Almost every one of our exchanges from the lower part of the State, which we have received during the past week, has given us some fresh insight into the late election of United States Senator It is now ascertained beyond dispute, that various Democratic members of the Legis lature were approached by Gen. Let the House, which is Democratic, show its aversion to the doctrine of immediate emancipation, by passing a law prohibiting the immigration of negroes into the State, without any unnecessary delay. If the Senate refuses to pass it, we will try the issue before the people next fall, and sweep from his seat every Abolitionist, who votes against it, and dares to ask a re-election."

Up to 10 o'clock on Thursday night, no confirmation of any of these stories had been received, and if fighting is really going on, which we doubt, the Government withholds the news.

Gov. PARKER the new Democratic Erecutive of New Jersey, was inaugurated at Trenton, on Tuesday last, in the presence of an immense concourse of people. His address takes strong ground in favor of a constitutional prosecution of the war, and in opposition to the mismanagement of the Administration.

A JOINT resolution was introduced into the Legislature, on Monday, providing for amendments to the Constitution, to the effect that no negro or mulatto shall ever be permitted to enter the State to settle, and that those now here shall be colonized in some foreign country.

### NEWS OF THE WEEK.

- Charles Sumner was re-elected to the United States Senate on Thursday by the Massachusetts Legislature.

-Edson B. Oldsjust from Fort Lafayette was essorted to his seat in the Ohio Legislature, at Columbus, by a procession two miles long.

- The War Department saks the Committee on Military and Naval Affairs to recommend an appropriation for a sub-marine telegraph cable to New Orleans.

- A violent anti-proclamation meeting was held a few days ago in President Lin coln's town, Springfield, Ill. The sentiments expressed were specially severe against paper wars.

The action was commenced by the gun-boats, which shelled, silenced and captur-Tha ed some earthworks about two miles below the main fortifications. The troops, under General McClernand, where then landed and marched to the rear of the Post, while Admiral Porter, with his fleet, went up, the river and shelled the rebel works from the front. They were then stormed by the troops and carried, but not without considerable resistance. Our loss was about two hundred in killed and wounded, and that of the rebels more than double that number. We are not informed as to any other strong del of the rebels on the Arkanses, but it is most probable that at Pine Bluffs and Little Rock, which are high and command

ing positions, they have constructed fortifications. But having carried the first and most important defence at the Post of Arkansas, there ought to be but little difficulty in carrying the others. The river is in fine boating condition, and the gunboats and transports will have no difficulty in ascending it even as high as Fort Smith. We trust that all this is on the programme of General McClernand and Admiral Porter, and that we may soon hear of its being brilliantly executed.

--- The President transmitted a message to Congress Monday announcing that though he had signed the resolution au-thorising the issue of \$100,000,000 in treesury notes with which to pay the soldiers, he was opposed to the farther issue of such notes. He also urged upon Congress the adoption of the banking scheme recommended in his recent annual message.

EMANCIPATION IN MIMOURI, --- The Senate Juliciary Committee have rejected the House Emancipation bill for Missouri and reported the one introduced by Senator Henderson. It appropriates twenty-five instead of ten millions, payable in bonds to the state eighteen months after the Emancipation act is passed abolishing sla-very before 1876. The bonds, in aggregate, must not exceed more than three adred dollars for each slave, not including any made free by the Confiscation

Accounts of the late battle at Springfield, Mo., state that it lasted thirteen hours. The enemy numbered 5,000 picked men, while our force was but 2,600 strong, and a motley assemblage at that. Admiral Farragut had sent the Brooklyn, and half a dozen of his best ahips, to recapture the Harrist Lane, and to destroy the rebel gunboats in Bayou Buffalo. At last accounts nothing been heard from this expedition. Nothing of General Banks' plans had transpired ; most of his troops had gone to Baton Rouge.

- A Liverpool correspondent of the Boston Commercial Bulletin, writing under date of Dec. 31, states that there are now at that port, at Laird's establishment, where the Alabama was built, three new Gen. MCCLELLAN, while the latter was iron screw steamers, one mid to be 3,000 tons, the other two 1,600 tons each ; all finaly constructed and expected to be formidable vessels and of great speed. The larger vessel is said to be ready for sea, and a crew of picked men is now being shipped. The ship has received no armament, of course, but the steamer that took
