INDEPENDENT CANDIDATES

COMMISSIONER, To the independent Electors of Erie County.--Gratikrus--- I offer myself as a can-dudate for the office of County Commissioner at the ensu-ing election. ect.8.'59. JOS HENDERSON.

ASSEMBLY.

PLEASE announce Wilson Lairn, Esq., as an independent Candidate for Amembly Mr. Laird ably and faithfully represented this County at the last Beasion of the Legislaters, and well merits the confidence and summer of the roters of Erric County Erie, Sept. 15, 1859.-15. Erie County MANY CITIZENS.

For Whom to Vote.

Our Democratic friend- throughout the equaty will find tickets at their different places of voting for Messre WRIGLT and ROWE, our candidates for Auditor General and Surveyor General. We need not urge upon them the propriety of seeing that no Democrat votes without these tackets, for the Democracy of Eric county are reliable and know the necessity adhering to their organization in voting for all purely political offices, such as those named. On county matters they have a wider range. We have no ticket in the field, our County Committeee having failed to call a convention to put pne in nomination. We are not about rodiscuss the wisdom of such a course. but simply to say that it leaves every Democrat free to adopt or reject such volunteers as are in the field. Of such there are but two-Wilson LAIRD, E-q., for Assembly, and Jos HENDERSON, Esq., for Commissioner .--Both gentlemen have filled the offices to which they aspire with credit to themselves and profit to their constituents; and it is but the part of wisdom when a public servant has been faithful to his trust to continue to confide in him. In this view we shall (vote for Wilson LAIRD and JOSEPH HENDERSON, and we earnestly urge the propriety of the same course upon our Democratic friends throughout the county. By this course we can secure capable and honest men in two important offices, and at the same time help to break up that system of political log-rolling which has more or less been the bane of the dominent party in the county.

The Republican Address.

Last week's Guzette, as also the American contained an address to the Republicans of the county from the pen of the Chairman his mission partly. Une Broderick candiof their County Committee. Strange as it | date for Congress withdrew and one Repubmay appear, from the cool atmosphere lican, leaving the field open to M'Kibben which pervades the political parties of the | and Baker-but when the people came to county, we have read that address. It vote, they knocked the coalition. Horace "marts out with informing the "Republicans" | went so far to patch up, into "eternal that they will soon "be called to sustain smash." They completely "wiped out" the state and county nominations" of their Broderick and M'Kibben, and gave the

party, the old Whig party, the Know Nothing party, the "opposition" party, a member of all of which this "Chairman" has been at different unies, over added a foot of land to this country which has been dediented to freedom." or a state to "free 1, bor." Never! The Republican party has now, as those who compose it have had, u times past, a great deal to say about the encroschments of the southern states upon the rights of the north ; but this, like their efforts in behalf of the slave, has all beer for effect-a feather, as it were, used to tickle the ears and nostrels of simple peo ple who have been educated to look upon slavery as a great curse. And it is un doubtedly a great cursessmore so to the master than the slave, we verily believebut it is a matter of history that the Re publican party, and those who write its addreeses, never have, and judging by their actions, never will do any thing for the elevation of the slave. From Gibbings down. with all their loud talk and all their pro fessions, they have never freed a slave, except by stealing him from his master, or by running him off by the Under Ground Railroad. And here let us remark, that a most capital illustration of this is now exhibited in their policy in the neighboring state of Ohio. The candidate of the Republicanof that state for Judge of the Supreme Court is one Wx Y. Goulson, a native of Massissippi, and the owner, before he left that state, of several slaves-but dol he free those slaves ? Not he! He sold them -sold them, too, and gave bills of sile warranting them, not only bound in losity. but "slaves for life " Now he sets on th lightst seat in the synagogue of Republicanism with Giddings : he will receive the Republican vote of Ohio, and if elected his success will be rejoiced over by the author of this address, and while he counts his beads he will thank God he does not be-FELLER we said all, and perhaps more than long to a party that "eats the dirt thrust before it by its southern masters with a more abject mean than ever " He will forget that neither the party he represents, nor the politicians he affiliates with, have ever made a foot of slave territory free or ever will: but on the contrary had it not been for their incendiary course several m the border states now slave would years ago have been free There are several other matters in this address we intended to police, but time and

that is perhaps sufficient. -----

HORACE GREELET's journey to California does not appear to have produced a very large harvest of political fruit. Horace went out there for the purpose of patching up a compact, offensive and defensive. between the Broderick bolters and the Republicans, and by that means bringing the state into line for 1860. He accomplished

The Election on Tuesday. Very little interest appears to be felt by

the people of this county in the election on h Tuesday / A spasmodic effort has occasionally been made by the Republican press | ding. of the county to infuse a little interest into the contest, but it has availed little. The rank and file of the party will not awake.

