ANOTHER TRIBUNE FALSEHOOD. - The New ork Pribate of last week originated a story that a great riot had taken place in Sugar tirove. Watten county, arising out of Demscratic opposition to the draft. The following tre the patticulars as given by the Tribune; nrom yaben'l no naged that death with the threaten and the peared and

Here they were surrounded and finally taken to jui The people were farious, and made desperate efforts to get at the villains and hung them on the shot As it was, its of them were killed."

As most of our readers are aware, this Whole statement is a labelloud, without even the slightest toundation. Sugar Grove is in this Congressional district, and it is almost needless to add that no attempt to enforce the draft has yet been made in any county of the district. The story is very much after the style of the Pribina's Kausas contrages, when letters a couple of columns in length would appear in that paper detailing pretended events that never occurred. The public have now another opportunity to see how urday morning, two weeks ago, that "as an little reliability there is to be placed in the statements of that most mendacious of all the organs of a corrupt Administration.

The Erie Observer is at variance vitl Rev. Dr. Whallon, Presiding Elder of this district because he has spoken in favor of the President's proclamation, and the downfall of slavery—the Doctor having been formerly classed smong the pro-slaveryites. - Connec

No, friend Reporter, that is not our reason Dr Whallon has a perfect right to be "it favor of the President's proclamation and the downfall of slavery," just as he had the right a couple year's ago, to defend Mr. Buchanan's Administration, and to act in the campaign of 1860 with that wing of the Democracy which was most closely identified with it. We do not doubt that there are hundreds of thous ands of men who hold those views, as honest in them as we are in ours, and we accord to them the full privilege of entertaining what opinions they desire. But in doing so, they have no right-morally at least-to denounce others who differ with them as traitors and enemies of their country, and, particularly, to drag their embittered feelings into the church, where men of every partizan creed are expected to gather. It is for the latter conduct that we have called Dr. Whallon to task, and not because we harbor any enmity towards him. Of all the curses that fanaticism has inflicted upon our people, we believe political preaching to be the greatest

We have yet to meet the first man who does not intend to give his full acquiescence to the law, whatever may be his doubts of its justice or constitutionality.
