ME. EDITOR :- It is with pleasure I usuce, in the annual Report of the Chamber of Commerce in the city of New York, the Report of the sub-committee on "Life Saving Apparatus" on the coasts of Long Island and New Jersey, that honorable mention is made of our fellow townsman, Capt. DorgLass Offinger and his "Surf Car." The efficiency, the sound judgment and nautical skill displayed by Capt. () in arranging the entire Life-saving apparatus along these coasts in 1850, where scarcely a winter passes without numerous ships being stranded and hundreds of lives lost, is noted with flattering compliment by the Board, and as regards the "Surf Car" its utility is not only flatteringly mentioned by this committee, but the wonderful achievements of this simple affair has become proverbial wherever it has
