General News.

Hon. Wm. A. Richardson was nominated for Congress by the Fifth District Democratic Convention in Illinois on the 28th inst.

Thirteen fatal cases of sunstroke occurred at St. Louis on Saturday. Among them was Peter Gallagher, a notorious prize fighter.

A little girl in Wallham, Mass., who saw the meteor on Friday evening, innocently remarked that she grieved for Heavenly Father's thought 'twas Fourth of July.

Out of a detachment of 250 U. S. troops that left New York for the Western plains last week, per railroad, over fifty deserted before reaching Springfield, Illinois.

The story of gold discoveries near Tangier, Nova Scotia, has been set at rest by a scientific exploration made by order of the Governor of the Province, and the reports have been pronounced a delusion and a snare.

Between twenty and thirty persons in one boarding house, and several other citizens of Lewiston, Me., were poisoned last week by eating cheese. Proper remedies relieved the sufferers.

Adriegen in Danbury Conn. put arsenic or corrosive sublimate instead of sugar in medicine for a Mr. Bailey, and both of them drank it. They were seized with vomiting and it was not expected they will live.

In the month of July, we learn from Peterson's Detector, 25 new counterfeiters have been put in circulation, besides the issue of what purports to be notes of the City Bank of Trenton, N. J., there being no such bank.

Imagine the horrible condition of two boys and a girl in the vicinity of Troy. An abandoned, fifteen feet in length and sixteen inches in circumference, has escaped from a showman's tent, and is still at large.

An old man in Solus, New Jersey, who was owning a physician a bill of thirty dollars, and unable to pay it, has decided to the doctor his body for dissection after his demise. The deed has been accepted and a receipt given by the physician.

The Detroit Free Press chronicles the fact that J. P. Hume, in that State sixteen persons joined the Douglas Club who voted for Fremont in 1856.

In the town of Newport, in the same county, there are seventy farmers who never voted a Democratic ticket in their lives before all going for Douglas.

John Young Brown, member of Congress from Kentucky, writes that he supports Mr. Douglas, and that, in the county of Harlan, in that State, there are not above thirty Democrats for Mr. Breckinridge, out of one thousand Democratic voters. We guess Brown has not taken the census correctly.

Parson Brownlow of the Knoxville Flag, gives the following description of a new drink. "They have a new drink now in Washington, called 'apple pie,' and it is made of diluted alcohol, nitric acid, blue lead and opium, and which it is said, will upset a man at a distance of a quarter of a mile from the demijohns.

The editors and proprietors of the La Crosse (Wis.) Republican and the Democrat have been their office, type, papers and everything (value \$4,000) on the result of the election in Illinois and Wisconsin. If Douglas is elected both States the editor of the Republican is the winner.

Artemus Ward says: The mouse which I use most to do the intricate 'strains of the hand organ. I hire a certain Italian to grind for me, pay him his wittles & klose, & snoop it in these stanzas which he puts a musical taste into me. Like all furnishers he has been better done, having formerly been a Kount-but he said of much about now, excepting to the hand organ and drink beer, of which he could hold a churn full.

A report reached Wheeling, on Saturday last, that a young man named Clevis, a quarrelsome by trade, had been killed in a quarrel by a fellow workman, both being employed upon a new house on the Waynesburg road, some distance in the country. The name of the murderer was not given, but it is stated that he wielded a scimitar and stabbed Clevis in the back, the instrument reaching through to the heart and causing instant death.

The Republicans are to be still further weakened in New York by the sloughing off of the extreme abolition element. The 'straight-out' honest Abolitionists, under the lead of Gerrit Smith, have called a State Convention at Syracuse, on the 15th of August, for the nomination of an Abolition electoral ticket opposed to Lincoln and Hamlin. The 'straight-out' estimate their vote at fifteen thousand, all of which has gone hitherto with the Republicans.

The Wheeling Intelligence of Monday says Alexander Greenwood, Jr., a painter, who pursued his trade on a boat, coasting down the Ohio, was accidentally shot by his wife a few days since, near Gallipolis. It appears that Mr. G. and his wife were conversing while he was repairing a pistol, that he joyously remarked that he intended to shoot her, pointing the weapon he held in his hand, and snapping it. She snatched up another pistol which was on a table near where she was standing, believing it unloaded, but which proved to be heavily charged, pulled the trigger and sent the contents directly through his heart, killing him instantly.

Either Black, by her guardian, has sued for a divorce in the New York Courts, from Morris T. Black, her husband, on the ground that the marriage is null and void, because when consummated the plaintiff was an infant under the age of fourteen years. The complaints show that the plaintiff did not become fourteen years of age until the 18th of October, 1850, and that she was married on the 4th of June of that year. The plaintiff avers that her marriage was without the knowledge or consent of her parents, and that it was an offence under the statute on that part of the defendant. The bride is now in Europe, being sent thither by her parents. She, however, makes this application herself. Both parties are of highly respectable families, the parents of each having wealth and a good position.

The Allenton Democrat has the name of Stephen A. Douglas flying at its mast head, and makes the following sensible remark, in reference to the attitude of Mr. Vaux delegate at large. "Hon. Wm. H. Welch, Chairman of the Democratic State Executive Committee of this State has published a letter in reply to the one published by Hon. Richard Vaux, one of the Electors at large, of which we give an extract. Mr. Welch shows the lameness of the arguments advanced by Mr. Vaux, and handsomely turns upon him some of his own and harmony thunder. 'ot out at the Reading Convention, at a time when there was no inducement to follow the feeble course into which Mr. Vaux has so unwisely been seduced. Mr. Welch shivers like a practical man, who does not care to do the work of the black republicans at his own expense, but who prefers to save his own party if he can."

In the early days of Pennsylvania there was a law which stated as follows:—That if
