WILL vs. DEED.—Some of the Irish Judges of olden times were a little confused at times. One in giving his dictum on a certain cause "thought it very clear that the testator intended to keep a life interest in the estate himself." To it Curran frankly replied: "Very true, my lord, very true; testators generally secure life interest to themselvee, but in this case I think your worship takes the will for the deed."

THE GREAT EASTERN & SHOW VESSEL .he Great Eastern is now controlled by Liverpool merchants. The Journal of that

city says: At Portland, without, any consumption of coal, the small tax on visitors would realize six hundred dollars a day; that at Holyhead the same price of admission will produce something like two thousand dol-lars a day; that the sight of her gratifies the public, and that sight-seers pay better than passengers; that, this being the case, it would be absurd to sail her prematurely for America or any other place.

While he was in this state of mind he received an anonymous letter, (and the man who would write ar anonymous letter on such a subject, would not have the courage to look at his own reflection in the looking-glass after dark.) This letter warned him to be on his guard against the felonious ingress of a gay Lo-thario to his room about half-past 9 o'clock at night-a time when he was generally hernt, He resolved to be around and have his eye open, and he did. About half past 9 o'clock that evening, a good looking "p'lice'ifer"—we could give his name, but we won't, though we may say n passant that he is a perfectly honorable officer, was approached in haste by a young the house of the gentleman above mentioned, as he believed there were robbers in the house: saying, also, that the gentledow, which would be unfastend so as not party come in after an unsuccessful hunt, to alarm the rascals. Stealthily went the officer; quietly he clambered over the alley fence; hastily he ran across the vard: eagerly pushed up the back window; un-thinkingly he thrust his head into the opened window; when—whack! came something down upon the head, with a shock that made his brain whirl, and unnumbered stars promenade before his confused vision. The "oasifer" never doubted that one of the burglars was just coming out, and encountered him; but he never knew what it was to experience fear-so in he clambered, receiving two or three more of those awful punches meanwhile. Once in, he grasped the supposed burglar;

around went his club, down went a jealous husband. By this time the affair had created a great disturbance, the wife, who had been sew ing up stairs, called a neighbor, who came in stocking feet and shirt-sleeves, candle in hand, to see what was the matter. The husband, confused by the blow on his head, no sooner saw the light, then he bounded forward, clutching the neighbor by the throat. The candle went on the fibor and was extinguished; the policeman jumped forward to seize his supposed prisoner, whom he thought trying to make his escape; the wife acreamed in shrill tones, and there was a lively time generally. When another light and an explanation came, it would be hard to see a more confused person than the police-man; a meaner looking one than the husband; or a more delighted one than the wife—who looked upon her husband as justly punished for his ungenerous sus-picions of her. His brother pointed out the path man who lives in the upper part of the leading to the neighbor's house, which was but a short distance off, telling him to go up to the house and remain there until some woman, and miserable enough to be | they came back. The little boy, Matthew, took the direction pointed out, whilst the lothers continued their search.

On returning from their cattle hunting xpedition William Brayton was over that his brother had not arrived at the house of the neighbor, nor had he been Traces of his little feet were plainly discernible along the path until it joined the arranging for his joining the next return track made by the logs which the neighterin in July, 1860. bor had been drawing out of the woods. It was evident from the footprints that little the paint scrubbed off, and he was dressed Matthew had mistaken the path followed the log track up into the woods. The traces were followed up until they were hid among the fallen leaves in the vicinity of the Indian trail before spoken of. Filled with alarm, William and his companion retraced their steps and carried the news to the bereaved family. Mr. Brayton was plunged into a sea of grief and terror. The eighborhood was raised, and as soon as the news could reach the settlers three counties and part of a fourth turned out as as we have narrated it above, and said that one man. Every foot of ground was dili- at Fremont he was told by a man who saw gently searched, but in vain. The Wyandots became interested, and young and chap, who asked him to go in a hurry to old started out in pursuit of the missing child. strangth told how deep the love, how bitter the anguish of the mother for the lost son. If she were but sure of his fate—if but a rang of his clothes, but a particle of his body had remained to assure her that her darling had perished by wild beasts or been alain by still wilder men, it would have given at least rest to her weary heart, but this torturing mystery was too great to be borne. So the years wore on, until eighteen years ago that suffering heart was laid to rest beneath the turf, and all who knew

