J. C. Arra L. Co., Gents: I feel it my duty to ne knowledge what your emisparilla has done for me. Having inherited a kerofulous infection, I have anthered from it in various ways for years. Sometimes it burst out in Ulcera on my hands and arms; sometimes it turned inward and distressed hie at the stomach. Two years are it broke onto my head and circuit my scalp and ears with one serve, which was painful and leathsome-beyond description. I tred may mediumes and several physicians, but without much relief from any thing. In fact, the disorder grew wors. At length I was reposed to read in the Goopi Nessenger that you had prepared an alterative (Sarsaparilised of I knew from your apathation that any thing you made hust be good. I skut to Cheimaslandget it, and used it till it cured me. I too, it, as you advise, in small does of a teappoint[0] over month, and used almost three bottles. New and healthy skin soon began to form under the scale, which after a while fell off. My skin is now elear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying whea I tell you, that I hold you to be one of the apactus of the age, and remain ever gratefully.

New Orleans, 23th Angret, 1850.

Dr. J. C. Atter: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarraparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Veneral and Mercurial Disease. One of my patients had Syphilitic offers in his throat, which were consuming his paints and the top of his mouth. Your Sarraparilla, steadly taken, cured him in five weeks. Another was attacked by secondary symploms in his nose, and the interation had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Scrasparilla; the ulcers leaded, and he is well again, not of course without some disfiguation to his face. A woman who had been treated for the same disorder by increary was suffering from this poison in her bone. They had become so sensitive to the weather that the champ day she suffered excruciating, pain in her joint, and have. She, too, was cared entirely by your? A fills in a few weeks. I know from its formula, we have a agent gave me, that remady; consequently, these truly remarkable results with these not surprised me.

efficied for years with an affection of Lie Lees, which
destroyed my bealth. I tried every thing, and every thing
falled to relieve me; and I have been a broken-down man
for some years from no other cause than devangement of

me to try your Saraparilla, because he said be knew you,
and any thing you made was worth trying. By the bleesing of God it has cured me, and has so purified my blood
as to make a new man of me. I feel young again. The
best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Carles and Exfoliation of the Bones.

A great variety of case have been reported to us where cores of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is uscless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its trally wonderful cures of pulmonary discase, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have wen so strongly upon the confidence of mankind.
