HOSTETTER'S STOMACH BITTERS.

Iv is a fact that, at some period, every member of the human family is anhject to disease or disturbance of the bodily inactions; but, with the aid of a good tonic and the exercise of plain common sense, fley may be able so to regulate the system as to secure permanent hearth.—
In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hoestster has introduced to this country a preparation bearing his mame, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The history operate powerfully on the Stomach, Rowels and Liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsis, Indigestion, Nausea, Flatuency, Loss of Appetits, or any Billious Complaints, arrising from a morbid inaction of the Stomach or Stowels, producing Gramps, Dysintery, Colle, Choiera Morbus, &c., these Bitters have no equal.

Diarrhoes, Dysintery or Flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsis, a disease which is propably more prevalent, in all its varied forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HUSTKITER's STUMALH BITTER's appet directions on the bottle: For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventative of disease and strengthener of the system in general, and among hem all there is not to be lound a mese healthy people than the thermon, from whom this preparation enanated, based upon scientific experiments which have tended to prove the value of this great preparatio

a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of attength and vigor and need only be tried to be appreciated. And to a mother white nursing these Bitters are induspensable, especially where a good tonic, such as Hostetter's Stomoch Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the sitters, will recommend their use in all cases of weaking the strength of the many similations or counterfest, but ask for flox TETER'S CRIERRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label
