H. E. SLOAN, Editor. TERMS: \$1.50 PER YEAR IN ADVANCE. ERIE, PA., SATURDAY, DEC. 21, 1859.

Their Fangs Extracted.

There is seldom any positive evil without some positive good... The ill wind that blows no good.

It is less than a month from that time, Agatha Holmes became the wife of Dr. Lee. Poor Emma had been dead for a year or more.

BREACH OF FIDELITY.—J. B. Carpenter, of South Boston, has been held to answer Miss Henrietta Richardson, in an action for damages for breach of promise of marriage.

—Mark and designing—in the fullness of age—and that the acquaintance grew into intimacy, and that the acquaintance grew into love.

The defendant, when his turn comes, will deny all the allegations of the plaintiff, and, also, endeavor to show that the fair young lady's character, was such that, when she appeared to him in her true colors, he could not do otherwise than leave her.

THE BANGOR WHY.—The Bangor Why relates an instance of female pluck as follows: "By the last steamer from California a young lady who went from Bangor six or eight years ago returned, and came to Maine by yesterday's steamer."

THE FOREST SUIT.—The great Forrest divorce case, commenced six years ago, has just been brought to a final determination in the courts of New York.

Napoleon's Court at Compiègne amuses itself with theatricals, in which the Empress is very charming, only she has a chronic difficulty with the letter 'r'.

An extraordinary case of wholesale poisoning has occurred in London. Five or three of whom were in the carriage, and a quantity of belladonna from a hamper left outside the shop of Messrs. Butler & McCulloch, mixed it up with water and sold the liquid to boys "for pins."

Letter from Gov. Wise.

The enclosed letter from Gov. Wise, of Virginia, to the Editor of this paper, in contradiction of certain statements in relation to himself, but forth in the account of a visit to John Brown by M. B. Lowry, Esq., of this city, would have appeared last week, but absence from home prevented it.

RICHMOND, VA., Dec. 10th, 1859. TO B. E. SLOAN, Esq.,—Dear Sir: Yours of the 4th was received the 6th inst., and at my earliest convenience I reply by saying.

That the printed statement of M. B. Lowry which you send me is incorrect. When at Charleston, the 20th Nov. last, I retired, late in the evening, to the house of a friend (Mr. Hawkes) where I saw this letter, Mr. M. B. Lowry, who presented a paper, purporting to be addressed to me by the Assistant General of Pennsylvania.

The professed purpose of Mr. Lowry was to visit John Brown, to identify him as he said. "To see whether he was the same John Brown whom he had known, at some time, in Pennsylvania." I understood, indeed, then or afterwards, that his object was to decide a wager as to the identity of Brown.

Supposing when presented to him that he had not visited Brown I tendered to him my permission to see him, but he informed me that he had already been allowed to see him and that he had identified him as the person whom he knew in Pennsylvania. I saw him but a few minutes that evening, and supposed him to be a clergyman.

The next morning of Tuesday he went to Harper's Ferry, and he was in the cars. He stood up near me and in the noise of the train, down to the Ferry from Charlestown (only 8 or 9 miles) obtained several inquiries which roused my suspicions of his motives, and I, therefore, answered him very curtly, but not in either the sense or spirit which he pretends to describe.

THE WARREN MAIL.—The Warren Mail, in speaking of the Wayne Guards, of this city, says: "Their gay uniforms, waving plumes and soldierly bearing were something new for this place and elicited the praise of all. We have heard several who have seen the military companies of Boston, New York, and other cities on parade, say that they have none finer looking than the Wayne Guards of Erie."

THE TANGLE FOOT WHISKEY.—Strychnine, or "tangle foot whiskey" has lately been celebrated for its certainty to kill soon after drinking. A man whose stomach will not resist aquafortis, cannot safely risk his life with this article.

THE CONCERT.—The concert, announced in our last issue, given in this city during the past week, by Mr. HENRY SQUIZZ and troupe, we regret to say was unavoidably postponed.

THE NATIONAL AMERICAN CENTRAL COMMITTEE.—The National American Central Committee convened at the American House Philadelphia, on Wednesday. Hon. Jacob Broome was appointed Chairman, and Blanton Duncan, Secretary.

MR. DU PUY, the Sequestrator, appointed to take charge of, and control the Pittsburgh, Fort Wayne and Chicago Railroad, appeared in the District Court yesterday, and through his counsel, presented a petition to the court, praying the court to grant such an order as would enable him to pay the employees of the road, their earnings for the month of November, out of the earnings of the road coming into his hands.

Local and Literary.

REVIVAL MEETINGS.—Revival meetings still continue in progress in many of the Methodist churches of this vicinity.

THE UNASSASSINABLE CONSPIRACY.—The conflict between the "Powers that be," and the "Powers that want to be."

REMOVAL.—The Erie Free Press newspaper establishment, at Meadville, is to be removed to Titusville. The Erie Free Press is a very good paper, except in its "unlucky nigger" proclivities.

