Aithough not disposed to favor or recommend Patent Medicines in general, through distant of their ingredients and effects; I yet know of no estilisate to their ingredient reasons with a man may not testify to the beneft; he believes himself to have received from any simple preparation, in the hope that he may thus contribute to-the beneft of others. I do this the more readily in regard to disease? General Benefit of their property of the setty, because I was prejudiced against them for many years; under the impression that they were chiefly an alsoholie mirrhy. I am indebted to my friend Rebert Elevensher, Req., for the removal of this perjudice by proper testin, and for encouragement to try them, when wallering from great and long continued debuisty. The use of three betties of these fitters, at the beginning of the present year, was followed by evident reliefs, and restoration to a degree of bodily and mental vigor which I had not felt for air months before, and had almost despaired of registing I therefore thank God and my friend for directing me the use of these.
