tertain preventive. The Extract is made in our own city, and if any have doubts of its merits, we ask them to call upon Mr. Carter, and read the testimony he has by the score.

THE OBSERVER .-- We are gratified to be able to announce that the business of our office is largely on the increase in all its departments-our books showing that we are doing a larger amount of business by onethird than we did at this period last year. While the subscription list of the paper is nearly double what it was when we took the office, our jobbing and advertising patronage bes increased in like propurtion, and, owing to the scarcity of labor, we find ourself so crowded with the management of the office as to leave us hardly any time for editorial duties. We attribute very much of the success which has attended the Observer within the past two years to the unjust and indecent abuse which it has suffered at the hands of some of the political enemies of the paper. The Democrats of the county have rallied to our support with a kindness and alacrity that is at once gratifying and encouraging, and where we have lost one patron on account of political differences we have gained ten in his place. It has been so ever since the world began-malice and scurrility never damages any one permanently, when the people see that he takes a firm, consistent and honest course.

A RARE TREAT .- Our oitizens, who have been so often humbugged, by worthless and sometimes indecent theatrical companies, will be delighted to learn that we are at last to be visited by one of first-class talent, and with a well established reputation. We were called upon on Wednesday by Mr. James Dickson, Stage Manager of the Cleveland Dramatic Company, who informed us that they intead performing in our city on Tuesday and Wednesday evenings of next week, under the general management of Mr. John Elisler, the well known comedian. The immediate occasion of their visit is owing to the great ball which comes off at Cleveland on Wednesday evening, in celebration of the opening of the A. & G. W. R. R. to that city-the hall of the Theatre being engaged for the purpose. On this account their stay will only be for the two evenings mentioned, and positively "positively no longer."

The Cleveland Company consists of some of the first-dramatic talent in the country. First on the list, stands Mr. C. W. Couldock the eminent tragedian, who will appear in two of his most celebrated characters-"Luke Fielding," in "Willow Copse," and "Peter Probity" in the celebrated English comedy, "Chimney Corner." We have seen Mr. Couldock a performances on various ornasions, in addition to having his personal acquaintance, and can assure our readers, that knee.