The trump that used to call them to arms when they answered to the name made sacred by the devotion of a Clay and a Webter is cracked, and there is neither music in its call nor potency in its warnings.-Verily, how are the mighty fallen ! The regular and well organized forces that used orally under the name of whig is no longer n existence. Its place is occupied by a

proken and a scattered faction, with new eaders and new aims, but with the same insatiate love of office, only made more inense by the infusion of the "soldiers of fortune" the Democratic party has driven from its ranks. Party is a necessity in this government ; it serves to keep in check orruption, and purify the body politic;but a party that has no higher aim than the disposal of few offices in and about the ourt House-that varcels out official f ors without regard to fitness, and strikes lown good men because they are not "on the slate." though they are the choice of

the people, has ceased to perform its proper functions and become a mere machine for oppression. And this is precisely the case with the Republican party of Erie county. Look for example at the Legislative tick-

t presented by the party this Fall ! Will any man pretend to say that Messrs. Gunitson and TELLER are the choice of the people of the county. True, they may be elected, but if they are it will be evidence rather of the force of party drill than the peculiar fitness of the nomineos. Of Mr

was necessary last year when he was a candidate. We have seen nothing since to recommend hun to our favorable consideration. He may be, with great justice, classed among those we have already designated as a "soldier of fortune." The first time we ever saw him was in a Democratic convention advocating the claims of Col. DICK JOHNSON, of Kentucky. The next

time we encountered him was in another convention as the special friend of "Penn sylvania's son," JAMES BUCHANAN! At that space forbid. We have said enough, howtime the enormities of an affiliation with ever, to show our readers its character, and slave holders had not dawned upon his mind. The iniquity of the principles of

the Democratic party had not been revealed to him; but since then he has discovered them all-has been born again-experienced a new political birth---and is now a leader in the Israel of Republicanism. He was defeated last fall, and he can be again. Let us hope he may. Of his colleague upon the ticket we have but little to say. If versal execution. his legislative career is to be judged by his

career in our city council, then far better would it be for Erie county to have no representative at all than he. Illiberal and narrow views have ever found an advocate and exponent in him. In all things relaative to the welfare of our city, his course in

The Westfield Republican says a young girl, named Julia Ann Hatchkiss, about "16 years of age, left her father's residence in Crawford county, Ps., about a week fince, and was traced as far as Dunkirk. In company with a dissolute young man, and her friends fear she is decoyed into some disreputable house. At

the time she loft she was partially insane."-Running off with a young man is not evidence of inmanity, certainly.

Ber The Detroit Free Press states that an insophisticated German arrived in that city a day or two ago by way of the Great Western Railway, with tickets for Erie, Ps. He had been chested by the ticket-sellers at Buffalo into buying tickets which took him to Detroit, thence by boat to Cleveland, and from there to Erie, by railroad. The distance which he should properly have traveled was about ninety miles, at a cost of \$2.75. Buffalo and Erie are both on the eastern end of Lake Eric. He was sent almost around the Lake, some five or six hundred miles, and charged for tickets accordingly."

so The Gazette records the fact that there are some intensely mean men even in Erie county, and as evidence tells a story that a elargyman living a few miles below town was recently compelled, by the threat of a prosecution, to pay the father of a young man THIRTY-FIVE DOLLARS for marrying said young man. The young man proved to be a minor-a fact of which the clergyman was not aware-and on this account the money was exacted. The father then was satisfied, evidently caring much more for the THIRTY-FIVE DOLLARS than the loss of his son. Such meanness deserves uni-

party. Now we beg to inform this worthy "Chairman" of a small political fact to which never organize again in the golden state he appears to be perfectly oblivious-name | under that name. Alas! for the mission ly, that the Republican narty, as such, has of Horace ! Alas for the labors of Geoeley 1 no state ticket in the field. Even the Gazette dare not, and does not, christian its state ticket "Republican." This is a small matter, but the "Chairman" of a Committee should be right even in small matters. Again, we are told in this address that the Democratic party is "disorganized by internal dissesnions growing out of the dis-Administration," and that "honest members of the party are deserting it by scores." If just as the matter was arranged, the Girard this is intended for clap trap, to keep up the flagging spirits of his party, it is all very well; but if the "Chairman" puts it forth as a sober, earnest truth, we beg to assure him that he was never more mistaken in his life ; and this he will ascertain on the second Tuesday of October just as sure as the sun sets. The "honest members of the party." instead of "deserting" the Democratic ship, are rallying around it, and will make short work of the deserters-the Forverys, and the Camerons, mark that! Again, the address proceeds to say that the Democratic party "is now but an office holder's party, held together by the cohesive power of public plunder." This assertion suggests to us the query-how long the Republican party of Erie county would hold together -and how many such addresses would the Chairman of the Republican county committe write-if the "public plunder" in and about the Court House was renewed ? Why, if we are not mistaken, the "Chairman" himself has an itching for some of this "public plunder." It is the shearest

