Professor O. J. Wand & Cu.
GENTLERIER: Eliging my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white: my whichers were of the same character. Some three months ainor I precured a buttle of your hair restorative, and used it. I soon found it was proving what I had whised. I used It about twice a wek. I have since procured another buttle of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on inv head and face, and my hair has resumed its natural color, and believe more soft and glossy than it has been before for iwenty-dive years. I am now sixty years old; my good wife at the age of fifty-two, has used it with same effect.

The above notice I deem does to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion is contradict my statements. I am a citizen of this city and a resident here for the last fitteen years, and am known tonsarly swey one here and adjoining towns. Any use you may make of the above with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am truly, yours,

A. C. RAYMOND. MISS A. B. COLE would call attention
