

PRELIMINARY.
The Erie City Council has decided to make a levy of 30 mills for 1863, follows: General purposes, 7 mills; to pay interest on city bonds, 20 mills; to pay for dredging channel of harbor, 2 mills.

PUBLIC SALE.
In English and German, printed at this office, on as reasonable terms as they can be made at any other establishment.

PROVOST MARSHAL.—Lieut. Col. Campbell, of the 83d regiment, has received the appointment to this position. We are not personally acquainted with him, but from what we can learn, judge the appointment to be a good one. Col. Campbell has distinguished himself by valiant services in the field.

R. R. DISTANCES.—The distance to New York from this city by the Erie R. R. is 503 miles; by the N. Y. Central, 550 miles; by Philadelphia and Erie, 500 miles; by Harrisburg, 525 miles; through Mauch Chunk and Catawissa, 490 miles; Philadelphia, by way of the P. & E., Northern Central and Pennsylvania R. R.'s is 410 miles; Erie and Baltimore, by the P. & E. and Northern Central route, 420 miles.

PERSONS'S MAGAZINE.—The May number of this fine monthly publication for the ladies, published at last week, but at too late a period to review. The magazine entitled "Queen Flowers," is an exquisite engraving and fashion plates are as usual full, reliable, and handsome. We fall more in love with it as it goes on, each succeeding number is a dollar cheaper than Goldy's Harper's, and contains nearly as much reading.

THE HARBOR.—The sum of \$2,000 was appropriated by Council, on Monday evening, for the purpose of dredging the bar at the eastern entrance of the harbor, and the Mayor was authorized to issue bonds, under the act of the City, bearing interest at the rate of six per cent. In such sums not less than \$500, as he may deem expedient, for the payment of the sum so appropriated, provided at only so much of said sum shall be expended as shall amount to one-fourth of the whole amount expended on said improvement. The Mayor and President of each branch of Council were appointed a Committee on part of the City to assist in making a contract for the work, and to oversee the expenditure of the appropriation. We understand the above appropriation to be made on condition that the remaining three-fourths of the expense shall be contributed by the various railroad companies interested, and by the business men of our dock.

PAYING THE PARK.—In the City Councils, on Monday evening, the following proceedings took place: The Committee on Streets and Parks, to whom was referred the petition praying the north-side of the Public Square, between French and Peach streets, be laid out as a park, reported that a large majority of the property owners, representing three-fourths of the property in each block, had signed said petition. The Committee recommended that the fee be ordered made of the width of 80 feet, including the sidewalk on the north side of the same now established at 22 feet, and the sidewalk hereafter to be built around Park 8 feet in width, leaving a carriage-way to be paved 50 feet in width. Select Council receive the report and adopt the recommendation thereof. Common Council proceed as follows: the city to appropriate one hundred dollars toward the expense of paving the carriage-way as stated in the report, on condition that the balance of the expense thereof be borne by the property owners. Select Council concur in the amendment of the Common Council.

NEW DISTRICTS.—Our citizens who are not such in the habit of walking about town, have no idea of the large number of new buildings that have been erected within the last six months. Most of these are neat and substantial edifices, and give evidence of taste and prosperity. Notwithstanding this fact, there is still a demand for tenement houses, and a hundred or hundred and fifty comfortable buildings would find immediate occupants. The truth is, that Erie is going ahead with a substantial progress, that speaks well for her future. There never was a season when the business signs looked better, and we shall not be surprised if the coming summer is the most active ever seen in this city. With the opening of the Philadelphia and Erie and Pittsburgh Railroads, capital from abroad will find its way here for investment, and manufacturers of all sorts will spring up, to add to our prosperity. We may be over-optimistic, but we have little hesitation in predicting that the census taken of 1870, will find Erie with a population of 15,000.

