Money Wanted.

Wa ask those of our patrons who know them elves to be indebted to us, to settle their no annts it possible, before the first day of musry next. We have heavy payments to eet during the mouth of January, and as it and our fashion to thest our creditors or elay paying them when their money is due, e want to be prompt in meeting he notes at full soon present themselves for our at ention. Our books show a valence in our wer more than large enough to meet every bligation which we are owing; and we can not but believe that the patrous who have exhibited so much kindness to us in the past, will come promptly forward, now that they are acquainted with our necessities, and help a relieve us from all dancer of pecuniary embarrassment. We make this appeal to every debtor of the establishment, and hope that all will respond without delay.

POTTERS BURNED. The extensive Pottery Messrs Webb & Ketlogg, known as the Presque Isle Works, was totally slestroyed by Bre on Sunday emorning last, with the excepion of the kilu, which is said to be july dightly injured. The fire was first discovered bout 4 o'clock, and before any effort could be made to extinguish it the whole building was in dames. A large amount of crockery, for the winter trade, was destroyed, together with almost everything attached to the conern The loss is estimated at about \$3 500 on which there is no insurance.

We earnestly sympathize with Messrs. Webb Kellogg in their misfortune, and trust that our citizens will not fail to give them all the ancouragement necessary to start them attesh on the road forsafety and prosperity. They are both upright, hard working and useful chizens, possessing the esteem of the entire community.

Will not our people take warning before it a too late and organize an efficient the department? We will venture to assert that there a hardly another place in the Union, shamefully deficient in this regard as Erre. It is to be feared, though, that nothing less than the most terrible misfortune will awaken our citizens to a true sense of the dangers which now everkang them, from a want of proper are apparatus, and faithful organizations to work them.

We made a statement in the issue of the Observer two weeks ago, based upon an editorial statement in the Cleveland Plandeds. er, to the effect that while the U. S./S. Michigan lay at Detroit, her gun bore upon the couse occupied by Vallandigham in the t wn n Canada opposite that city. The paragraph was given without comment and as a mere news item; and no one except a bigot or a fool would have supposed that it was intended for any political object. It seems, however, to have aroused the ire of one of that class of individuals who never can see anything right promised to attend. in the course of an opponent, who denies in a last week's Guzette that he officers of the while at Detroit, and says they went here only to recruit men for the navy. He also intimates that the statement was published by us to create "aympathy for Vallandigham and through him, for his so-called Democratic par-

We can hardly believe that any of the officers of the Michigan are the authors of the article in question. In our relations with them, we have always found them to be gentlemen, and as such, had they seen anything objectionable in our paragraph, it is certain they would have come to us in a manly way, and asked for a correction, which they know we should readily have given. The article is more likely to have been written by one of the isundiced political demagnates who make the Gazette the medium of their fulminations, and who never let slip.any opportunity to stirup prejudice against those who do not chime in with their own views of public policy.

ALTERATION IN THE SCHOOL LAW -The attention of our readers is directed to the fact that, by the act of April 14th, 1863, the sum appropriated for the support of common schools for the school year ending on the prat-Monday of June, 1864, is to be divided among the several districts, in proportion to the number of children attending school therein. and not, as formerly, according to the number of resident taxables. This is an important alteration, and will materially change the amounts received by the different districts .-Now, as we understand the subject, the greater the number of scholars and the more regular their attendance upon the fublic schools, the greater will be the amount of money received from the State treasury -- Harrafurg

HARD TO DECIDE.-If anybody can tell anything better than this, let him bring it forward. It is said to be related by Mr.

EDINBORO NORMAL SCHOOL .- We are much pleased to learn that this fine institution is in more prosperous condition at the present time than even the most ardent friends of the faculty anticipated. The catalogue issued on the first of the month showed an attendance of 146 pupils in the Normal department during the last session. This large number is already exceeded for the winter term, the names of 158 young men and ladies being upon the roll, or more than double the usual list. During the last term important additions have been made to the buildings and apparatus, including a superior Gymnasium, piano, melodeon, cabinet, organ and several valuable instruments to/illustrate the subjects of light, heat and proumatics. The reading room attached to the school contains many of Bery The Gazette, which has several times | the leading daily and weekly newspapers, the insinuated that Judge Thompson, of the Su- educational journals of all the Free States, abundant testimony/to the good management of the school, and the prosperity that awaits The Gazette is determined not to see it. ittention, Soldiers, and Friends of Soldiers.

We call the attention of all having relations or friends in the army, to the fact that "HOOPLAND'S German Bittera" will cure more truths of the diseases induced by exposures and privations incident to camp life. In the insta, published aimont daily in the newspapers, on the arrival of the suck, it will be noticed that a very large proportion are suffering from debulty. Every case of that kind can be readily cursed by Hoofland's terman Bitters. 11-sases resulting from disorders of the discontineous are speedily removed. We have no leastation in stating that, if these bitters were freely used among our soldiers, houdreds of lives might be asred that otherwise will be lost.

We call particular attention to the following remarkable and cell authenticated cure of one of the nation's heroes, whose life, to use his own language, "has been saved by the Bittera:"
