AND HEALTHY CLIMATE 25 MILES SOUTH AND OF PHILADELPHIA, ON THE CAMDEN AND ATLANTIC RAHLROAD WRW JERSEY.

An old catate constating of several thousands of zero of productive soil has been divided into Farms of various sizes to suit the purchasers. It population of some Pytices limited for a productive so that purchasers is population of some Pytices limited for a production of some Pytices limited for the past very improved their piaces, and suited meeting the past very improved their piaces, and suited meeting from the past very improved their piaces, and suited meeting from the piace the soil is of the basis quality for the production of Wheat, Clory Corn, Frances, Gregory and outsides. If I have the site of the basis quality super from frosts—the doctructive enemy of the factor. Crops of grain, guas and fruit as now growing and our be used. By standing the point while a correct indigenation and the formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the band, which is only so in each as you may consider a result has been that with only so in the secure the rapid may received. The result has been that within the year, some three sundred houses have been excelled, two

mills, one strain, four stores, some forty vinyards an Reach orchards planted, and a large number of other im provenients, making it a desirable and active place. On THE MARKET, as the reader may perceive from its I BEST IN THE UNION Produce bringing double the price than in location way from the city, and more than double the price this away from the city, and more than double the price than the West. It is known that the earliest and hest fruits and regetables in this listitude come from New Jerses and are annually exported to the extent of millions. In locating here, the settler has many advantages. He is within a few hours role of the great cities of New Fingland and Middle States, he is near his old friends and associations, he is in a stilled country where every improvement of compart and citalizations at thank. In cash buy every article he wants at the cheapest pure, and sell his produce for the highest, (in the West this is nevered,) he has schools for his children, dreus service, and will cause produce for the highest, (in the West this is necessed,) he has achoost for his chairten, divine service, and will enjoy an open winter, and occipation climate, where less is are utterly unknewn. The results fith change upon those fermithe north, has generally been it in store them to vin ascellent state of healths.

In the way of building and improving, lumber can be obtained at the nucle at the rate of \$10 to \$1.50.7 thousand. Bricks from the brick vaid opened in the place, every studie can be unsecuted in the above much corrective as schole can be procared in the place, good carperture as at hand, and there is no place in the Lie on where he lid-ings and approvements can be made charge. The reader will at once be struck with the advantage The reader will at once be struck with the advantages here presented, and ask immed why to properts has not here presents, it was now it the an in the market; and unless these obtained why to properts has not the market; and unless these obtained where error, in one would be invited to examine the first will see the land under cultivation, such on the east not the settlement that they will no doubt, next prisone, from their own neighborhood; they will atters the improvements and can judge the character of the proposition of they come with view to settle, they should come prepared to stay a day or two and be readed to just here is not then cannot be held on a usual.

the Eastern Cities, for a year or more, ulcanized Rubber and Guita Percha have been used as bases for Artificial Teeth, but owing to the difficulty and expense of obtaining a proper steam apparatus for hardening the material, Bentista located at a distance from those cities have been deprived of the benefits of the discovery. Now, however, the patentees have invented perfeld heaters, and I have availed myself of the opportunity to introduce this cheap and excellent Material into use here. I have seen it worn elsewhere, and have already used it sufficiently in my practice in this City of satisfy me that it is the hybrids work yet invented; that it will hi better than any other; that it has all the advantages which can be claimed for other work in point of cleanines; that it is cheap, durable, and easily repaired; good for toth permanent and temporary work.

To those who have Metal Plates which will not fit by atmospheric pressure, this discovery offers a certain reatmospheric pressure, this discovery offers a cartain r hef, for the Rubber Plates will fit. For Classes it is ti hef, for the Rubber Plates will fit. For Claspe it is the natural rectal yet offered, because it will not men the natural teeth. I am prepared to construct such work for all who wish to use it, and make this fair offer, that if the Rubber fails to do all that can reasonably be asked, when fairly tried, I will replace it with Gold or Silver and charge only the difference in price.