an office-seeking organization, to set up the cry of "office-holders." It is very much like the pick-pocket raising the cry of stop thief. Full grown men should not be guilty of it. Of the same piece of miserable clap-trap is the Chairman's assertion about the Democratic party "yielding more and more, year by year, to the imperious demands of the slave-holders." The Democratic party yield, "year by year," the undoubted rights "slave holders" possess under the constitution-no more, no less. The Democratic party has nothing to do nothing to do with slavery as a question of ture, he is not a candudate. He is duly gratejust as it has with the constitutional rights fact demonstrates it. When the necessities of the times brought the Democratic party | chances. into life in the early days of the Republic. almost every state was devoted to slavery. The Democratic party has controlled the Government almost interruptedly ever -ince : and yet, to-day, how stands the numercial strength of the free and the slave states : Why, within the political existence of the Chairman of the Republican con-

piece of bald hypocracy, then, for men who

are office-seekers themselves, and sustain

inittee the Democratic party has added three free states to the Union-California, Gregon, and Minnesota, and only one slave state, Texas; and it is an equal matter of political history that the very man, as well as the party he represents, who is now so emphatic in his charge that the Democrat-

a party "eats the dirt thrust before it by its southern masters," opposed the acquisition of the free state of California-that his party in the Senate and House voted Oregon : and we have yet to hear one word of condemnation from him on that subject:

For The Gazette is in a "peck of tribulation." Things are not working just as it In saying this about the Republican canwould have them. Last week it was so kind didats we cast no reflections upon them as to announce our good friend Strong as as gentlemen and citizens, for we apprethe Democratic candidate for County Commissioner, and urged all good Democrate that light; we refer to their public acts and to vote for him. This was really kind on public life, and on that ground we think honest practices of the present National the part of our cotemporary, and we have the election of neither will prove beneficial no doubt STRONG is duly grateful; but, alas, to the interests of the county. This was a "gray horse of another color," and this week the same unselfish actually no interest in common with the Gazette is in great tribulation for fear Democrats will drop STRUNG and vote for HEN-DERSON. Now, in view of the fact that the former is not a candidate either by his own consent, or at the solicitation of any body but the Gazette, we should not wonder if the Democrats would vote for HENDERSON. Wait and see.

"BARKINS IS WILLIN'."-The Washingcorrespondent of the Tribune, telegraphs hat paper the following -

"It is said by Col. The only other important county office to be filled this fall is that of Commission er : and here the Republican convention in making a selection. We understand that their gandidate, Mr. BROCKWAY, has people of the county lt is true he is an old citizen, but some years since he sold off his property, emigrated to a western state, and invested his means there. Becoming disabled by an accident, he returned to this county, more for the purpose of medical treatment than anything else, and

is only seeking the office now as a speculation for the time being. In this state of the case, it is no wonder that some of our prominent citizens of both political parties have deemed it due to the interests of the tax payers to bring out a volunteer candi-

date in the person Jos. HENDERSON, Esq., of Millcreek. Mr. H. is well known to the people of this county-he has served them in the same office he is now named for, and with satisfaction. His interests are all here, and his election will be, not the triumph of a party, but of the people. We shall vote for him, not because of his political principles, but simply because we believe it is an office that should be taken out of politics ' We hope every Democrat will do so too. We have no candidates of our

own, but we can make our power felt, and our votes respected in the future. for Here is a "sensation item" which

we find in our exchanges. It is this-the first and only railroad in Africa, was completed a few months ago. It connects Alexandria, the chief Egyptian sea-port, with Cario. The most remarkable fact connected with this evidence of progress in Egypt, is the use of human hodies for fuel. The locomotives are fed with this novel food, and actually derive their strength from the burning bones and flesh of men. Lest our

readers should charge the Egyptians with cruelty, it may be stated that the bodies thus burned are dead ones. In short, they are mummies. The catacombs contain an inexhaustible supply of them, and, after gressive Egyptians and made to supply the do we come at la-f ! d'hink of riding over] the historic Delta of the Nile, behind a locomotive driven by a fire made of the bod-ies of Rameses and the Pharaoha!