DEBTY STREETS.—Within the last week or two the residents and promenade along State Street have suffered much discomfort from the immense clouds of dust raised by every slight breeze. The City Councils have determined to remedy this, and enforce the ordinance requiring persons living or doing business along the street to sweep that portion of it in front of their property every Monday morning. The act takes effect on Monday next, and we hope to see a unanimous acquiescence in its provisions. The plan to be tried is the same as that of last year, which, it will be remembered, worked well. The city is also about to remove the dirt from off the new paving South of 8th street, after which the people in that section will have to comply with the same rules in regard to sweeping as their down-town neighbors. If the authorities will promptly remove the dirt when it is swept into heaps, instead of permitting it to lie for days and weeks, as has been the case in the past, we have no doubt that the people will perform their share of the labor with zeal and promptness.

THE LIST OF REPUBLICAN CANDIDATES for the different offices to be held this fall in Crawford county towns up extraordinarily large. The Connaughtin Courier already publishes announcements for twelve aspiring individuals.

GOVERNMENT VS. ADMINISTRATION.—Mr. W. H. Armstrong, of Watsburg, a former County Superintendent of Public Schools, has written a communication, which appears in the last number of the *Observer*, announcing that he will be a candidate for re-election to that position. Mr. Armstrong is evidently impressed with a conviction that the next County Superintendent is to be chosen on political grounds, for he repeats the usual party phrases, and adopts the Republican sentiment that the Administration is the Government. Speaking on the latter subject, he uses the following language:

"I do not believe in the fallacy so frequently trifled with the tongue of treason, that the Government is one thing, and the Administration another, but hold the Constitution and the Administration to be each one of the Government, and each necessary to render it complete and efficient."

Leaving out of consideration the hackneyed allusion to the "tongue of treason," an expression in itself enough to prove Mr. Armstrong's unfitness for the office to which he aspires, we beg leave to suggest that he could not have referred to his Dictionary or any other book, if he had, it is not likely he would have run the risk of exposing his literary ignorance, by proclaiming as "flippant" the statement that "the Government is one thing, and the Administration another." If he will take our advice, he will turn over to his Webster and his Dictionary, and there let Government and Administration be defined as—

"The system or polity of a State; that form of fundamental rules and principles by which a nation or State is governed, or by which individual members of a body politic are regulated in their social action; a Constitution either written or unwritten, by which the rights and duties of citizens and public officers are prescribed and defined."

And then, by looking at the definition of Administration, he will find it as follows:—"The executive part of the government, consisting of the exercise of the constitutional and legal powers, the general superintendence of national affairs and the enforcement of the laws."

In Worcester's Academy edition—we have not his unbridled at hand, he will also find—

"Administration, n., act of administering; the executive part of government, dispensation."

It may be that Webster and Worcester are wrong, and Mr. Armstrong right; but until we get rid of some of the "fog" of admiration for the former, that we got knocked into us at school, we shall continue to accept them as authority on the subject. We presume, though, that Mr. Armstrong and his class will pronounce Messrs. Webster and Worcester "flippant" old fellows, and continue to believe that Mr. Lincoln and his Cabinet are the Government.

Mr. Armstrong is quite as seriously at fault in his grammar as in his dictionary. We trust that the following is not a specimen sentence of his composition:—"I regard the success of the Confederacy as the death-knell of Democratic Government in the world, and am therefore for the war to the bitter end, believing that any settlement of our difficulties short of a complete restoration of the supremacy of the Constitution over every foot of territory from the Lakes to the Gulf, and from Ocean to Ocean, to be a triumph of Despotism over Freedom."

"Believing that any settlement, &c.," "to be a triumph, &c.," is poor stuff to come from a school teacher, and candidate for the county superintendency. Were Lindley Murray living, and told that the above lines emanated from one of his disciples, he would be obliged to hang his head for shame.

We do trust that whoever the county convention may select, it will not be a conceited popinjay who essays to teach matters to others which he does not understand the first principles himself. Judging by two letters that we have read, within a few weeks, from aspirants for the county superintendency, we cannot resist the conviction, that there are some men who would grasp a pupil's desk, far more than the responsible and prominent place which they seek.

