Rying about to leave, with my family, for the West, is deem it a duty to others to make the following statement the main facts of which are well known to many of my old neighbors.

Some dive years ago my wife had a long and severe spall of sickness, for which she was treated by a physician, and although she reovered so as to get about again, she has ever succe remained tira weakly condition, and so exceedingly nerrous as to be in constant misery. He was frequently quite flighty in her mind, and quite irrational. She scarce ever slept over half the night, and would then be not officially would be awake the entire night, and would then be so flighty andse easily started at every trifing occurrence that the whole family ware kept in trouble. I had advice and medicine from several physicians, but they only afforded their slight temporary relief. I heard of CARTERS' NERVE PILLS, but having an intite faith in advertised medicines I declined trying them. But being about to move away to the West, and her condition becoming still more distressing, and being again advised to try the Nerve Pilis. I'ventured to take a twenty-five cent best. She took see Pill in the afternoon and one at bed time, and in less than half an hour after lying down she was salesp and rested well the whole night, and next day felt greatly improved, both in mind and body. I have since had two more bexes and she has continued to use them, and is steadily gaining in strength and improving in every respect. We certainly regard it as a meet torunate circumstance that we got held of these Pills, and the relief airsedy obtained by using them, is very great, and the certainty we feel of further and endaring benefit is most gratifying. Those only who have been in like condition on fully understand or eppreciate our feelings, and to all such we most earnessity recommend a trial it these Pills.