the story sighed and said the fate of her boy had broken the motherly heart. AMONG THE INDIANS. The events of the first eight years of young Brayton's captivity are only known to him by the statements made to him at different times by the various bands of In-dians, and their exact accuracy cannot therefore be known. It appears that he was carried off by the Pottawattomie Indians, and by them taken to Canada. It was told him that after being kept some time by this tribe he was sold to the Paw-Paws for about five gallons of whiskey, who traded him off to the Winnebagoes for 7 gallons of whiskey. With this tribe he remained for some time, and was eventu-ally sold to the Chippewas, who soon trans-ferred him to the Sioux for eleven gallons of whiskey. Here his first distinct recol-

lections commence, twenty-six years ago, when he was "about a head shorter" than at the present time. Twenty-five years ago last April he was sold in lows to the Snakes and Copperheads. This tribe he accompanied in their migrations through California and Oregon, until they were at length crowded up into the far North-west. Here the tribe to which he belonged had been joined by portions of the Crows, Utahs, and Flat Heads, making a large ag-gregate, united under one general chief, with a number of subordinate chiefs. That portion of the tribe to which Matthew

more particularly belonged remained principally in the Russian territory, and they paid frequent visits to Russian Forts on the Colville River. At that time the mainty was but sparsely settled, and the pionests had not succeeded in entirely diving out the Red Men, who clung tenacionity to the villages and burying grounds which were all that remained to them of the broad State of Ohio, once their own. The Indians of that neighborhood tenaisted worth and Pottawottomist. An Indian trail led from Upper Sandusky, where the Senecasiand a village, past Wyandot town, a settlement of the Wyandot tribe of which a log house yet remains, and extendents of Perrysburgh course to pursue, he started for Eric, and soon got on the trail of the "Indian Captive." On Tuesday, the 15th inst.. a farm-

party of Canadian Indianation and the Indiana for air African missionary enterprise, she was actuated by her lover. Next day he clandestinely left the city, having made an ejaignment. In September, 1858, the annual train with them came young Brayton. He had become interested in tracing out his history and had succeeded in getting an account of the first eight years of his captivity, similar: to that we have already given .-He was then exceedingly anxious to seek out his parents, and, after much solicitation, the present chief granted him the requisite permission. On the 16th of April this year he left St. Paul, accompanied whelmed with consternation at finding by his Indian brother-in-law, who was a powerful chief, six Indian braves, three ponies and five dogs. At Chicago he was taken sick and remained to be cured,-The Indians returned to St. Paul after

During his sickness his hair was cut short, in ordinary attire. On his recovery he was permitted to go at large, and at once took his way towards the south shore of Lake Erie, from which location he supposed that he had been stolen.

ON THE TRAIL On the 29th of August last, the " Indian Captive" was brought to our office by some persons to whom he applied for information. He told the story of his captivity, him there, that one Joseph Todd, who formerly lived in Cleveland, had lost a boy about the time the "Indian Captive" supposed himself to have been stolen. Or this information he acted, and proceeded to hunt up the Todds, but without success. His story seemed to us very extraordinary, but a close and rigid examination failed to shake his testimony in the least. SELLING THE LAWYERS.-On Sunday night found brother that he would take him last, a stray "Billy Goat" who had long been a source of annoyance to the Police. The younger brother was at once eager to start. A letter was sent home, giving the Precinct and conveyed to the Station House, where he was locked up in a cell like any other vagabond. On Monday morning the officers thought they would make a little fun out of "Billy's" capture. So they sent word to a noted criminal lawver at the cessful result of the search. At Clyde, Tombs that a client of his, named William Goetz, had been arrested and was then confined in a cell at the Sixth Precinct Station House.
