☞ "WHY ARE WE SICK?"—Slight indispositions as they are called, as costiveness, sour stomach, Headache, etc., though regarded as small matters in themselves, are, nevertheless, indications of derangement, which if allowed to continue, will result in general disease of the whole system. With all its complexity so long as the action is, through any cause hindered, that moment commences a derangement, which if not speedily remedied by a removal of the cause, will lead through a long list of lesser ills and aches to Liver complaint, Dyspepsia, premature old age and Death. The stomach is the grand reservoir from whence is diffused nourishment, and life and vigor are imparted to the entire system; it is all important, then, that the Stomach be kept healthy, and free from everything calculated to create a disordered action, and hinder the performance of its intimate functions: and when through indisposition, accident or other circumstances, the energies of the body are prostrated, and the stomach and other parts of the animal economy are sluggish and inefficient in the performance of their duties, or when there is an excited condition, then it becomes necessary to resort to some Medicine, whose alterative and corrective qualities may restore a vigorous action and a healthy tone. A gentle aperient and laxative, will perhaps more than any other medicine, accomplish this end—and it is to this character, as a mild, gentle, and efficient aperient, laxative and corrective, that HALDWIN'S CATHARTIC PILLS are offered to the public. Being entirely vegetable in their composition, they may be administered safely to all, of every age and sex, as well to the infant and delicate female, as to the vigorous man. For the speedy cure of *Costiveness, Indigestion, Heartburn, Headache, Dyspepsia, Jaundice, Sickness of the Stomach, Affections of the Liver, and Derangements of the Bilious System generally* they cannot be surpassed. These Pills are already beginning to be known as one of the best and most effectual remedies and as the most perfect compound which has ever been devised for the mastery of disease. *They are warranted to give satisfaction, or their price 25 cts., per box, will be refunded.* Sold in Erie only, at BALDWIN'S Drug Store, No. 5, Reed House. MCCORMICK'S REAPER AND MOWER.

2,500 sold in 1855. 4,000 sold in 1857.
4,000 sold in 1856. 4,000 sold in 1858.
15,000 Sold in the last Four Years.

NO single establishment in the world can truthfully claim to have manufactured and sold anything like so large a number of Reaping and Mowing Machines during the same time, while my experience dates back to the origin of my Machine, in 1834—having been entirely and exclusively engaged in their manufacture for the last fifteen years. I am now more largely engaged in the manufacture of these Machines than ever before, and with my improvements for 1859, do not hesitate to warrant my Machines a Reaper, Mower, and *Reaper and Mower*, superior to any other for simplicity, durability, and perfect working; and further to say, that Farmers, who may desire it, are at liberty to work my Machine *through the harvest* with any other, and keep and pay for the one preferred. The position of the Raker in my Machine (as patented) upon the main frame, where there is great strength, and where the weight adds to the power of the Machine, is the only right one—other makers have to haul their Raker on the Platform, where he must submit to having the dust thrown in his eyes by the operation of the reel, and to being jolted over the clods by the little platform wheel over which he rides—necessarily racking their machine to pieces. This accounts, in part, for the *great durability* of my Machines as compared with others.

Great Council Medal awarded my Machine at London in Grand Gold Medal of Honor at Paris, in 1855, [1851,
Highest Prize at the French Universal Exhibition, in 1855,
Highest Prize of Royal Agricultural Society of England, in 1857.
Highest Prize of the U. S. Agricultural Society, in 1857,

AS THE BEST REAPER.

Publications made by the manufacturers of the Manny Machine, claiming the highest honors, etc., at the French Universal Exposition, in 1855, ARE KNOWN BY THEM TO BE FALSE. The success of my Machine, as indicated by the figures above, is its highest praise, while the awards of premiums, GENERALLY, are worthy of no confidence, although Reaper makers make a business of laboring and scheming to secure the little annual one-horse premiums of the country. Although it may not be generally understood, it is nevertheless true, that these Machines have always been sold at comparatively low prices, and but for the boldness with which I introduced and sold them by thousands, for the last ten years past, other smaller manufacturers would doubtless have put their price much higher.

I could furnish thousands of testimonials from Farmers, and others, of the truthfulness of every statement I have made, and much more. I may further remark that all of the Reaping Machines of any prominence in the country are mere *modifications* of my Machine, all other manufacturers having necessarily limited experience in comparison with my own.

A single year's SEVERE SERVICE will satisfy the Farmer, that in point of DURABILITY, my Machine is very far superior to all others, besides several most important advantages, referred to in my regular Annual Circular in pamphlet form which will be furnished those who desire further information, by addressing me, OR ANY ONE OF MY AGENTS. CYRUS H. McCORMICK.

Said Reaper is warranted to cut one acre of Wheat or other small Grain per hour; to save at least three-fourths of all grain scattered by ordinary cradling; to be well made, and durable with proper care, and that the raking can be well done by a man riding upon it.

I will further say to all wanting to purchase Machines this season in Erie County, that you will not have an opportunity of getting any better Machine, or on any more reasonable terms than this. My experience for the last ten years warrants me in saying, that three-fourths of the Machines now in use in all the Western States and Canada are manufactured by C. H. McCORMICK. I have been traveling almost constantly during that time, and can truthfully say that no Machine in the United States has the reputation for a Reaper that this Machine has; and since the two Horse Machine has been introduced, with improvements of 1858, I can warrant it to be as good a Mowing Machine as can be found in use.

I have succeeded in obtaining the services of the well and favorably known firm of Messrs. ROGERS & BENNETT, of the City of Erie, for next season, to supply the Farmers in Erie Co. This is one of the oldest and most extensive Hardware and Crockery establishments in this City, and they will be happy to wait upon all who may desire to avail themselves of the advantages of this Machine W.
