STOMACH BITTERS.

It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the body functions, but, with the aid of a good tonic and the secreice of plam common sense, they may be able to to regulate the system as to secure permanent health—In order to accomplish this district object, the true course to pursue is certainly that which with produce a natural state of things at the heat hazard of situal strength and life. For this purpose, for Hostetter has introduced to this country a preparation bearing his mame, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The listiers operate powerfully on the scomach floweds and fifter, restoring them to a healthy and regional nature, enable the system to triumph over disease.

Bubber and Gutta Percha instead of Gold and Silver.

To those who have Mettle Piates that will not fit by atmospheric pressure, this discovery offers a certain relief, for the Rubber Plates will fit. For Chaps it is the best material yet offered, because it will not wear the natural teeth. I am prepared to construct such work for all who wish to use it, and make this fair offer, that if the Rubber fails to do all that can be reasonably asked of it when fairly tried, I will replace it with Gold or Silver and charge only the difference in price.

A CUER WARRANTEB.

Dr. AMON & SUN have devoted their attention exclusively to this peculiar class of maiadies, and the relief they have consequently been enabled to render to their follow creatures is fully testified and gratefully acknowledged by convaisaceant patients and others daily arriving in been from all parts of the country, for the express purpose only of consultation, while their exertions have been crowned with the most signal advantages; yet from what they have experienced in inquiring into the cause of the infectious complaint, (from their most simple condition to that of the most dangerous and inveterats,) they have always entertained the possibility of their prevention and removal, and likewise invariably found that the most horrible and malignant forms of disease could almost always be traced to one of the following causes: Ignorance, neglect, or the ill effects of unabiliful treatment; therefore, Dr. AMOS & both have succeeded in discovering, in the selection of their remedies, a anic, effectual and cautous course; omitting all combination of remedies which bear an equivocal character, as well as those whose premature and injudicious applications might be productive of bad consequences in the hands of private individuals. In short, the laudable end of their remedies is the lessening of a great mass of human misery by the alleviation, relief and prevention of those afflictions that are in reality the secret foe of life, and which, while they so extensively surround us, call aloud for our skill and interference for their extermination.