BRIEF PARAGRAPHS.
How few persons appear to understand that it is not so much by making as by saving that money gets rich.
Rev. Mr. Grassie, late of the New School Presbyterian Church at Watsburg, has accepted a call from Edinboro.

Our Ladies' Aid Society has shipped five more boxes of hospital stores to the General Hospital at Cleveland.
We seek the attention of our readers to the advertisement of Mr. Smith. His Planes are from the best manufacturers in the country.

We notice that Geo. W. DeCamp, Esq., is one of the principal speakers before the Royal League, in the adjoining town. George is after something, you may bet on it.
Thursday was observed in this city as a day of Fasting and Prayer, in accordance with the President's Proclamation. Services were held in most of the churches.

The 14th regiment has been paid off to the 1st of March, on the 21st inst., over \$22,000 were sent from the "boys" to their homes, of which \$5,000 were intended for this vicinity.
The Street Committee of Councils have resolved to require the building of sidewalks in every part of the city, whenever any considerable portion of the population in any locality petition for it.
The tax to be collected in this city this year, State, county, city and school, amounts to 50 mills on the dollar, or nearly 6 per cent. The total amount levied is about \$60,000.
Our city fathers are kicking their heels, with all their thankless labor. Every Monday evening, after the sessions of their bodies, an oyster supper is served up at the expense of one of the members, in which all participate.
It is not generally known, perhaps, that a law passed the last Legislature, providing that all School Directors in office at the present time shall continue to the same until the 1st Monday in June, 1864, and that the act takes effect on Monday next, and we hope to see a unanimous acquiescence in its provisions. The plan to be tried is the same as that of last year, which, it will be remembered, worked well. The city is also about to remove the dirt from off the new paving South of 8th street, after which the people in that section will have to comply with the same rules in regard to sweeping as their down-town neighbors. If the authorities will promptly remove the dirt when it is swept into heaps, instead of permitting it to lie for days and weeks, as has been the case in the past, we have no doubt that the people will perform their share of the labor with zeal and promptness.

The 83d regiment is encamped about three miles from Faloutsch, Va., in a pleasant pine grove, through which they have, on the streets, and made it look quite like Col. Vincent is in command. A member of the regiment, writing to one of our exchanges, says: "The general health of the Regiment is good, and the men are in good spirits, though not excessively anxious for a fight. They have had one conference in Gen. Hooker's headquarters, but I hear a cry of 'McClellan is our man' quite often."

The *Erie Press*, edited by Carl Benson, Esq., made its appearance on Saturday morning, after a discontinuance of some months. We cannot agree with Mr. Benson in all his views, but we wish him prosper in all his efforts. He is an active man, and will doubtless be successful. There are now three German papers published in our city—two Democratic and one Opposition.

The Convention of School Directors, for the election of a County Superintendent, will be held in the Court-House, on Monday next, at one o'clock. Mr. Savage is a candidate for re-election, and we trust will be successful. We have yet to hear the first complaint against his official conduct, and it is admitted on all hands that he has made a capital Superintendent.

We have received the first number of a new paper, started in Watsburg, Fronton Co., Iowa, and called the *South-Western Journal*. It is edited by T. H. Gray, and Henry L. Harvey, Esq.—the latter is the youngest son of a former editor of this paper. The *Journal* is well edited, and presents a neat appearance.

If we are to believe the reports current in the city, the new railroad projects spoken of in our last number have both been abandoned. The whole matter is generally looked upon as a "game of blind chance" between the two rival companies owning the different divisions of the Lake Shore road.

The forwarding establishment at the junction of Eighth st. with the Canal, recently conducted by J. Kennedy & Co., has been taken by D. Barton & Son. They are active and careful men, and those entrusting business to their care, may depend upon its being well attended to.

The Criminal Court will commence on Monday afternoon next, at two o'clock, when the cases of the poor fellows who have been unfortunate enough to get into the clutches of the District Attorney will be attended to. We shall endeavor to give a full report of the proceedings.

The President, it appears, has promised Gov. Curtin a foreign mission, at the close of the latter's term, on condition that he will not be a candidate for re-appointment. "He is a good boy, bubby, and you shall have a stick of candy."

