PRICE TWENTY-PIVE CENTS

cardinate, and having devoted a quarier that continue is the study and and treatment of 89 mills and kindred disorders as a speciality, he has become possessed of most invaluable information in regard to the same, and is able to compress into vyse mecim compass the very quintenance of medical science on this important subject; as the result, of the experience of the most eminent physicians in Emerical America is their capity demonstrated in Air bwn highly successful practrice in the treatment of agent discases in many-shortmands of cases in the City of l'hiladelphis alone.

Alone.
Testimony of the Professor of Obstitues in Printegluonia College, Philadelphia.
"Dr. HUNTER'S MEDICAL MANUAL."—The author of pleasure to recommend him to the typorturate, or the victim of malpractice, as a successful and expe

RIERCED practioner, in whose honor and integrity they may place the greatest confidence.

JOSEPH S. LONGSHORF, M. D. From A. Woodward, M. D. of Pennsylvanot University, Philadd-phia.

It gives me pleasure to add my testimony to the professional ability of the Author of the "Menor at Marcat." Numer is cases of Discusses of the Genital Organs, some of them of long standing, have come under my dotice, in which his skill has been manifest in restoring to perfect health, is some instances where the patient has been considered beyond medical sid. In the treatment of Seminal weakness or disarrangements of the functions produced by skill-abids or accessed eventy. I do not know his surginous in the profession. I have been sequanted with the Author some thirty years, and deem it no more than justice to him as well as a kindness to the unfortunate victim of early indiscretion, to recommend I im as one in whose professional skill and integrity they may safely confide themselves. ALFRED WOODWARD, M. D. Orse Copy, securely enveloped, will be forwarded free of postage to any part of the United States for 25 Cents, or 6 copies for \$1. Address, post paid, COSDEN & Co. Publishers, box 197, Philadelphia.

Booksellers, Canvassers and Bock Agents, supplied on the most liberal terms.

June 9.14-25. From A. Woodward, M. D. of Pennsylvano

DR. T. F. FRANK OCULIST,

WITH the expenditure of much labor has finally successed in bringing
that treatment for diseased eyes, so much recommended by writers on Tybthaimic medicine, which consists in the application of chemical funes and vapors, to a useful bearing in his profession.

Ocalitat have greatly neglected this only rational treatment for want of proper scientific aparatuses, and with the risk of their patients eyes, substituted the vulgar practice of introducing the crude drug directly to the eyes; either in the form of solid caustic, or irritating malves or washes. The consequence is that more eyes are gar practice of introducing the crude drug directly to the eyes; either in the form of solid caustic, or irritating salves or washes. The consequence is that more eyes are destroyed by the use of medicine than by disease.

Dr. Frank has overcome this obstacle by the invention of his Ophthalmic Volatilising apparatus, and has for a few years past proved by the great number cured under his care, that his treatment is susparalicied.

The patient under it unjoys the full benedt anticipated from the medicine, without being subject to the distress produced by foreign substances used as vehicles for drugs, or the impure ingredient generally combined with them.

Pain and inflammation is at once subdued, even in cases of long standing, and not an instance is known where opacity of the pupit was preduced by 1r Frank's treatment; on the contrary, is speedily removed if airceady in progress. Granulations of the lids disappear after about treatment of this kind, without the use o' luna Caustonian in Visiting Trike Euko years have and has followed by

We ak ayes of old people receive strength, and cases of southroad Amourous a are cured by these applifations, several cases of that description being moder of Frank's treatment now, are rapidly secovering.

In operations for cataract and deformities of the eyes, this treatment promaises success, in consequence of preventing undur inflammation.

Patients from a distance will find this treatment convenient, they can use the apparatus and medicines at home, avoiding counderable expense.

rolding considerable expense.
Particular information will be given upon request by
tter including two letter diamps, or on calling upon Dr.
rank at his residence, between the hours of V A M., and
