[Extract from a Lotter on the Battle Pield.]

This battle (Antietam) has been the mos sanguinary of the war, and the only one fought with visible design and upon military principles. The arrangement of our corpsthe overlooking position of the commanding General-the sending into action the right and the left divisions -the closing up of the centre, carries the mind to the great fields of Austerlitz and Wagram, fought by Napoleon Of all this have I spoken. The heart's history of such a conflict, purchased by the life and blood of twesty thousand men, must be found in the hospitals. War has its glories-but it has its ten thousand demons in these human tortures, that make the eye balls sche-the heart bleed-the lips palsy, and the brain reel. The sight is at first positively unendurable. The life-blood of some is still trickling away in silent calmnesswhile the dissered limbs and manisc brain of others give rise to sounds God grant I may not again witness.

But we mothers who here seek a sonwives a husband—or sisters a brother or sons a father-know and he consoled that even here the hand of mercy is watchful, and better care is bestowed upon your loved one than might at first seem possible. It was in the hespital. were rested the gallant Hooker, that I learned the history of those mythical words, so often seen and so little understood, "S. T .-1860-X." Anything alleviating the sufferings and saving the lives of our soldiers, is a national blessing I witnessed some astonishing results from this article

It is well known the effect of burnt gun powder and excitement is thirst, which added to the loss of blood in the wounded, creates the necessity of a reviving stimulant. In this partiestar hospital, the physicians were allowing their patients to drink Plantation Bitters, otherwise called S. T. -1860-X, and although the wounded are most numerous here—this division having opened the fight at 5 in the morning—the men were mostly composed, and there was very little fainting. The article acts upon the stomach and nerves in a most incomprehensible manner, superior to brandy, and without subsequent stupefying reaction. It originated in the West Indies, composed of the celebrated Calisaya Bark, Boots, Herbs &c.; all preserved in St. Croix Rum-the S. T .- 1860-X being a secret ingredient, not yet revealed to the public. It is principally recommended for want of appetite, disordered liver, intermittent fevers, stomachic difficulties, &c. I understand it was some what known in the Southern States previous to the War, and it appears an agent of Jefferson Day, recently applied to the proprietors for the privilege to make it for hospital purposes during the war, to which they made | FISH, SALT, WATERLIME, the following reply ;

Maw York, Jan. 16th, 1862.

Agent of, etc.: DEAR SIR :- In reply to your communication, offering us "Fifty thousand dollars for war," we beg to say, your price is a liberal one, considering it would cost us nothing to comply, and that otherwise we can derive no revenue from the Southern States; but, sir, our duties to our Government and our ideas of consistency would not allow us to entertain it, although it might please us to assuage the We remain,

Very respectfully yours, P. H. DRAKE & CO.

These gentlemen give the history of certain ingredients of their article for over two hundred years-showing that through all changes of the medical profession and its practitioners strength, composure and cheerfulness have been derived from these sources. Dr. Wood, in the Washington Hospitals, informed me that one patient was fast sinking and crass, ERIE CITY STEAM BAKERY! and had not slept an hour for two weeks, until the Plantation Bitters came to his knowledge, when one day's trial gave him a night's rest, and he was now fast recovering I am surprised our Government has not equalled Jefferson Davis in energy, and adopted this invaluable article in all our hospitals. The weak soldiers cling to it like a brother As a lay member, I can bear witness it is "good to take," and affords more energy and life than abything I ever tried. Success to the

Although not disposed to favor or recommend Patent Medicines in general, through distrast of their ingredients and effects; I set know of so sedicint reason why a man may not testify to the beneft to believes himself to have received from any simple preparation, in the hope that he may thus contribute to the beneft of others. I do this the more readily in regard to Hoodand's Genman Bitters, prepared by Dr. C. M. Jackson, of this city, because I was prejudied against them for many years, under the impression that they were chiefly an alcoholic mixture. I am indebtes to my friend Robert Splomanker, and, for the removal of this prejudice by proper tests, and for encouragement to try them, when suffering from great and long continued debility. The use of these besties of these Bitters, at the beginning of the present year, was fellowed by evident relief, and restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had almost despaired of regaining I therefore thank God and my friend for directing mether use of them.

From the Wije of ALDERMAN WUNDER, Gormon-GERMANTOWN, JUNE 1st, 1861. DR. C. M. BR JACKSON—DRAR Six:—I have been frequently requested to connect my name with commendations of different kinds of Medicines, but, regarding the practice us out of my appro rate sphere, I have in all cases declined: but with a clear perof in various instances, and particularly in my own ismity, of the assumment of Dr. Hoosand's derman Ritte a, I depart for once from my axual course, to express my full conviction that, for greeral debility of the syst m, and especially for Liver complaint, it is a asse and valuable preparation. In some cases it may hall, but usually I doubt not, it will be very beneficial to those who suffer from the above cases.

Yours very respectfully.