The millers of this vicinity are very generally beginning to use the new style of Paper Sacks for putting up flour. They cost only about a third of what the cotton ones do, and are equally as serviceable.

A considerable portion of the Erie & Pittsburgh R. R., from the intersection of the Buffalo & Erie to the lake, has been built, and the pier at the mouth of Cayuga has been commenced.

The argument Court has been postponed to June. Judge Dorrison has adopted a good rule, in relation to these Courts, making them less frequent, and fixing a longer period for the transaction of business.

The coal trade on the Canal has opened with vigor, and boats loaded with this valuable article are beginning to appear. From what we can learn, we judge the price of coal this season will be very high.

Forty five thousand dollars are said to have been subscribed for the second National Bank in Girard. It is thought the subscription can be increased to \$75,000 without much difficulty.

The Commissioner of Internal Revenue has decided that the production of maple sugar is a manufacture, and liable to a duty of three per cent. ad valorem.

The surface of the lake, at the North end of State street, is 565 feet above the level of the sea.

A good stable is offered for rent. Inquire at this office.

NEWS FROM ALL QUARTERS.
General Sherman's army of one hundred and fifty thousand men, is now on the march. It is estimated that the rate of five millions of dollars per annum, is being expended in the war. The Washington *Observer* learns from an officer, who left the Army of the Potomac on Saturday, that he had received from the South, the following intelligence: "The attack on Charleston, on the 23rd April."
Our news from Vicksburg and below continues good. Six more transports have been successful in running the blockade. The *Press*, Empire City, Moderator, Anti-Slavery, Chimesman, and Harbinger, Transport, were run by Warrington without difficulty, the latter being detected. The Washington *Observer* of Tuesday, announces that Gen. Hooker commanded a forward movement Monday morning. Heavy masses of artillery and other troops were crossing the Rappahannock at that time.

From Nashville we have news of the capture of a force of Rebel Cavalry known as the *League Legion*, numbered 125 men, including eight commissioned officers. The affair took place on the 15th inst. at Franklin, Tenn., where the Legion was suddenly surrounded by 250 Union Cavalry, commanded by Col. Watkins of the 6th Kentucky. The Rebel Col. was taken, but managed to escape. Five rebels were mortally wounded, 100 prisoners on our side.

A considerable excitement was produced in England by the seizure of the "Rebel" gunboat, *Alexander*, upon the suspicion that she was being fitted out for the Confederates' service. Other and even more important measures for preventing the fitting out of privateers are anticipated. A great meeting has been held at Manchester to protest against the building of Rebel ships.

It is asserted that a prominent Radical member of the last Congress expressed the opinion that the Southern people could never be subjugated. "Why," said the listener, "do you insist upon your fanatical war?" The reply was, "to stop now would ruin our party, and we must fight, as long as we can, and like the devil."

The long interregnum in great marine disasters has been unhappily broken, and it is our sorrowful task to record the loss of the *Anglo-Saxon*, an ocean steamship, off Cape Race on Monday. From the reports received, it seems that the vessel, on her way from Liverpool to New York, was struck by a heavy gale, and after an hour's after, a *demog log* was waiving at the time. The *Anglo-Saxon* left Liverpool on the 13th ult., with 444 persons on board. Of these 37 are still reported as saved, leaving 347 to be heard from.

Quite a sensation has been caused in Western Virginia and Maryland, by the sudden irruption of a large rebel force in those parts. Morgantown, Va., was captured, and the attempt was made to break up the Baltimore and Ohio Railroad, which only resulted, however, in the destruction of a bridge, which has since been rebuilt. This seems to be the extent of the damage done. The fears entertained that the rebel army would reach and cut down the Baltimore and Ohio Railroad, and that the latter would be cut off from the rest of the Union, have been disappointed.

