The treatment they adopt is the result of ap-wards of thirty years' extensive and successful prac-tice in Europe and America.

A CURE WARRANTED.

Dr. AMOS & SON have devoted their attention exclusively to this peculiar class of maiadies, and the relief they have consequently been enabled to render to their fellow creatures is fully testified and gratefully acknowledged by convaissment patients and others daily arriving in town from all parts of the country, for the express purpose only of consultation, while their exertions have been crowned with the most signal advantages; yet from what they have experienced in inquiring into the cause of the infectious complaint, (from their most simple condition to that of the most dangerousand inveterates) they have always entertained the possibility of their prevention and removal, and likewise invariably found that the most horrible and malignant forms officease could almost always be traced to one of the following cades:: Ignorance, rejiect, or the sill effects of makilful irratment; therefore, Dr. AMOS & SON have succeeded in discovering, in the well cition of their remedies, a safe, effectual and cautious codras; omitting all combination effectuals which bear an equivocal character, as well as those whose premature and isquicious applications might be productive of bad consequences in the hands of private individuals: In short, the laudable end of their remedies is the lessening of a great mass of human misery bythe alleviation, relief and prevention of those afflictions that are in reality the secret for of life, and which, while they so extensively surround us, call aloud tor our skilf and interference for their extermination.
