The estimated cost of the proposed road is And a half millions, two millions of the ck of which is said to have been already scribed. The terminus of the Buffalo & te Line Road is at a place called State Line. iteen miles East of Erie, the line dividing Fiork and Pennsylvania. The reason gned for this course, on the part of the fulo & State Line Road, is the dissatisfacwith regard to arrangements recently A & G. W. Roads.: The Cleveland Plainer has the following paragraph. The tment referred to in it is probably the one ich has led to the action above mentioned: NOTHER RAILEOAD PROJECT: - It is rumored an important railroad project is under ideration by the Cleveland & Eric R. From J. Reston Brown, D. D., Editor of the Bacycle podds of Religious Ensuledge. Although not disposed to favor or resummend Patent Modicious in general, through distrust of their ingredients and effects; I yet knew of no sufficient reasons why a man may not testify to the basedt he believes himself to have received from any simple preparation, in the hope that he may thus contribute to the benefit of others. I do this the more readily is regard to Hookand's deciman Bitters, prepared by Dr. C. M. Jacknez, of this city, because I was prejudiced against them for many yetter, under the impressions that they were shely an alsoholie mixture. I am indebted to my friend Robert Rheemaker, first, for the reserval of this prejudice by proper tests, and for encouragement to try them, when suffering from great flick held established deficity. The need three helder of them litters, at the beginning of the present year, was fellowed by evident relief, and refrontishe to a degree of holdly and messian vigur which I had not full for the months before, and my friend for directing me the use of them.

the use of them.

In some cases it may full, but musclly I doubt say, it will be very behodical to those who suffer from the above causes. Yours very respectfully.
