Inhalation of Oxygenized Air,

All Diska-ES OF THE HUMAN SYSTEM.

The Oxygen is breathed directly into the Lungs, and through them earried into the blo d, expelling all imparities from the system, and healing any and every desses with which it may come in contact. The cause of Cougha, Colus and Consumption, is a lack of oxygen in the air we breathe. By the inhalation of oxygenized air, the blood becomes oxygenized and purified, and disease disappears like dew before the sun.

A few a iministrations of the exygen will ours any of the filowing diseases: Dyspepus Mearsigia, Rhemmatiem, Palpitation Paralvia, Epilepsy, Eruptions, Consumption, asthma, Bronchitta, Serodia, Liver Complaint, Nervousness, from whitever asse, Difficult Breathing, Cancers, "ait Rhemm, Erysphelas, Mercural Diseases, Kidney Cemplants, Syphilis, Female Weaknesses of all kinds, and in fact, all diseases requiring a purification of the clood.

This was followed by by great debility, heightened by an attack of dynamical countries. I was then removed from the White Hopes, and fent o this city on board the Staumer "State of Maine," from which I landed on the Staumer "State of Maine," from which I landed on the State of June. Since that time! have been about as low as any one could be and till retain a spark of vitality. For a week or more it was scarcely able to swallow anything, and if I slid force a morsel down, it was immediately thrown up again.

I could not even keep a giase of water on my stomach, Life could not tast under these circumstances; and accordingly the physicians who had been working faithfully, though unsuccessfully, to rescue me from the grasp of the dread Archer, frankly told me that they could do see me re for me and advised me to see a clergy-man, and to make such disposition of my limited funds as a faithful to the state of t