"CITIZEN'S BANK."—Look out for counterfeit Five on the Citizens' Bank of Pittsburgh. Do not take any five on this bank, unless first well scrutinized, so as to avoid being taken in.

VENANGO COUNTY.—This county sent two culprits to the Penitentiary at its last term of Court, they being the first for many years that have been convicted in Venango of any considerable crime.

SESSIBLE.—High-topped and thick-soled boots are worn by fashionable ladies this winter. A sensible fashion, and one whose universal adoption would show a gratifying decrease in the list of deaths from consumption.

THE MEADVILLE JOURNAL is assured by parties interested in the "Atlantic and Great Western" Railroad, that the arrangements are concluded and the money ready to prosecute the work; and further, that it will at once be commenced.

HILL, of the Half-way House, Harbor Creek, gives a Christmas Party on Monday evening. A fine time is anticipated. There will be a New Year Party at the American Hotel, Waterburg, on Monday evening, the 2d of January.

NEW GROCERY AND PROVISION STORE.—J. J. WEAVER has opened a new store in No. 1, under the Reed House, formerly occupied by Judd & Co. The location is a good one, the stock is good, and Mr. W. is a good man to deal with. Give him a call.

NEW COUNTY PROPOSED.—The Dunkirk Journal some time since proposed that place should be erected into a county by itself, on the ground that the commercial interests there required it, and because it has to pay two thirds of the county taxes. By all means let Dunkirk be set off by itself, if such be the case.

WHAT DAY?—A "subscriber" wants to know what day of the week will be regarded as the holiday for Christmas and New Years, those days falling on Sunday. We suppose it to be the custom to celebrate Monday in such cases, and we had heard it spoken of as a matter of course. We "go in" for Monday.

PARKER, of the Jamestown Democrat, brags that he was introduced to Capt. M'LAKE, of the Wayne Guards, at the Warren celebration. As the gallant captain is Sheriff of Erie county, the introduction does not surprise us a bit—he is "introduced" to a great many just such fellows in the course of the year.

A TOWER'S SOLILOQUY.—The following soliloquy of a toper deserves to be perpetuated: Leaves her time to fall, And so likewise have I, The reason, 'twixt the same—It Comes of getting dry. But here's the difference 'twixt leaves and me, I falls "more harder" and more frequently.

PREPARE FOR CHRISTMAS.—CHRISTMAS will sell at his Auction Store this afternoon articles suitable for Christmas presents, such as Ladies' and Children's Basques, Comforters, Gloves, Hose and Rubbers, Elegant Bracelets, Ear-Rings and Cameo Sets. All must be sold without reserve.

THE WARREN MAIL, in speaking of the Wayne Guards, of this city, says: "Their gay uniforms, waving plumes and soldierly bearing were something new for this place and elicited the praise of all. We have heard several who have seen the military companies of Boston, New York, and other cities on parade, say that they have none finer looking than the Wayne Guards of Erie."

"TANGLE FOOT WHISKEY"—Strychnine, or "tangle foot whiskey" has lately been celebrated for its certainty to kill soon after drinking. A man whose stomach will not resist aquafortis, cannot safely risk his life with this article.

THE NATIONAL AMERICAN CENTRAL COMMITTEE.—The National American Central Committee convened at the American House Philadelphia, on Wednesday. Hon. Jacob Broome was appointed Chairman, and Blanton Duncan, Secretary.

POLITICAL DUTY OF YOUNG MEN.—An esteemed friend, who considers himself an orthodox republican, but who holds, by the way, that to be orthodox implies only the maintenance of that "one idea" with which his pliable organization is infected, attempts to prove to us that it is alike the duty and interest of the young men of our country to blend their fortunes with that of this pie-bald party. He will not do it. We cannot so torture a conception of "duty," as to render such an attempt, plausible to our understanding.

That the student, a lady, was from the South—is utterly and totally false, nothing that could be tortured into such an incident ever having occurred in the history of this Institution. Free speech is tolerated on our steps within the wholesome limits which forbid indecent, profane or infidel expressions. The same license in criticizing public men and measures is allowed as is customary with the acknowledged party leaders in the United States Senate.

As to making a "count" of John Brown, where else in the State has the Principal of a Seminary read the entire speech of Edward Everett recently delivered at Faneuil Hall, to his townsmen, commending his hero to them, as was done by some of the Pharisees. Some say, "Sir, if your own political had gotten to entertain about us, from some expelled student or some false young man, to burden the premises, he would not have written more than a few lines, and he would not have so intelligently and so judiciously sought to enlighten and to instruct the faculty and the students of this Seminary. The Faculty stand committed to the charge. If to inform the public through a liberal and legitimate system of advertising, and to extend and to multiply the means of our small pretensions, we seek to enlighten the ignorant and mean masses in the future to deprive them of the light of truth, we are not to be blamed. The Institute most efficiently as Teacher of Music, but was last summer dismissed as a teacher, and afterwards, on the 10th of October, 1859, left a note to the Faculty and to the students, saying: "I have sought to enlighten the ignorant and mean masses in the future to deprive them of the light of truth, we are not to be blamed.
