DR. T. F. FRANK.

COULIST, WITH the expenditure of much labor has finally succeeded in bringing

labor has finally succeeded in bringing that treatment for diseased eyes, so march recommended by writers on Ophthalmic medicine, which consists in the application of chemical forms and vajors, to a useful bearing in his presession.

Occulists have greatly neglected this only rational treatment for want of proper scientific aparatuses, and with the rias of their patients eyes, substituted the vullegar presents of other forms of proper scientific aparatuses, and with the rias of their patients eyes, substituted the vullegar presents of other conducting the crude drug directly to the eyes; either in the form of solid caustic, or irritating as presents of other washes. The consequence is that more eyes are destroyed by the use of medicine than by disease.

Dr. Frank has overcome this obstacle by the invention of his Ophthalmic Volatillaing apparatus, and has for an few years past proved by the great number cured under his produced by freeign substances used as vehicles for drugs, or the impart ingredient generally combined with them.

Tain and inflammation is at surce subdued, even in cases of long standing, find not an instance is known where opacity of the punit was produced by I'm Frank's iteration of the contrary, is specifly removed if already in progress. Genulations of the lift disappear after a short treatment it unparalleded.

The patient under if enjoys the full beneft anticipated from the medicine, without being subject to the distarces produced by fireign substances used as vehicles for drugs, or the impart ingredient generally combined with them.

Fain and inflammation is at stone subdued, even in cases of long standing, find not an instance is known where opacity of the punit was produced by I'm Frank's intention of the contrary, is specifly removed if already in progress. Genulations of the lift disappear after a short treatment of this kind, without the use of Lunst'amsteries in the contrary, is specifly removed if already in progress. Genulations of the lift disappear after a short treatment of th producing that cronic weakness which an irritating treatment is a ways followed by
Wesk eyes of old people regeive strength, and cases of
continues. Amourous a are cured by these applications,
several cases of that description being under. In Frank's
treatment now, are rapidly recovering.
In operations for cataract and deformities of the eyes,
this treatment promises success, in consequence of preventing undue inflammation.
Fature 1 from a distance will find this treatment curve. Patients from a distance will find this treatment conve-

Fairents from a distance will not time treatment coursenient; they can use the apparatus and menticines at home, avoiding considerable expense.

Particular information will be given upon request by letter including two letter stamps, or on calling upon lyr. Frank at his residence, between the hours of 2.4 M, and 3 P. M.
