Every day we hear valiant Republicans-men who sympathised with John Brown-curse the President and denounce the message. . Their ground of complaint is, that while Mr. BECHANAN does pot believe in the right of a State to secode at pleasure, he doubts the constitutional power of the Government as well as the wisdom of the policy of using force to prevent her. Secession, says the President, is revolution, and then he proceeds with the inquiry . "What is to be done in view of the threatened secession ?" His answee is that no judicial process can be entorced by the General Government in South Carolina, all the judicial officers of strength of the party lies in hostility to the Union appointed for that State having slavery, and it can only be held together assigned, but that if the property of the United by carrying that hostility into effect. But there is another point which these d ant fault finders, who are so anxious to bring on a collision between the genand government and the refractory states, and this percepitute civil war, should duly stisider. It is their past record ! They are now anxious to turn the bayonets of the army and navy against a portion of their own countrymen ' They talk as com placently of turning the slave upon his master, and re enacting the scenes of St. Domingo in the Cotton States, as though it would be a delightful holiday exercise, crareligious duty. A few years ago our country was forced into a war with Mexico. Men, money, and mutations were demanded by the then bassacht to conquor a peace , but lo' the men who are now so valiant, so anxious to precisitate the country into civil war, were found sustaining their members of Congress to the "batter end" in refusing their votes for such a purpose. Not one dollar would these fault finders consent to appropriate to carry on that war with a foreign nation , but now, when the proposition is made to cut the throats of their own countrymen, and to in-tigate the slaves of their own kith and kin to the work of massacre and murder, they are up and eage to the frav '

We announced last week the resigintion of Mr. Secretary Coss. Since then we have read his letter to the people of Georgia, setting forth the reasons which ave induced him to take this step. It is long and able, but of course we have not room for it. The substance, however, is that he believes the republicans hate slavery and slaveholders quite as much as they say they do, and that the object which the party has in view is the ultimate exfinction of slavery in the United States .-So far he holds them to be sincere. This speech of Mr. WEBSTER was befor the day of "personal liberty" laws, but he would pronounce them also to be treasonable in their nature, for they are the same in spirit and purpose as the resolutions which he pronounced treasonable. THE PRESIDENT'S PROCLAMATION

Numerous appeals have been made to me by pious and patriotic associations and I citizens, in view of the present distracted and dangerous condition of our country o recommend that a day be set apart fo HUMILIATION, FASTING AND PRAYER through out the Union.

In compliance with their request and my own sense of duty, I designate FRIDAY THE 4TH DAY OF JANUARY, 1861, for this pur pose, and recommend that the People assemble on that day, according to their noticed by her mother, an infant in a churn. several forms of worship to keep it as a solemn Fast. The Union of the States is at the present moment threatened with alarming and immediate danger, panic and distress of a fearful character prevail throughout

the land, our laboring population are without employment, and consequently deprived of the means of earning their bread Indeed, hope seems to have deserted the minds of men. All classes are in a state of confusion and dismay, and the wisest

councils of our best and purest men ar wholly disregarded. In this the hour of our calamity and peril to whom shall we resort for relief but o the God of our fathers? His omninotent arm only can save us from the awful et fects of our own crimes and follies--oui own ingratitude and guilt to wards our Hea venly Father.

Let us, then, with deep contrition and penitent sorrow, unite in humbling ourelves before the Most High, in confessing our individual and national sins, and it acknowledging the justice of our punishment Let us implore Him to remove which would impel us to persevere in wrong for the sake of consistency, rather than

ueld a just submission to the unforseen exigencies by which we are now surrounded Let us with doep reverence beseech him to restore the friendship and good will which prevailed in former days among the people of the several States; and, above all to save us from the horrors of civil war and 'blood-guiltiness." Let our fervent pravers ascend to His Throne that he would no desert us in this hour of extreme peril, but remember us as he did our fathers in the darkest days of the Revolution, and preserve out Constitution and our Union, the work of their hands, for ages yet to come. An Omnipotent Providence may over rule existing evils for permanent good .-He can make the wrath of man to praise Him, and the remainder of wrath h

restrain. Let me invoke every individual in whatever sphere of life he may be placed to feel a personal responsibility to God and for contributing all his power to remove our sotual and impending calamities. JAMES BUCHANAN,
