendid order. Hay harvest made a decided improvement in the appearance of the corn and it bids fair to

the direction of Mr. E. C. King, a New England gent'eman of fine attainment; and much experience. He is assisted by Mrs. King who is a first class vocalist. None but the most competent, thorough and faithful assistants in all the different departments are employed. Those who eave attended the Institute speak in highest terms in commendation of the same. Fall term commences Sept. 10th and last 14 weeks.
