DEATH OF CAPT. GRISWOLD .-- We regret to hear of the death, in Philadelphia, on Thursday last, of Capt Geo G. Griswold, of the Cettysburg. He was a young man of fine qualities, and warmly esteemed by all his acquaintances. His body reached here on Thursday, and was buried in our cemetery.

THE ALBION FIRE. -The author of the recent fire at Albion has been discovered, and lodged in jail. He turns out to be a cripple. well known in the vicinity, whom no one suspected. On his person letters were found, ad dressed to various wealthy geatlemen in the western part of the county, threatening their property with destruction unless they left money at certain secret places indicated by the writer. The guilty man, we are told, has signed a confession of his acts.

The cut does not appear to have been very severe, as we saw the "wictim," a short time afterwards, walking up street as readily as usual A sailor belonging to the schooner St. Andrew, was quite seriously stabbed late on Venday night, and lies in a critical condition. The standing committee on the history of Erie county is as follows: D. P. Ensign, Andrew H. Chughey, A. M. Carrier, David A. Gould, John Wood, David Wilson, George A. Lyon, Joseph Presley, G. Sanford.

On motion, it was resolved that the citizens of the several boroughs and townships be requested to name one of their number who may be added to this committee and that they also be requested to send through such member, or directly to the association, for preservation among the records of the same, the biographies of the citizens of the county who have served or are serving in the army and navy of the Caited States.

The above startling paragraph has since been explained. The weapon with which the Governor was "shot at" was neither a pistel nature, wide at the bottom, and tapering to a upon as fatal, but does not always kill at the first fire. The Governor is said to have recaived a serious wound in the neck and stomach, from which it is expected, though that he will recover We learn since that a reque to the perpetrator" has been-obtained, and it turns out to have been a party of cronies with whom the Governor is frequently in the habit of indulging in that species of amuse-

THE COMING DEATT. - We do not believe there will be any attempt in our community to resist the enforcement of the draft, distasteful though it will be to large numbers of

citizens. Our people generally recognize the \$100. duty of obedience to law, as the only true principle of government. If every man were to be given the privilege of obeying such acts to draft in the first class. of Congress as he likes, or disobeying those that he dislikes, we would soon have an end to all law. The conscription may be constitutional or it may be unconstitutional-we believe most emphatically that it is the latterbut until it has been decided illegal by the conres of proper authority, any attempt to resist it, is unwise and unlawful, and will be, as it deserves to be, severely punished. This is the long settled Democratic theory, and no true member of our party will hesitate where it is his duty to stand. "The law must be obeyed, until it has been decided to be no law by the courts, 'said Andrew Jackson on a Horrible crime! memorable occasion; "but when the courts have once decided any act of Congress to be unconstitutional, it is no more binding than 25th inst., at which gentlemen from abroad if it had never passed." If there to Sterling Doolittle, of Amity ip., for an imare-any who would be disposed to resist the provement in washing machines federal officers in their lawful authority, we say to them, fellow-citizens, do not undertake it. Let the example of the recent riots in New York city be a lessou to you of the fate that will follow any such effort. The Government is strong, and it has the power to put down any opposition to its authority that is likely to arise. It may be that resistance would obtain a temporary advantage, but be the Erie canal. assured that it cannot be permanent. We agree with the Guzette in suggesting that some means of relief should be adopted for those poor men who have families dependent upon them, and can neither pay the commutation money, nor procute substitutes In various cities and towns, the authorities have voted appropriations for this purpose, with the full approbation of a large majority of taxables. Would it not be well for our citizens to take the question into consideration, and see whether some plan cannot be devised to relieve the conscription of a part at least of its barshness?

THE DRAFT .- The draft is now in full progress in Philadelphia. Clergymen, editors, merchants, mechanics, physicians, laborers-all classes are drawn indiscriminately from the wheel, and they are required to either shoulder a musket in the national defence or to fork over their "little three hundred." One of our editorial brethren has dis covered that the conscription act is contrary to the Scriptures, in one of its features:

Albion has been the scene of a num ber of burglarious operations of late. On the night of the 18th, Dr. Logan's house was entered, and that gentleman relieved of the sum of \$100. The Union does not give us any further particulars of the charge, but as Mr. Greeley is a rampaut Republican, the "treason" could not have been of the "Copperhead" kind.

A Word of Nolemn. Connectentious Advice to those who will Reflect.

A class of maladies prevail to a fearful extent in the community, dooming at least 100,000 you the of both sexes annually, to an early grave. These diseases are very imperfectly understood. Their external manifestation, or symptoms, are Nervous Dobility, Relaxation and Exhaustion and Exhaustion; Marasmus or wasting and consumption of the tissues of the whole body; shortness of breathing or hurried breathing on ascending a hill or flight of stairs; great papitation of the Heart; Asthma, Bronchitts and sore Throat; shaking of the Hands and Limbs; aversion to society and to buriness of study; dinness of eye sight, loss of Memory, diriness of the Head, Neuraigia, Pain is in various parts of the body; Pains in the back or limbs, Lumbago, Dyspensia or indigestion, irregularity of the bowels, deranged secretions of the Edineys and other glands of the body, Laucorrheas or Flear Albus, &c. Likewise Epithepy, Hysteria and Nervous Spasma.

Now, in sinety-gine cases out of every one hundred, all the above named disorders, and a host of others not named, as Consumption of the Lungs and that most insideus and will form of tonsumption of the Spinal Nerves, known as Tabes Dorsalla, and Tabes Mesumatrica, have their seat and retain in diseases of the Pelvid Viscèra. Hence the wanter success on the part of old achool practice in treating symptoms only.

Dr. Andrew Stone, Physician to the Troy I mag and Hygienic Institution is now engaged in treating this class of modern maladies with the most astosiphing success.—The treatment adicipated by the fastitution is new; it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of curve are such, that patients can be cared at their homes, on any part of the country, from accurate descriptions of their case, by letter; and have the medicine sent by mail or e

as well at the home of the patients as at the institution by sending the Gold Medicated Inhaling Balbanic Va-PORS, with Inhaler and ample directions or their use, and direct correspondence.

Patients applying for interr gatives or advice, must enclose return stamps to meet attention.

The attending physician will be found at the institution for consultations, from 9 a. m. to 9 p. m., each day.