The rebel attack upon Cape Girardeau, Mo., was a wretched failure. The last news is that the rebels made a hasty retreat toward Bloomfield; that a part of our forces, under the command of Gen. Curtis, came up with them on Sunday night, and whipped them soundly, taking a large number of prisoners, horses and arms. The pursuit was still kept up. Marmaduke, the rebel commander, has stripped the country of everything movable, and is retreating toward the latter. His main body consists of 150 wagons loaded with plunder. The very latest dispatch says that on the Sunday attack from 55 to 60 rebels were killed, and over 100 taken prisoner. There was a prospect that Marmaduke's retreat would be cut off.

Gen. Burnside officially reports the expedition to Collins, heretofore noticed, as entirely successful. (Collins is in Jackson County, Tenn., on the Gum Spring, near where that river crosses into Kentucky.) Our troops destroyed the town, and took 100 prisoners, 200 mules, 200 head of cattle, 100 head of horses, 100 head of sheep, and 100 head of swine, and a considerable quantity of sugar, coffee, tea, and other stores, and 400 head of mules used in transporting supplies. The rebels report a loss of 100 killed. We had one wounded and one missing.

DIED.
Inability, on the 10th inst., of disease of the brain, LIDA P. BROWN, daughter of Thomas Brown, aged 18 years. Mr. BROWN, of the 19th inst. Mr. ELIZABETH COLE, wife of Robert Graham, aged about 20 years.
Inability, on the 23rd inst., of disease of the brain, MARY ANN BROWN, daughter of Thomas Brown, aged 15 years. Mr. BROWN, of the 19th inst. Mr. ELIZABETH COLE, wife of Robert Graham, aged about 20 years.
Inability, on the 23rd inst., of disease of the brain, MARY ANN BROWN, daughter of Thomas Brown, aged 15 years. Mr. BROWN, of the 19th inst. Mr. ELIZABETH COLE, wife of Robert Graham, aged about 20 years.

REALTY RECORD.
Court of Common Pleas commencing 4th Monday in April, 1863.
Elizabeth Plumburg, by her Exec. Adm., Rufus Pratt, vs. Matthew Plumburg—For Discharge of Bond, \$200.
Benjamin and Decamp for Respondent. Argued at length, and verdict rendered for defendant.

Charles Miraville vs. James H. Silverthorn—Summons in ejectment for six acres of land in Lancaster Township. Verdict for plaintiff; Church and Ouler for defense. Verdict for defendant; not tried.
L. G. Leroy, vs. Warren, vs. H. H. Merrill—Summons in case on promissory note. No defense; verdict for plaintiff.

All the remaining cases were continued, on account of sickness in Judge Johnson's family.

REPLY TO IRELAND.—A subscription for the poor of Ireland will be taken up in all the Catholic Churches of this diocese, on Sunday, May 10th. The Right Rev. Bishop Young will receive donations for that object, from persons who cannot attend. We hope that all will contribute liberally for this benevolent purpose.

DANGEROUS COUNTERFEIT.—Two dollar greenbacks altered to ten dollars are extensively circulated. The alterations are so successfully done that the closest examination is necessary to detect the fraud. Twenty dollar government bills should be closely inspected before they are taken. By holding the counterfeit bills before a strong light the alterations may be detected. We may here state that there is no counterfeiter about the goods sold by James A. Bliss, at the corner of 8th and State streets. They are all they are represented.

SERVICES.—The grass is coming out height and green, the buds are peeping out from the trees, and are caught in abundance in the lake, and yellow butter, green peas and other "good things" will soon appear. Now is the time, when the ladies begin to prepare their new spring millinery, a splendid stock of which has just been received at H. H. Smith's store, State street.

HARRISBURG.—There is an opportunity in the North among honest men, in reference to the last Legislature. It was the most scandalous body that ever assembled at Harrisburg. Correspondents say that countless bills affecting private interests, scattered through both Houses, just as you would buy a house or a horse. It is said and abundant. The people should discriminate in regard to the men they send to the Legislature. If they do not, worse scenes than those witnessed at the last session will be seen at the State Capital in years to come. *Polis Herald*, Nov. 4, 1862.
