BENER & BURGESS' COLUNN, --- We call paricular notice to the column advertisement of lesers. Bener & Burgess, a firm which we baye irequently commended to patronage heretofore . These gentlemen are among he very fow business men in our city who apreciate the advantage of extensive adversing, and they do so because they have tried t and found it to work as they desired. The trade of their establishment has more than doubled within the year they have conducted the store, and though much of their success is due to the skill and public spirit of the proprietors, they will not hesitute to say that a great degree of it is owing to liberal advertising. They show their faith in the mater by engaging an entire column for a year, and we heartily trust that the money they nyest may bring them back a hundred fold.

FIRE MEETING -Another meeting for the dat District was held in the Common Council foom, on Tuesday evening, to make arrangements for organizing a fire company. The Committee appointed at the previous meeting to obtain signatures, reported that fortyseven persons had signed the roll.; A Committee of five was selected to report a Constiution and By-Laws at the next meeting. Adjourned until Tuesday evening next. Direotions were given to have the roll placed in Ensign's book store for the signatures of any who may wish to join the company.

We think we are warranted in saying that this company will not be a failure. The gentlemen who are active in its organization are men of energy, who are determined to carry he movement through, if there is a possibility of doing so. We have heard of no action being taken in any of the other districts.
