ORLAND, Ind., 6th June, 1850.

J. C. Arra & Co. Gents: I feel it my duty to ach moveledge what your Earsparilla has done for me. Having inherited a Scrothlous infection, I have suffered from it in various ways for years. Sometimes it burst out is Uters on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsoms beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoited to read in the Gospel Messenger that you had prepared an alterative (Saraparilla); for I knew from your reputation that any thing you made must be good. I sent to Commantiand got it, and used it till it cured ms. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy akin soon began to form under the scale, which after a while fell off. My skin is how clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I to you, that I hold you to be one of the aperties of the age, and remain ever gratefully.

I have cured many investants caused by subcration of the Mercu. The ulceration itself was soon cured. Nothing within my knowledge oquals it for these Senale dorangements."

Syphilis and Reccurful Disease.

New Origans, 25th August, 1850.

Dr. J. C. Aver: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, meet of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Veneruel and Mercurial Disease. One of my patients had Syphilite ulcors in his throat, which were consuming his palate and theo, cured him in five weeks. Another was attacked by secondary symptoms in his none, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill kim. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some, disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her benes. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was carred entirely by your sarsaparilla; a sew weeks. I know from its formula, which your agent gave me, that his Preparation from your laboratory must be a greet remedy; consequently, these truly remarkable results with thave not surprised me.

Fraternally yours,

DR. J. C. One bottle cured me in two weeks, and restored my shealth so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM. attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Getchell, of St. Lonis, writes: "I have been
afflicted for years with an affection of the Liver, which
destroyed my health. I tried every thing, and every thing
hiled to retieve me; and I have been a broken-down man
for some years from no other cause than dereingement of
the Liver. My beloved pastor, the Rev. Mr. Espy, advised
me to try your Sarasjarilla, because he mid he knew you,

Schirrus, Cancer Tumors, Enlargement, Ulceration, Carles and Exfeliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our spaces here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them. farnish gratis to all who call for them.

Dyspopein, Heart Disease, Fite, Epilepsy, Helancholy, Hearnigia.

Many remarkable cures of these affections have been made by the alteralive power of this medicine. Its univalled excellence Eas coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or eyen families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs.
